DIVERS HUNT FOR BODIES: Coast Guard divers cling to side of capsized Dixie Lee II during search for bodies of persons missing after boat capsized in Chesapeake Bay during storm Monday. (AP Wirephoto)

## Chesapeake Bay Storm Claims 13

NORFOLK, Va. (AP) — A 42 foot fishing boat ignored advance warning of a thunderstorm, ventured out onto Chesapeake Bay and was capsized by a 10-foot wave, the Coast Guard says. Four persons drowned.

Nine others were missing this morning. The remaining 14 persons aboard the charter vessel were rescued by another charter boat.

None of the victims' identities had been released.

The Dixie Lee II had left its Norfolk boathouse Monday despite the storm forecast because "there was no mention of the huge winds," said the boathouse owner.

It capsized at a point about five miles north of here and three miles east of the Hampton Roads Bridge-Tunnel, which spans the bay between Norfolk and Hampton.

One of the survivors, 23-year-old Malvis Ware of Norfolk, said

"it started raining and everybody pulled in their lines. Then it started raining harder. Everybody started screaming and running to the other side of the boat because it was raining so hard."

She said the next thing she knew the Dixie Lee II had capsized.

"When I got in the water, I realized I had to get to the top. I was hoping and praying I would come up outside the boat. When I came up, I thought even though I was still alive I wasn't going to make it."

She said she clung to the boat for about 45 minutes before being rescued by the Joyce Lee.

Diane Harrison, whose family owns the boathouse where the Dixie Lee II was berthed, said the "weather was beautiful" before the fast-moving storm hit the area.

The National Weather Service said winds gusted to 88 miles per hour at Norfolk Interna-

tional Airport during the height of the storm.

"Fishermen go out if it rains, storms or thunderstorms," Mrs. Harrison said. "They're die-hards."

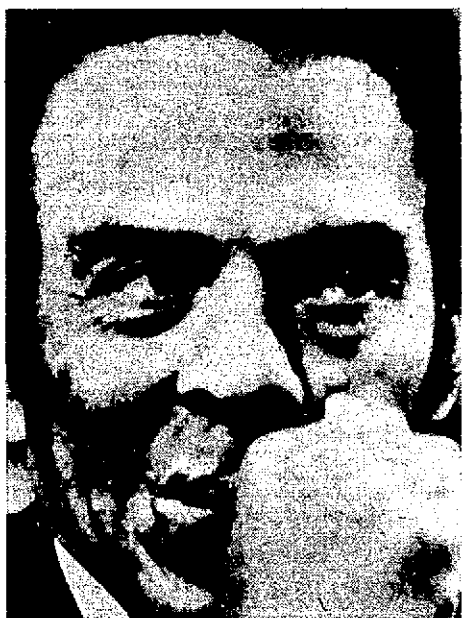

Paul Holland, captain of the Joyce Lee, said he passed the Dixie Lee II on his way out of the bay Monday afternoon and spotted debris from the capsized boat as he was returning about 5 p.m.

Holland said three of the survivors were hanging onto debris and the others clung to the boat.

"One guy said they were sailing and the wind started catching the boat. They asked the captain if he was going in and he told them, 'No.' And then about five minutes later, the wind caught the boat and flipped it over," Holland said.

The capsizing of the Dixie Lee II was the worst boating accident in Chesapeake Bay since August 1955, when 14 persons drowned.

## Police Chiefs Blast Supreme Court Ruling

WASHINGTON (AP) — Convicted "cop killers" cannot automatically be condemned to death by states trying to give police officers an extra layer of legal protection, the Supreme Court says.

A sympathetic but firm court said in a 5-4 decision Monday that such mandatory death sentence laws are unconstitutional.

citizens, but their murder is the ultimate killing," Ellingsworth said.

"Police officers are the last line of protection between lawabiding citizens and the criminal element. We felt it (the mandatory death sentence) was a sound law based on reality," he said.

The court's ruling, on a

punishment.

"Because the Louisiana statute does not allow consideration of particularized mitigating factors, it is unconstitutional," the court's majority opinion said.

The unsigned Supreme Court opinion won the endorsement of Justices William Brennan, Lewis Powell Jr., Thurgood Marshall, Potter Stewart and John Paul Stevens.

Chief Justice Warren Burger and Justices William Rehnquist, Harry Blackmun and Byron White dissented.

In his dissent, Rehnquist called police officers "the foot soldiers of society's defense of ordered liberty," and said states should be allowed to enact special laws for their protection.

The court's majority said it appreciated the danger involved in a police officer's job, but said that factor was not enough to justify mandatory death sentences.

The court, however, specifically noted that it was not ruling on whether a mandatory death penalty can be imposed on a prison inmate who kills a guard while serving a life sentence. That issue could be decided in a future case.

The court last summer upheld capital punishment as constitutional when applied to convicted murderers. Later this month the justices will decide whether death is a suitable punishment for rapists.

In other decisions Monday, the court:

— Split 5-4 in ruling that persons may be prosecuted for obscenity violations if they exploit the sexual nature of films or books even if they don't openly advertise or promote the material's contents.

The court also ruled that states can deny welfare payments to unwed mothers who refuse to cooperate in seeking child support from the fathers of their illegitimate children.

The court let stand a decision by a federal court in Washington last November that such requirements are valid.

The latest government study, conducted in 1975, showed that 25 million of the 8.1 million children then on welfare were illegitimate.

The Court refused to strike down federal laws which enable either house of Congress to veto rules and regulations set by the executive branch.

### Mandatory Death Law Scrapped By Justices

tionally "cruel and unusual punishment" because they prohibit judges and juries from considering the particular circumstances of a case.

The decision does not mean that persons convicted of murdering a police officer cannot be sentenced to die, but rather that judges and juries must have a chance to choose between capital punishment and life in prison for the murderer.

The ruling drew heavy criticism from law enforcement groups.

"We don't need to make things less dangerous for criminals," said William Ellingsworth, a spokesman for the International Association of Chiefs of Police in Gaithersburg, Md.

"It's not that police officers are more significant than other

Louisiana law, will spare the life of Harry Roberts, a Death Row inmate from New Orleans. Roberts, convicted and sentenced to die for the 1971 murder of a New Orleans policeman, had challenged the state law.

Two other Death Row inmates, both from New York, appear to have had their lives spared by the ruling. New York has a law similar to the stricken Louisiana statute, and it presumably is invalid.

Ellis McGee, an assistant Louisiana attorney general, said other capital cases in the state would be unaffected by the ruling because the 1974 law struck down had been replaced last year by new death penalty laws in an effort by the Louisiana legislature to meet court guidelines on capital

COLLEGES T-SHIRT: Lester C. Tiscornia, president of Auto Specialties Co., St. Joseph, presents front and back view of special T-shirt he was given when he stepped down after four years as chairman of Michigan Colleges Foundation. Names on the T-shirt are those of 16 private colleges in Michigan that are assisted financially by the Foundation.

## Tiscornia Is Honored By Colleges Foundation

One Twin Cities industrialist was honored as a retiring officer and another was elected to the board of trustees of the Michigan Colleges Foundation at its recent 28th annual meeting in Detroit.

Lester C. Tiscornia, president of Auto Specialties Manufacturing Co., St. Joseph, was honored for four years service as president and chairman of the Foundation. He was presented a silver service bowl and also given a T-shirt bearing the names of all 16 private Michigan colleges that are members of the Foundation.

Jack D. Sparks, executive vice president of Whirlpool Corp., was elected as a trustee of the Foundation. Sparks is chairman of the board of Olivet

college, one of the member institutions.

Tiscornia, stepping down after four years at the head of the Foundation, will remain a trustee and on the executive committee. He was succeeded as foundation chairman by Ralph J. Ladd, chairman of Michigan Mutual Insurance Co. of Detroit. Tiscornia headed the group from 1973 to 1977.

The Michigan College Foundation provides a medium through which business, industry, foundations and other donors can contribute to the operating programs of the 16 private colleges in the state that are members. Since its formation, the foundation has raised some \$18 million from over 20,000 supporters.

## Owners Must Show Why Dog Shouldn't Be Killed

BY LARRY MACINTYRE  
Staff Writer

Acting under a seldom used state law, Berrien District Judge Leo Cook has ordered the owners of a 60-pound German Shepherd accused of attacking a nine-year-old boy in Three Oaks May 25 to show cause why the dog should not be killed.

The judge scheduled a show cause hearing on the matter for Friday, June 10, at 2 p.m. in St. Joseph.

The hearing was scheduled on petition of Mrs. Janice Strickland, of 404 Magnolia, Three Oaks. Her son, Charles M. Damron, was released from Berrien General hospital June 1 after undergoing surgery for facial injuries received when he was bitten by a dog.

Through her attorney, George Keller of St. Joseph, Mrs. Strickland filed a sworn statement in District court Friday alleging that the dog is "vicious, is permitted to run at large, and is the cause of terror, distress and apprehension among the neighbors."

The statement claims the dog, named Shep, has "bitten and attacked" other children as well as Mrs. Strickland's son.

The statement alleges that the dog is owned jointly or separately by Ron Keller, his wife Sue, and Paul Oselka. It claims the dog is maintained on the premises of the Keller home, 458 Basswood road, and the adjoining Oselka airport.

Paul Oselka is owner of Oselka Construction Co., Union Pier, and developer of Snug Harbor Marina, New Buffalo,

and Oselka airport just southwest of Three Oaks.

Atty. Keller, no relation to Mr. and Mrs. Ron Keller, said yesterday the petition was filed in court under an old and seldom used state law.

The law allows justices of the peace to order a dog's owner to show cause why the dog should not be killed if a sworn complaint is filed charging that the dog is running at large, shows vicious habits, has bitten someone, or has destroyed property, according to Keller.

He said a district court judge now has jurisdiction because there are no more justices of the peace.

According to Mrs. Strickland's statement, the dog was returned to the Kellers June 3 after being held by the Berrien county dog pound for rabies observation 10 days.

Al Kuiper, director of animal control for the county, said the prosecutor's office would not approve legal steps he took to have the dog destroyed because the attack took place on private property. He said the dog bit another person in May, 1976.

DETROIT (AP) — The winning number in Monday's Michigan Bureau of the State Lottery Daily Game is: four-two-zero (420).

## Hartford Boy, 15, Accused

By STEVE McQUOWN  
Assistant State Editor

HARTFORD — Police here said a 15-year-old Hartford boy was taken into custody in Coloma township last night shortly after the reported break in at Brookfield Auto Sales, 501 West Main street, in Hartford.

Hartford Police Chief Lee Spencer said he will seek to petition Robert Cunningham, 118 North Maple street, Hartford, into Van Buren county juvenile court on charges of breaking and entering and auto theft.

Spencer said an employee of the auto firm reported about

8:30 p.m., that an office window at the firm had been broken and a 1975 auto driven off from the lot after the intruder apparently got keys to the auto from the office.

The Hartford police broadcast a description of the car to area police agencies and at about 9 p.m., Coloma township and Coloma city police reported they had recovered a car matching the description at Hagar Shore and North Coloma roads in Coloma township.

Township police said a 15-year-old youth found near the car was taken into custody

Spencer said the youth's name was being released because the youth has been taken into custody on felony charges on four previous occasions dating back to April, 1976. The seven felony charges included attempted breaking and entering, malicious destruction of property (\$3,000 in vandalism at the high school), two counts of auto theft and a count of larceny from an auto, and for throwing a rock that smashed the window of a passing truck.

Disposition of those charges in juvenile court is not public record.

## Business Chieftains Rate The Student Body

With something over two dozen public school districts in this area holding millage elections next Monday, a recent survey by the Conference Board, a New York City based nonprofit research group financed by the business community, presents an interesting assessment of the educational process.

The business community has languished low on the totem pole among college students since the 1960s.

A tighter job market for graduates in the past few years has obscured this fact to a degree, but in the main, given their druthers, most college students prefer careers in fields not associated with the goal of causing the account books to be printed in black ink.

Considering that backdrop, the Conference Board's report could be written off as the object of an appraisal turning upon its critic.

Keeping in mind, however, that the business recruiter is still a familiar pre-commencement figure on the nation's campuses, the desire for the trained intellect still burns strong within the board room.

The Conference Board's survey indicates that business executives looking for skilled trainees rate the collegiate and high school process at a quivery C.

About 41 per cent of them feel the graduating class is inadequately or poorly trained for work; 47 per cent list the system as adequate or fair; and only 12 per cent extend a good or excellent citation.

This disparity centers about the type of instruction.

Coming off well is the engineering school and others devoted to the sciences. The business people give them a 10-1 margin for good results.

Close behind is the two-year college with a vocational curricula. It stands 7-1 for turning out a qualified person.

The vocational high school and the four-year business college drops to mid ground.

Bringing up the rear is the liberal arts oriented high school or college.

The latter's appraisal is a pronounced shift in thinking within the business world.

A few years ago the business community began voicing the opinion that the specialist brought too narrow an outlook to his future employer and that the need was emerging for the generalist, that is, the liberal arts graduate, whose broader background might be adaptable to whatever specialization the employer might deem necessary and which he could supply.

In responding to a question about general work competencies as opposed to specialized training, 54 per cent of the executives cited language skills as being deficient and 24 per cent put mathematical skill in the same deficiency bracket.

Their reply does not go to a job applicant's fluency in a foreign language or his proficiency in calculus.

Rather it is to the ability to read and listen and to reply intelligibly in English, and the capacity to perform such mundane tasks as balancing a check book and to discern the broad patterns from statistical data.

The respondents to the questionnaire gave the liberal arts a poor rating by a 3-1 margin.

One rose does not make a summer. Neither does an opinion sampling from one group speak as if it is the nation's voice.

However, when many colleges find it necessary to give remedial courses in reading and arithmetic to part of the freshman class, and more and more employers are finding it desirable to continue the process among some of their recruits, the implication is plain to see.

The training program needs re-examining.

## Reversal

Health officials were hopeful last August their 10-year-old campaign to eradicate smallpox from the earth was almost over. Only one case — in Ethiopia — was reported at that time. Since then, hundreds of cases have been reported in neighboring Somalia and now several more have been found in Ethiopia.

World Health Organization Officials have counted almost 300 new cases of the disease in these two countries since May. They believe the peak of this latest epidemic is over, but until the last case once again is diagnosed the possibility for renewed outbreaks continues.

What makes the campaign against smallpox unique is that if medical science is successful in eradicating the disease it will be the first time a natural viral-caused disease is eliminated worldwide. The difficulty of that achievement is indicated by the smallpox reversal.

## Can Jimmy Top Billy In The Publishing Field?

It sometimes seems as though President Carter has milked the media absolutely dry, but he keeps managing to come up with something new. This time it is a book, A Government as

Good as Its People, which Simon & Schuster will publish on Monday, June 13. The contents are as familiar as its title: They consist of previously published articles and interviews, plus excerpts from the Ford-Carter debates. In his introduction, Carter writes that his intention is to remind the American people "of the commitments I made as a candidate and the standards to which I must be held accountable as long as I hold the office of President."

Some people may think it unseemly for a President to produce a book while still in office. The practice has ample precedent, however. Every President from Theodore Roosevelt to Franklin Roosevelt wrote and published at least one book during his time in the White House. The first Roosevelt wrote three — Outdoor Pastimes of an American Hunter (1905), Good Hunting (1907) and True Americanism (1907). In his lifetime, TR turned out more than 30 books. John Quincy Adams and Herbert Hoover were prolific authors, too.

Other members of the Carter family also are getting into the publishing act. The President's sister, Ruth Carter Stapleton, is an established author of inspirational religious texts. A Carter family cookbook is on the market. Redneck Power: The Wit and Wisdom of Billy Carter, contains such choice Billyisms as, "I'm a real Southern boy. I got a red neck, white socks, and Blue Ribbon beer." Can the President possibly top that?

## Looks A Little Busy For Handshaking!

## Says Legislators Reflect Women's Abortion Views

Editor,

We would like to acknowledge your editorial of June 3 on the Constitutional Convention Call on Abortion. The more publicity given this memorialization, the more quickly it will be passed in the state senate. Citizens should start contacting their senators immediately and communicate their strong pro-life feelings.

How sad, though, that since you could not comprehend the principles involved, you choose to reduce your editorial to attacks on the personalities.

In summary, you stated that these legislators voting in favor of the memorialization to limit abortion, as men, had no right to even consider the "woman's issue."

Your argument in fact just stereotypes women as members of a group, without separate minds and individual viewpoints.

In addition, every major survey has shown that more men are in favor of permissive abortion than women. Abortion is the ultimate exploitation of women. It is a return to the old story of total responsibility for sexual relations forced on to the female, with total irresponsibility for the male. So, to turn

your logic, these male legislators have accurately reflected the woman's viewpoint!

Abortion is not, though, just a woman's issue; it is a human issue. We will state the obvious: half the babies killed are male and every child has a male parent.

Abortion is not solely a "female operation" either. We

intimate recognition and equal protection under the law of every human being, born and unborn.

We would be pleased to share information on the Constitutional Convention Call with anyone requesting it.

### W.S.A.M. ASKS FOR 'NO' VOTE

Editor,

The following is a copy of a letter sent to President Carter and Senators and Representatives in Washington. I urge others to write also. This is another unnecessary and harmful bill.

President Carter  
Office of the President  
Washington, D.C. 20510

Dear President:

I am writing concerning Consumer Agency Act — House bill 6118 and Senate bill 2612.

Please vote No. This is a repeat on agencies already covered and a waste of tax dollars. From the agricultural viewpoint, we are 5 per cent of the population. The other 95 per cent by sheer number control our destiny. They do not understand our industry. Their complaints will make it impossible for us farmers to keep food on their table. You better explain that to them before it's too late. We in agriculture are specialists. We understand our job. Leave us alone and we will continue to feed the world. If consumers unknowingly tie our hands you will suffer.

You can't bargain with world markets if you don't have our food supply to bargain with.

Again, for our sake and yours, vote No.

Respectfully  
Mrs. Mildred Schultz  
Pres. of South West  
Chapter W.S.A.M.  
2136 Park road  
Coloma, Mich. 49038

Join me and send your letters to the President, Senators and Representatives. The louder the voice the sooner they'll listen.

Mildred Schultz

## Do You REMEMBER?

— 10 Years Ago —

Lincoln township voters, by a 222-vote margin, restored residential zoning to 300 acres within Grand Mere. Their voters yesterday overruled action taken by the Lincoln township board, which would have permitted planned development of the northern 300 acres of the 1,200 acre wilderness tract. The vote constituted a major victory for proponents of conservation, spearheaded by the Grand Mere association. This association, headed by Gordon Krachey, has worked to preserve Grand Mere in its natural state, with an eye toward recreation and conservation. Disappointment was shared by the township board and Richard Litzinger, who headed a new group, called the Lakeshore Development committee. The group supported commercial interests in Grand Mere and was comprised mainly of Lakeshore Jaycees, Chamber of Commerce and Lions club members.

— 25 Years Ago —

Thirty years on the Hollywood front as a motion picture director and producer have left their marks on Harry Joe Brown. Here for a weekend visit with oldtime friends. But he's the same old smiling and courteous Harry that he was in the earlier days when in his local school vacations, he was operating a refreshment stand on the old Graham & Morton boats that sailed between the local port and Chicago. Brown in an interview today pooh-poohed the idea that television is going to eclipse the movies as America's favorite entertainment. Brown is currently producing as an independent producer, films for TV showing. Undoubtedly, he says, more and better films will be on TV, but this won't compete with the bigger and finer films which Hollywood will turn

out for theater showing.

— 50 Years Ago —

The pioneer plant, known as Mullen Bros. paper mill, closed for the past two years, will reopen very shortly, it became known today through an announcement made by the St. Joseph Chamber of Commerce. The former Mullen plant has been purchased by a syndicate of South Bend men. The mill will be operated under the name of the St. Joseph Board and Paper company.

— 75 Years Ago —

Mr. and Mrs. W.H. Wightman and daughter, Lena, left Friday for their new home in Montana after residing for years in Fair Plain. Mrs. Wightman was one of the oldest teachers in Berrien county having taught for more than 50 years.

Daley Machine  
In Low Gear

CHICAGO — (NEA) — The first tipoff came on the ride into town. The motorcade bearing Vice President Mondale to the city's most sacred political event took almost 50 minutes to travel through rush hour traffic from O'Hare Airport into the Loop.

For ordinary mortals, that would be spectacularly good time. For a Democratic VIP of Mondale's stature, it was unthinkable. Mayor Richard J. Daley would have blocked every freeway entrance with cops — the public's convenience be damned — and whisked his guest to the Cook County Democratic Dinner in 30 minutes flat.

But Richard J. Daley is in his grave, and nothing is quite the same in Chicago these days. Despite herculean efforts by Da Mare's successors in suppress the evidence, it is clear the Cook County Democratic Organization has a bad case of the shakes.

A faint air of paranoia permeated the annual dinner attended by more than 7,000 Organization stalwarts recently. Acting Mayor Michael A. Bilandic and County Chairman George W. Dunne, who now share the two hats Daley wore alone, presided over the festivities with all the verve of men fearing a sneak hit by the mob.

But the city alone can no longer deliver Illinois to the Democrats. The Carter-Mondale ticket came out of Chicago last November with a 67 per cent victory, the best showing of any Democratic presidential candidate since the Lyndon Johnson landslide of 1964. But the Democrats took only 54 per cent of Cook County, which includes the suburbs, and lost Illinois to Gerald Ford by 112,874 votes.

The machine can still produce, but there are fewer and fewer Chicago voters to deliver each year. Election statistics compiled by political analyst Richard Scammon show the total city vote has declined

by one-third, or 615,000 people, since 1962.

Since 1960, when Chicago provided the edge that gave John F. Kennedy the Illinois electoral vote and the presidential election, the city vote has declined from 36 per cent of the statewide total to 26 per cent as of 1976.

The diminution of Chicago's political clout stems partly from demographic shifts — the population drain to the suburbs typical of all big American cities — and partly from the changing composition of the voters who remain.

The Irish and Polish-Americans who were the bedrock of Daley's machine still control city politics, but there is an ever-growing black population in Chicago with a far lower voter turnout record. The times, they are a-changing, for better or worse.

Again and again, they insisted that nothing has changed with Daley's death. "We are going to continue to do the things we were taught to do in the past 21 years," Bilandic told party foot soldiers over a microphone which promptly malfunctioned as the mayor's minions spluttered.

Yet even as the party chieftains promised continuity, Mondale's presence was a silent reminder that Chicago is losing its grip on the national Democratic party — no matter how well the machine holds together internally.

Mondale was at the Cook County dinner solely because Jimmy Carter turned down the invitation following Daley's death. No Democratic president ever refused to come at Daley's command, and Carter's snub ranked deeply.

Whatever happens in Chicago in the months and years ahead, it now seems certain that its Democratic Organization will no longer dominate the calculations of national party presidential candidates and conversions

Jeffrey Hart

## Carter Reverses Nixon Strategy

After Richard Nixon's 1968 election victory, his closest advisors urged him to move to the left in domestic policy. After all, they reasoned, the conservatives really had no place else to go, and Nixon could broaden his support by moving in a liberal direction.

The presence on the scene of a very energetic George Wallace imposed some limits on this strategy, but Nixon did propose a scheme that would have vastly increased expenditure for welfare (Family Assistance Plan), he did vastly expand the food stamp program, and he presided over a condition of détente with the entrenched Federal bureaucracy.

Jimmy Carter has been employing the Nixon strategy, only in a reverse version. Someone, evidently in the White House, leaked to the New York Times a very astute memo to Carter from his pollster Patrick Caddell.

This document, some 60 pages long, contains a great many interesting and shrewd items. In a nutshell, however, Caddell advised Carter to forget the liberals and woo the moderates and conservatives. In that way, Carter could expand his support; and, though the liberals may scream, they really have no place to go.

At the moment, Carter is threatening to veto three bills that have been making their way through Congress: the farm bill, the 18 water projects, and a Federal aid to education bill. He has also, and insistently, given budgetary considerations priority over new social spending schemes. Addressing a United Auto Workers audience in Los Angeles, Carter said "we cannot afford to do everything" — and received an ovation for that sentiment.

But the Congress is also divided on these issues. Among

Congressional Democrats, there may be a majority for large social spending and soaring deficits, but the pendulum has been swinging in the opposite direction.

Within the White House, too, there appears to be an ideological split. On the one hand, we have the Carter fiscal conservatism noted above. But notice, also, that the Carter response to a crisis always seems to have an egalitarian and redistributive component.

Thus the proposed tax on petroleum might be used for "welfare reform." The Social Security problem is to be solved by increasing the employer's tax on above average salaries. The now defunct tax rebate was to be confined to those earning less than \$15,000.

Just in case Carter is imitating Nixon in another respect, and has some Plumber hidden away in the basement, I would advise him to take a close look at the staff of Vice President Walter Mondale, who has not bothered to hide his discontent with Carter's present direction.

## Son May Be Tried As Adult

PONTIAC, Mich. (AP) — The Oakland County prosecutor's office will seek to try a 18-year-old Bloomfield Township youth as an adult in the shooting death of his father.

Gary Wohlers III was being held without bond at the Oakland County Children's Village following a probate hearing Monday, according to Asst. Prosecutor Richard Thompson.

Wohlers is accused of ambushing his father, 39-year-old Gary Wohlers II, with a shotgun Sunday while the father was jogging near the family home.

## Tax Levies, 2 Seats On BH School Ballot

Benton Harbor school district residents at the annual school election June 13 will decide two separate millage propositions: a

Voters also will elect two people to the board of education for four-year terms from a field of four active candidates.

Mrs. Jacqueline (C. William) Pearson.  
The name of a fifth person, Mrs. Ethel (David) Frazer, also

withdrawal came too late to remove her name from the ballot.

The millage propositions are similar to those defeated in a special election last March 15. The 4-mill operating tax, however, was proposed for one year in March and is now planned for five years. The 1-mill levy was set for five years both in March and for the June election.

Schools Supt. Richard Helsler in April announced budget cuts of \$1.36 million for next year. However, he said about \$800,000 of the cuts would be restored, if the 4-mill operating tax were approved.

The cuts of \$1.36 million from a tentative budget of \$16.5 million were listed to include 200 jobs, four minor high school sports and all elementary physical education. Helsler said the four additional mills would enable the district to restore the athletics and physical education, as well as elementary art and field trips.

District voters at the March election approved renewal of 21.35 mills in operating taxes that will run five years.

All active candidates have voiced support for more millage to operate schools and to maintain buildings.

Beland and Mrs. Fox showed their support for the two millage proposals at the April 18 board meeting when they voted to place them on the ballot.

Mrs. Pearson and Moore said in a joint statement qualifying their support: "We support an operating millage increase, but believe that with cuts in administrative costs, the increase could be less than four mills."

Both said they support the 1-mill proposal.

Beland, 38, has been on the board for six years, first filling a two-year vacancy and then one full term. Beland is a custodial supervisor for St. Joseph public schools. He previously was self-employed as a contractor. Beland and his wife, Elsie, are the parents of three children. The family resides at 2355 Lu-Al drive, Fairplain.

Mrs. Fox, 45, is seeking her third term on the board. She is a registered nurse and has been employed at Memorial hospital, St. Joseph, for 23 years. Mrs. Fox in 1973 became the first woman to serve on the Berrien county tax allocation board. She and her husband, Harold, who is a fruit grower, live at 3090 Hillandale road, Sodus township. They are the parents of three children. Moore, 32, of 536 Colfax avenue, is a lifelong resident of Benton Harbor. He is a counselor with the Berrien Youth Services bureau and has been a substitute teacher in the Benton Harbor district. He has a bachelor's degree from Western Michigan university. He served in the Marine Corps in the Vietnam war and won the Navy Cross, the nation's second highest award for heroism in combat. His wife, Gloria, is an operating room nurse at Mercy hospital. They have one daughter.

Mrs. Pearson, 39, has lived in this area eight years. She taught two years in a private nursery school and is now employed part-time at U-Rental, M-139, Benton township. Mrs. Pearson attended Gove City, Pa., college and received an executive secretarial certificate. She has taken college courses in early childhood education. Mrs. Pearson is married to the Rev. C. William Pearson, pastor of St. Mark Lutheran church. They have three children and reside at 382 Elvren drive, Fairplain.

### Five Mills And Four Candidates Are Up For Decision On June 13

new 4-mill extra-voted operating tax; and a 1-mill levy to maintain school buildings. Both would run for five years.

Candidates are incumbents Bernard R. Beland and Mrs. Ilene (Harold) Fox and challengers Freddie Moore and

will be on the ballot, but Mrs. Frazer announced on May 20 that she was withdrawing as an active candidate. The

## Benton Twp. Pay Petitions Okayed

More than enough signatures have been validated to call a referendum on Benton township's compensation commission ordinance, according to Supervisor Catheryn Sirk. She said 819 signatures have been validated as registered voters, and only 525 were needed for a referendum. The petitions filed contained more than 819 signatures, but the Concerned Citizens and Taxpayers of Benton township, who conducted the petition drive, did not require a complete check, Mrs. Sirk said.

The group filed the petitions May 23. Frank Graziano, co-chairman, said at the time there

were 1,307 signatures. Mrs. Sirk said the matter will be presented to the township board at its regular meeting tomorrow night. She said the board could schedule an election on the issue or repeal the ordinance which could eliminate a referendum.

When the petitions were filed, the citizens' group said repeal of the ordinance would spare the cost of an election. The ordinance was passed by the board of trustees March 15. It provides for appointment of a compensation commission to set the salaries of township elected officers.

## Lancer Graduating Class Numbers 250

A total of 250 seniors will graduate from Lakeshore high school during the school's 28th commencement exercises Wednesday, at 8 p.m., at Lancer field.

Three students were selected by their fellow classmates to speak at the graduation ceremonies, according to Edward Reilly, high school principal. Named speakers were Mike Bradley, Julie Donczkowski and Robin Wallis.

Graduating seniors, according to the high school, are:

Diane Ackall, Diane Adams, David Anderson, David Anstey, Deborah Ashbrook, Ruth Atkinson, Tamara Augst, Karen Avery, Nancy Avery, Laura Bailey, Larry Banks, Robin Barker, Raya Bauschke, Judy Beck, Julie Belonger, Richard Berndt, Mary Beutler, Laura Bischoff, Kathy Blaker, David Block, Mary Boelcke, Rosan, Bohm, Jon Bomberger, Julie Bonczkowski, Michael Bradley, Jeri Brame.

Also, Tama Brame, Kimberly Brown, Garold Buckner, Roger Burns III, David Byers, Kevin Campbell, John Caris, Donald Carlsen, Cynthia Catania, Kelly Clark, Cathy Clement, Sue Corison, Linda Crago, Michael Craig, Lorey Cross, Marti

Crowe, James Curry, Mary Daniel, Diane Dasse, Ruth Davis, Timothy Devoir, Vickie Dover, John Devus, Mike Dumont, Rhonda Edwards, Elyn Erker, Timothy Eversole, Susan Farrow, Frederick Faust, Richard Fechner, James Federan, Cheryl Fell, Belinda Fincher.

Mark Forrest, Lance Fowler, Thomas Frakes, Holly Freier, Louis Frenzel, Catherine Friske, Jeffery Frohbieter, Randall Frye, Ray Fulkerson, Cassandra Geary, Kevin Gebhardt, Kevin Goughan, David Gilbert, Scott Gillette, Thomas Gillis, Darlene Glefie, Harry Goodtke, Tina Goodwin, Diane Gosnell, Jeanne Graber, Karen Graeber, Deborah Greathouse, Tracie Greuel, Patricia Gruss, Diane Gussio, Craig Hadady, Janice Hahn, Debra Hamilton, Stephen Hamlin, Mark Hampton, William Hansen, Cindy Hardy, Kurtis Hartline, Robert Harvey, David Haslett, Robert Hauch, Bernard Herbstreit, Steven Hillgas, Benno Hinrichs.

Also John Hoge, Patricia Hoge, Rhonda Hoge, Stephanie Holcomb, Stephen Holcomb, Barbara Holmes, Jeffrey Holmes, Sandra Hura, Christopher Horton, Ida House, Tonda Huebner, John Imbs, Thomas Jager, Janice Johnson, Donald Jones, Christian Jurgensen, James Kueckl, Victoria Kemp, Dackery Kiehn, David Kietzer, Robert Kish, Pamela Klug, Anita Koppier, William Krause, Bruce Krueger, Scott Krugler, Rodney Kublick, Richard Kubisch, James Kucharzyk, Teresa Kuhn, Jill Lachman, Sandra Lambert, Rebecca Lange, Pamela Lauck, Donald Layman, Burton Leland, Gina Leto, Ann Lybrook, Melvin Macheuer, Timothy Maltier, Donna Maier, Lisa Mammuna, Michael Mason, Ronald Mathis, Terri Mattner, Dorothy McGrath, Patricia MacTavish, Kimm Mead, Doreen Menser, Donna Mensinger, Kathryn Mensinger, Sheryl Mergan, Susan Merrill, Dawn Mervenne, Kathleen Meyer, Michele Milmine, Ronald Moschioni, Richard Murphy, Carmen Myers.

Thomas Neal, Lonna Neidlinger, Jaime Nelson, Steven Nichols, Pamela Nidiffer, John Nitz, Cheryl Nitz, Jeffery Nitz, Rod Nitz, Patrick Nolan, Mary Nye, Kevin Parkins, Marshall Pebler, Rob Perry, Doris Peterson, Timothy Piner, Steven Pittis, Brenda Piley, Donna Pott, Teresa

Radabaugh, Donald Richards, Katherine Ridenour, Carl Riegel, Rebecca Robins, Archie Rodriguez, Martha Ross, Terry Runge, Virginia Russell, Felicia Sansom, Linda Sarola, Patrick Sayers, Jürgen Schaper, Bonnie Schermer, Ivy Schwep, Robert Schindler, Dale Schlutt, John Schmidt, Steven Schuck, Timothy Schuler, Bonnie Schultz, Kathleen Scott, Robert Seugeren, Daniel Search, Bradley Sellers, Gregory Shafer, Russell Shank, Debbie Shannon, Laura Shapleigh, Patricia Shawl, Margot Sherrington.

Ursula Smaka, Laury Sparks, Barbara Spears, Tim Spletzer, James Stancik, Craig Stenbergh, Mark Stentni, Eric Stokes, Mark Swisher, Garrison Thomas, Lisa Beth Thomas, Larry Toth, Steven Trudell, Jim Turner, Timothy Tyler, Timothy Vergot, Robin Wallis, Toni Walters, Wendy Weaver, Richard Welch, William Welch, Paula Wesner, Ronald Wesner, Mary Wheeler, David Whipple, Phillip Whitehead, David Wickham, Randi Wilhelmson, Irene Wilson, Patricia Wisneski, Steven Walter, Leslie Woodbeck, Terry Woodrick, Kim Woods, Cathleen Yore, Pamela Youdell, Catherine Young, Glenn Zebell, Darla Zernke, David Zielke, Erika Zielke, Debra Ziemke, Barbara Zordell.

**NEW DOCTOR:** Dr. Chung-Sik Kim has been appointed to medical staff of Mercy hospital, Benton Harbor, according to C.T. Loftus, executive vice president of hospital. Dr. Kim is obstetrician and gynecologist. He and his wife, Borha, have two children and reside in St. Joseph. He is graduate of Catholic Medical College in Seoul, Korea, where he was born.

## Lakeshore Votes Monday On Three-Mill School Tax

**By VICKIE LAWS  
Stevensville Correspondent**  
Lakeshore school district voters will decide the fate of a three-mill property tax levy and fill two seats on the school board in the annual school election Monday, June 13.

Two unopposed incumbents are seeking re-election to the school board. They are John W. Steinke, 50, 250 East John Beers road, and Russell D. Hanson, 43, 5526 West Hawatha lane.

Steinke is seeking his third four-year term and is currently serving as president of the school board. He and his wife, Ruth, have three children.

Hanson was appointed to the board last September to fill Mrs. Walter Waldenmaier's position after she resigned. He is seeking election to the one year remaining on Mrs. Waldenmaier's unexpired four-year term. He and his wife, Mary Lou, have three children.

The three-mill property tax increase for school operations is sought for three years.

If approved, the three mills would generate about \$290,000 in local property tax revenue and about \$210,000 in state aid according to figures provided by William Galbreath, assistant superintendent of business affairs.

Taxes would increase \$3 per thousand of state equalized valuation, or \$69 per year more for a home valued at \$40,000 (\$20,000 SEV).

The district's 1976 tax levy totaled 29.26 mills.

If approved, the new levy would make the rate 32.26 mills, including 4.1 mills for debt retirement.

## Senior Citizens Day Is A Plaza Regular

The Fairplain Plaza Merchants association has announced "Senior Citizens day" will become a regular feature at the Plaza on the second and third Wednesday every month. Tomorrow's program will include lunch in the Knights of Columbus hall under Goldblatt's starting at 11 a.m. and a talent show featuring senior citizens from 1 to 3 p.m. Various stores also will have discounts for senior citizens.

Reservations for lunch should be made by calling the senior citizens nutrition project office 927-2495. The events are being held with joint cooperation of Benton Harbor-Benton township housing commissions, the senior citizens center, nutrition project and Plaza Merchants.

filed by four men.

Worley, Fester, and Eddie Shannon had filed the original appeal, and another man, Charles B. Jones, joined with them during the appeal process. Lindendorf had ruled there was no merit to Shannon's grievance. Mrs. Sirk said Jones has agreed there is no longer any issue for determination in his case because he was reinstated to his job with the parks department last September and has since been promoted.

Worley, who was 19 at the time of the grievance, listed his address as 684 Euclid avenue,

The district's proposed budget for 1977-78 is \$5.8 million, some \$450,000 higher than the current school year's, according to Supt. Frederick Schmidt.

Schmidt said revenue from the three-mill increase is needed to meet increased operating costs. Schmidt pointed out that the Michigan Department of Education reported Lakeshore as spending \$1,136 per pupil in the 1975-76 school year. This expenditure ranked 449th in the list of 590 school districts. When comparing expenditures of 13 area schools, Lakeshore is twelfth, with only one district

spending less per pupil, he said.

Schmidt believes the quality of education at Lakeshore compares well in state assessment programs as to the number of students entering the work force or going on to college. He said the board is justified in asking for the three-mill increase because the district follows principles of sound business management to keep operating costs as low as possible while providing a good quality education.

If the additional mills are not approved, the board would have to reassess its position at that

time, according to Schmidt. Galbreath said, "Even if the three mills are approved, we'll still have to dip into our reserve fund equity, or cut the budget by around \$100,000."

Polls will be open from 7 a.m. to 8 p.m. at the eight Lakeshore precincts. The precincts are No. 1 Roosevelt elementary, No. 2 Lakeshore high, No. 3 Steward elementary, No. 4 Stevensville elementary west building, No. 5 Baroda elementary, No. 6 Stevensville village hall, No. 7 Lakeshore high (auditorium, lobby area), No. 8 Hollywood elementary.

## Test Runs This Sunday For House Of David

Two employees who have worked summers in the House of David park since they were boys will attempt to open the widely-known park on Sundays this summer.

A program of bluegrass, country and rock music will be presented in the park this Sunday from 3 to 9 p.m. Future programs will depend in part on the public reception Sunday, according to Gary Allison.

Allison and Nathan Jackson, employees in charge of maintenance for the House of David property, will arrange the programs. Both have worked in the park for a number of summer seasons.

Their aim will be to present

entertainment for families, Allison said. Beer will not be served, he added.

The park was opened to the general public only twice last year.

Tentative plans call to bring back pony and go-cart rides, which once were popular children's features at the park. The ice cream stand and the

miniature railroad, trademarks of the park, have been opened and will be continued in operation Saturdays and Sundays.

Allison and Jackson are seeking amateur entertainers for future Sunday programs, or if there is enough interest the once-popular Amateur Night show might be resumed on Wednesday nights.

## BHHS Graduation Events Scheduled

Some 90 Benton Harbor high school seniors will be honored for scholastic achievement and leadership at the honors convocation for the 1977 graduating class at 7:30 p.m. tomorrow at the Benton Harbor high school performing arts center. A total of 389 Benton Harbor high school seniors will receive diplomas at commencement ceremonies Thursday. The commencement will be held at 7:30 p.m. Thursday at Filstrup field. Addressing the graduating class at commencement will be Stephen Snyder, valedictorian of the senior class, and Cheryl Opalski, salutatorian. The main speaker at the commencement will be Dr. Benjamin F. Reeves, associate professor of preaching and urban ministry at Andrews university in Berrien Springs.

## Bridgeport Band Comes In Fifth

WHITEWATER, Wis. (AP) — Bridgeport, Mich., High School has been named fourth runnerup in the large school division of the annual Marching Bands of America competition.

Live Oak High School of Morgan Hill, Calif., took top honors in the big school division. Murray, Ky., won the small schools division in the weekend event.

## Two Benton Workers To Get Back Pay

**By SCOTT WILLIAMSON  
Staff Writer**

Benton township has agreed to a settlement with two former township parks department employees who claimed they were fired without cause in 1975.

The settlement came after an investigation and recommendation by the U.S. Labor Department, which administers the federal CETA (Comprehensive Employment Training Act) program. The employees, who had been paid with CETA funds, had filed grievances against former Township Treasurer Joseph Postelli and the

township.

Benton Supervisor Catheryn Sirk said the township and Gary Worley signed a release May 6 with Worley accepting \$2,642.98 for payment of back wages. She said the township is currently attempting to determine the amount of back pay due Dan Fester, the other employee.

The Labor Department report upheld the findings of a hearing officer who held the pair was fired without cause. Atty. Richard Lindendorf, of St. Joseph, was appointed hearing officer by the Berrien county CETA office to conduct the hearings last July on grievances

filed by four men.

Worley, Fester, and Eddie Shannon had filed the original appeal, and another man, Charles B. Jones, joined with them during the appeal process. Lindendorf had ruled there was no merit to Shannon's grievance. Mrs. Sirk said Jones has agreed there is no longer any issue for determination in his case because he was reinstated to his job with the parks department last September and has since been promoted.

Worley, who was 19 at the time of the grievance, listed his address as 684 Euclid avenue,

Benton township, while Fester, then 24, gave an address as 3777 Tamarack terrace, Hagar township. Jones was 36 when the grievance was filed and lived at 138 Frederick, Benton township, and Shannon resided at 862 Dixie street, also Benton township. The back pay the township agreed to pay Worley and Fester is based on the difference between what the two men would have earned if they had continued to work as township CETA employees and what they actually received in unemployment compensation and other wages since they were fired.

Mrs. Sirk said payment of the back wages will come from the township's general fund.

The employees had filed the grievance for back pay, claiming they were told CETA funds had run out, when in fact they had not, according to Lindendorf's findings.

The township board last August voted to appeal the findings to the Labor Department. The settlement by the township came after the investigation by the Labor Department but before the appeal was actually heard.

The Labor Department, in a March 15 letter from Marion Smith, administrator for the employment and training administration division at the regional office in Chicago, confirmed Lindendorf's findings and recommended that it was "the Department of Labor's desire to settle the grievance at the local level if at all possible."

Mrs. Sirk said the settlement resolves the issues raised by the employees. She said the settlement was worked out in a meeting among township, Labor Department, and county CETA officials.

# Install Officers For Six Area B&PW Clubs

**STATE OFFICIALS:** Cora Anderson, center, was installed as president of Twin Cities Business and Professional Women's club May 20. Pictured with the new president are from left, Mary Esther Daddazio, state B&PW president, left, and Olive Merlin, state vice president and installing officer, right.

## Host Banquet

Installation ceremonies for officers of six area clubs belonging to District 5, Business and Professional Women's clubs, were conducted by Olive Merlin, first state vice president of the organization, at a banquet May 20 at the Holiday Inn, Benton Harbor.

Cora Anderson was installed as president for the coming year of the Twin Cities Business and Professional Women's club, which hosted the banquet.

Other officers of the twin cities group installed include Janet Tacy, first vice president; Lynn Wendt, second vice president; Francis Williams, corresponding secretary; Cary Gray, recording secretary; and Betty Harris, treasurer.

Buchanan B&PW officers installed include Catherine Hill, president; Jean Sadler, first vice president; Dia Smith, second vice president; Jo Ann Jones, recording secretary; Elaine Stewart, corresponding secretary; and Alice Morrow, treasurer.

Florence Thompson was installed president of the Paw Paw group. Other officers are Sylvia Wroblewski, vice president; Caroline Johnson, secretary; and Christy Surdy, treasurer.

Officers installed in the Niles B&PW were Evelyn Bolton, president; Kay Weist, first vice president; Norma Weaver, second vice president; Jan Wade, recording secretary; Ruth Lagoni, corresponding secretary; and Dr. Beverly Holt, treasurer.

Edwardsburg officers installed were Dorothy Smith, president; Sally Forest, vice president; Nancy Smith, secre-

**AREA PRESIDENTS:** Officers for six area clubs belonging to District 5, Business and Professional Women's clubs, were installed at a May 20 banquet at Holiday Inn, Benton Harbor. New presidents from four of these clubs are from left, Evelyn Bolton, Niles

club; Laura Heshner, Three Rivers; Catherine Hill, Buchanan, and Dorothy Smith, Edwardsburg. Not pictured was the Paw Paw club president, Florence Thompson. (Staff photos)

tary, and Lura Scheibelhut, treasurer.

Officers from the Three Rivers B&PW installed were Laura Heshner, president; Helen Sommers, vice president; Genivieve Krueger, secretary; and Margaret Anthony, treasurer.

Dowagiac, Allegan and Kalamazoo B&PW clubs are also members of District 5.

State president, Mary Esther Daddazio, reported she has appointed Virginia Szlabick, outgoing president of the Niles club, to the state finance committee.

Other state officers attending

the banquet were Marlene Danol, Northport, second vice president; Mildred Blackford, Southfield, secretary; Stella Kruszynski, Spring Lake, past state president; and Phyllis Harrison, Royal Oak, candidate for third vice president of the National Federation.

District officers are Corine Tichenor, Twin Cities, director; Judy Skinner, Dowagiac, assistant director; Elaine Houser, Kalamazoo, treasurer; and Norma Weaver, Niles, secretary.

The Twin City B&PW

received four awards at the 59th annual convention of the Michigan Federation of B&PW, May 13-15, at Boyne Mountain.

The awards earned by completing criteria established by the state federation for the 1976-77 club year were the president's promise, state membership, state equalization and state achievement.

Twin cities members who were at the convention, attended by 800 women were Jane DeHaven, Evelyn McLaughlin, Frances Williams, Betty Harris,

Virginia Stuck, Marge Wilson, Cora Anderson and Corine Tichenor.

Federation objectives are: To elevate the standards of women in business and in the professions; to promote the interest of business and professional women; to bring about a spirit of cooperation among business and professional women of the United States; and to extend opportunities to business and professional women through education along lines of industrial, scientific and vocational activities.

## Designer Calls Imagination Key To Planning Good Party

By VIVIAN BROWN  
AP Newsfeatures Writer

Good news for economy-minded hostesses: imagination, not money, is the key to successful entertaining. That encouragement comes from one of the best-known interior designers and party planners in the world, Valerian Rybar of New York and Paris.

In addition to designing men's clothes, and accessories for the home, he has decorated some of the most important homes in the United States and Europe. Interiors have luxuries such as a bowling alley and an Olympic swimming pool. He has just designed a ski chalet for Christina Onassis in Switzerland.

He planned the famous Bal Oriental for Baron Alexis de Rede of Paris and the Fete Champetre of the Marquis de Cuevas in Biarritz. For one stupendous debutante party in the '60s, Rybar designed special tablecloths and wallpaper in the party theme — Vermeer Dutch Renaissance.

"Even in Europe the trend is to smaller parties and everywhere more imagination is being put into planning. I enjoy giving little parties because it is a big challenge," he says. "No matter what the budget, the average person can entertain well. Choices are no longer between expensive things or junky things. Great table accessories may be found in every price bracket. The secret is to do something different within your physical and financial means."

VALERIAN RYBAR

plate of cold chicken might be held in reserve."

If they can't cook or haven't the time, non-cooks and busy people can take advantage of the prepared foods available in markets and those that can be taken out in restaurants. But don't overreach yourself, "like a hostess who serves good caviar and then is ill-at-ease that guests may take more than a mouthful."

"A party theme is a good way to get by with simple food. For example, everything orange — flowers, tablecloth, candles, foods. Courses could include pancakes with salmon or orange caviar, which is not expensive. A food could be covered with a pink-orange sauce. An orange-frosted cake is another idea."

"For a special occasion, such as a wedding, the cake table can be done magnificently merely by puckering up lace paper doilies and using them over the entire table."

He'd like to see the old custom revived of providing little favors for guests — little inexpensive fun things, not gold lighters.

Variety stores and import emporiums now have marvelous selections of paper table products, baskets, colorful

cloths — novel ideas are born on high level and filter down to mass production. Table setting exhibits in stores can provide ideas. If you have one, use a smashing cloth like grandma's patchwork quilt.

"And remember a successful party is a mix of guests," Rybar advises. "People want to meet new interesting people. A good reason to give a party is for an out-of-town friend. Ask people you must pay back or business obligations for that one, but if you have ten or more like that the party could be a bore."

People like round tables that seat six or eight. Buffet service is good because they can choose with whom and where they want to sit. And a little soft background music provides a lift.

"The permanent furniture arrangement of a house or apartment can be arranged to accommodate six to eight people in a group. It is not good to have a chaise longue off by itself," Rybar notes.

People are always asking him about White House food, and he believes foreign dignitaries would love good American food, drink and entertainment. He thinks the chefs there now have a rare opportunity to serve some good Southern cooking.

"I like regional cooking. At a party I just gave in Switzerland I served local sausage, ham, tongue, sauerkraut, a hearty cheese fondue, things people rarely see on menus."

Rybar was born in Yugoslavia and wanted to be a diplomat, but was asked by Elizabeth Arden to help design packages, and he has gone on from there. With his partner, Jean-Francois Diagne, he also has an office in Paris.

### CHAR PEPPERS

To peel green peppers you can char them under the broiler or over a gas flame, turning as necessary. The next step is to strip off the outer thin skin.

## Wedding

BERRIEN SPRINGS — Melody Britton and Russell Fink were married May 14, at the Berrien Center Bible Church, Berrien Center. The Rev. Charles Williams of Glen Ellyn, Ill. performed the ceremony.

The bride is the daughter of Mr. and Mrs. Chris Britton, Range Line road, Berrien Springs. The groom's parents are Dr. and Mrs. L. Jerome Fink, Bloomfield Hills.

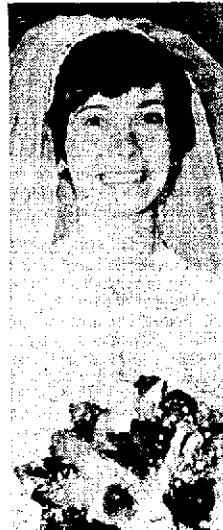

The bride wore an empire gown of polyester organza with lace trim. She carried red roses. Mrs. Dennis Marquardt, sister of the bride, was matron of honor. Bridesmaids were Miss Kim Keigley, Miss Linda Foster, Mrs. Kevin Gillette, and Mrs. William Seaver, sister of the groom.

Brandy Odiorne was flower girl and Dale Davis was ring-bearer.

Serving as best man was Rex Behou. Ushers were Jack Gulish, Alan Britton, brother of the bride, Fred Fink and Dr. Robert Fink, brothers of the groom.

A reception was held in the church fellowship hall.

The bride is a graduate of Berrien Springs high school and is a senior at the University of Michigan, College of Pharmacy.

MRS. RUSSELL FINK  
Melody Britton

She will be working as a pharmacy intern at Borgess hospital, Kalamazoo. The groom is a graduate of Bloomfield Hills high school. He received a bachelor's degree from Dartmouth college, Hanover, N.H., and a master's degree in business administration from U of M. He is an international cash administrator for Upjohn company, Kalamazoo.

## Where To Go... And When

### NEXT WEEK

Saturday, June 18 — Seventh annual art show, Lakeshore Art Guild, Cook Nuclear Center, Bridgman, 10 a.m. to 5 p.m. Also Sunday from noon to 6 p.m.

### COMING EVENTS

Sunday, July 10 — 16th annual Art Fair, St. Joseph Art Association, Lake Front Park, St. Joseph, 10 a.m. to 7 p.m. Rain-date is July 17.

### EVERY WEEK

Monday — Benton Harbor public library, half-hour film series for adults, 12:15 p.m.

Tuesday — Maud Preston Palenske Memorial library, St. Joseph, family film night, 7:30 p.m.

Tuesday — St. Joseph Art Center, St. Joseph, 10 a.m. to 4 p.m., through Friday and 1 to 4 p.m. Saturday and Sunday.

Thursday — Josephine Morton Memorial home, 501 Territorial road, Benton Harbor, tours from 1 to 4 p.m. Also Sunday from 2 to 4 p.m.

Friday — Benton Harbor public library, films for children, 4 p.m.

Sunday — Sarett Nature Center, Benton Center road, Benton Harbor, open house at 2 p.m., displays, demonstrations, tours and refreshments. The center is also open Tuesday through Saturday from 10 a.m. to 5 p.m.

### Give Feet A Rest

Tired feet deserve a soaking and massage. Prepare a basin with warm sudsy water and immerse feet for several minutes. Rinse and dry feet thoroughly.

Massage the sole of each foot with a hand or body lotion. Then work around heel, toes, instep and up to the ankle bone, applying pressure with thumbs and fingers.

## Seek Volunteers

Volunteers of junior and senior high school age are needed for the children's room of Benton Harbor public library during the summer months.

Students interested in donating some time each week helping younger children in the summer reading program are asked to call the library for further details.

Free movies to be shown Friday, June 10, from 4 to 5 p.m. in the children's room include Millions of Cats, the story of an old couple who owns many cats; Music Box, a Laurel and Hardy film; Frog Went A Courtin', a sing-along for young children; and Licorice Train, the story of a ghetto youth who travels into neighborhoods far different from his own.

New books added to the junior collection are Summer of the White Goat, Paige Dixon; Until the Celebration, Zilpha K. Snyder; The Turning Point, Naomi Karp; and Time to Take Sides, Sharita Gold.

### DELICIOUS BEANS

Wax beans are delicious when they are sauced with a mixture of thin strips of onion (softened in butter) and sour cream.

## Novel Gift

So a member of your club, or a neighbor, has had a new baby and a group of friends would like to present her an appropriate gift.

If it is Baby No. 1 the choice of gift may be easy — but what if this lucky lady already has several children and is well supplied with everything?

What could be more welcome for a new, tired mother than a note in which she is promised one day of housecleaning per week for the first four weeks she is home with the new baby — or the friends might even divide the laundry, ironing, shopping, or even take turns baby-sitting.

## A special THANK YOU to each of the Sponsors for their generous support of our club during our 1976-77 year

# Volunteers Are Recognized For Hours Of Service

## Gateway Center Tea

BERRIEN SPRINGS — A recognition tea was held for volunteers at Gateway Rehabilitation center, Berrien Springs, June 1.

Special recognition was given to three volunteers who worked the greatest number of hours: Mrs. Charles (Jane) Crow, 132 hours; Mrs. Mary Clark, 97 hours; and Miss Mary Ealey, 78½ hours.

Other volunteers honored were Mrs. Sandra Klein, Mrs. Ray (Audrey) Greene, and Mrs. Don (Connie) Darnell, all of Niles; Mrs. Stan (Louise) Lyon, Mrs. Tom (Lee) Brennan, and Mrs. Mary Behrens, all of New Buffalo; and Mrs. Ray (Ruby) Zeller, Miss Leathann Wurtzel, Miss Diane Emerson, Miss Elisa Salas, and Miss Sharon Boyd, all of Berrien Springs.

The volunteers have worked in the evaluation department where they have assisted in giving work samples, on the shop floor by supervising the clients, and as teacher aides in the personal adjustment department.

The volunteer program is under the direction of Mrs. Shirley Bundy of the Gateway staff. Mrs. Joe (Marcy) Odell, Niles, is chairman of the volunteer committee, which is comprised of Gateway board members.

**HONORED:** Gateway Rehabilitation center, Berrien Springs, recently honored its volunteers at a recognition tea. Presenting certificates to women who had worked the greatest number of hours was Mrs. Shirley Bundy, left, director of volunteers; Mrs. Charles (Jane) Crow, center, who worked 132 hours; and Mrs. Mary Clark, 97 hours. Not pictured was Miss Mary Ealey, who worked 78½ hours. (Staff photo)

## Claremont Home Luncheon

Miss Susan Steinke was presented the Volunteer of the Year Award May 25 during Claremont Nursing Home Volunteer League's appreciation luncheon held in the facility's dining room.

The presentation was made by William Fisher, director of nurses at the Benton Harbor nursing home.

Mrs. Edwin (Ruth) Hall, activity director, presented awards to 125 active volunteers who have donated a total of 14,304½ hours.

Luncheon guest speaker was Marjorie Montgomery, adult program director of the St. Joseph-Benton Harbor YWCA.

Others participating in the appreciation luncheon program were the Rev. J.T. Crank and Mrs. Ronny (Karen) Anderson, league president.

**RECEIVES AWARD:** Miss Susan Steinke, left, was presented the Volunteer of the Year Award by William Fisher, director of nurses at Claremont Nursing Home, Benton Harbor, during the volunteer league's appreciation luncheon. At right is Mrs. Edwin (Ruth) Hall, activity director. (Staff photo)

# Strawberry Crop Is Ahead Of Schedule

"Doubtless God could make a better berry, but doubtless God never did," wrote Isaac Walton. Most folks would agree with this statement and especially this year for the strawberry crop in Michigan is great, according to Maryann Beckman, District

Extension Consumer Marketing Information Agent. Mrs. Beckman added: Michigan's strawberry crop this year is a week to 10 days earlier than usual and most folks have been caught off guard and aren't ready for the berries.

But the berries are ready for consumers, with the peak harvest time being now.

Growers reported, as of June 1, that the "fields are laying red" and they are relaying messages to consumers, urging consumers to go pick their own and/or buy as soon as possible.

Many growers are already behind in picking, because the picking crews that come in from Texas did not arrive until last weekend.

As a result, many more growers are opening up their fields to consumers to pick their own. One of the best reasons to pick your own is the taste of freshness, but cost savings are there, too.

You can save from 30 to 70 percent of what you would pay at the supermarket by picking your own. Most U-pick operations are charging 25 to 35 cents a pound. At farms and markets where they pick the berries for you, going prices are 40 to 70 cents a quart. How do they compare? One quart of berries weighs about 1½ pounds or about 22 ounces normally. Size of the berries and fullness of containers determine actual weight. Berries selling for 35 cents a pound are equal to berries at 48 to 52 cents a quart.

When choosing berries, look for a solid red color and make sure the green caps and stems are still attached. Without caps

the berries may be overripe and starting to decay. Berries should also be dry and glossy in appearance, as well as free from decay and dirt. Stained containers are also often a sign of crushed or overripe berries and should be avoided.

Once purchased or picked, hurry berries to the refrigerator or freeze them. Sort fruit for ripeness and use the ripest first. All berries will be less perishable if stored unwashed in the refrigerator in shallow layers, such as in a baking pan. Cover the sorted fruit loosely with waxed paper.

Wash berries just before using, by dipping them quickly in and out of cold water. Don't let

berries stand in water; they will get mushy and quickly lose color and flavor. Drain and pat berries dry, then remove caps and use immediately in fresh dishes, such as shortcake or with cream and sugar, or freeze and jam them.

Strawberries are an excellent source of vitamin C, for one cup gives the same amount as a six-ounce glass of orange juice. They are low in calories, too, for there are only 35 calories in a cup of strawberries, or about the same as in one slice of whole wheat bread.

More information may be obtained on pick-your-own farms and roadside markets in six southwestern Michigan counties

at Cooperative Extension Service offices in Berrien, Cass, Van Buren, St. Joseph and Allegan counties.

## ATTENTION! Future Brides

Brides-to-be planning engagement announcements and wedding stories in this newspaper are asked to observe the following rules:

Engagement and wedding forms are available in the women's department at The Herald-Palladium offices in Benton Harbor or St. Joseph. The pertinent information should be typed or plainly printed in filling out these forms to prevent errors.

Wedding forms should be picked up at least two weeks and turned in one week before the wedding is to take place.

When wedding information is sent within two months of the engagement announcement date, only ONE picture will be run. The bride-to-be may have her choice.

Use proper names — not nicknames. In wedding information, use husband's names for married attendants.

Only pictures of the bride in her wedding dress will be used. Formal glossy black and white portraits are preferred.

Engagement and wedding pictures are usually available at this newspaper office after publication for a short time.

## Pullman Breakfast Saturday

PULLMAN — A pancake and sausage breakfast will be held Saturday, June 11, from 8 to 10:30 a.m., in the Friendship room of the Pullman Congregational church.

Proceeds from the event, which is open to the public, will be placed in the fund for the new roof of the church.

Donations are \$1.50 for adults and 75 cents for children under 12.

The breakfast is sponsored by the Ladies guild of the church with Mrs. Royal Laraway, Mrs. Duane Smith and Mrs. Arthur Brown, heading the committee.

## Warn Against Silent Killer

NEW YORK, N.Y. — It is a silent killer.

It is a disease which, in its early stages, produces no symptoms. Many don't know they have it, and many who do know they have it are still not receiving proper treatment. The killer is high blood pressure.

A leading insurance company reminds that high blood pressure (also called hypertension) is the primary cause of over 20,000 deaths in America each year.

The disease also contributes to countless deaths from heart attacks and strokes (the number one and number three causes of death in this country) because it increases susceptibility to these major health problems.

Statistics are beginning to show, however, the benefits of high blood pressure detection education and treatment programs. While the incidence of heart disease has been declining gradually over the last 25 years, the greatest decline (over one-third) has coincided with the launching of the National High Blood Pressure Education Program in 1974.

In May, 1976, more than one million people were screened. Of these, 150,000 were referred to their physicians for further evaluation and many permanent control programs have been initiated.

Studies that have been conducted in recent years show that the main problem now lies with people who are aware that they have high blood pressure, but who do not have it under control. It is estimated that there are over nine million such people.

Several commonly believed misconceptions have contributed to the problem of keeping hypertensives on their treatment.

Here are some of the myths versus facts:

— Myth: Control equals cure. Fact: Control requires daily regimen; there is no permanent cure.

— Myth: Hypertension is nervous tension, so pills only need to be taken when the patient feels nervous. Fact: Feeling tense is not a symptom; medicine must be taken every day.

— Myth: Patients may select their treatment (medicine or careful diet or healthier lifestyle). Fact: Treatment requires a regular daily regimen of medication and dietary and smoking modification, depending on the individual.

People who have high blood pressure must consult their doctors and get on a program of daily medication, says the insurance company. Medicines should be taken as prescribed. As yet, high blood pressure cannot be cured, but it can be controlled.

High blood pressure is a widespread epidemic in this country. The only way to check this epidemic is for people to be aware of the threat of high blood pressure and to act against it by having blood pressure checked and if treatment is necessary for high blood pressure, stick to the daily regimen.

## Roses Are Identified With Father's Day

Roses have been identified with Father's Day almost since the occasion's first observance in 1910. Mrs. John Bruce Dodd, who launched Father's Day, personally selected the rose as its emblem.

The rose, the official flower of Father's Day, also is the choice of the American public as the United States national flower, according to James C. Krone, executive vice president of Roses, Inc., the national rose growers' organization.

Krone noted the rose was the landslide winner in a nationwide poll conducted in July, 1976, by Florists' Transworld Delivery, the floral delivery cooperative.

to determine which flower Americans preferred for the national bloom.

"The United States is one of the few countries in the world that doesn't have an official flower," Krone said, "but we hope Congress will finally act and name the rose, the 'people's choice.'"

The Red Rose is a living symbol; the White Rose marks remembrance.

## Offer Easy Upkeep

Placemats offer an alternative to tablecloths in setting a mood for dining.

There is such a variety of easy-care fabrics available that a collection of mats for different occasions can range from the very casual to the most formal.

Permanent press and soil-release treated fabrics of cotton, linen, rayon, polyester and blends of these abound in solid colors, exotic prints and interesting textures. Some mats are vinyl embossed to look like fabric and have a raised design. They wipe clean with a sudsy sponge, notes The Soap and De-

tergent Association.

When purchasing placemats, check the label for specific laundering instructions. Fabric mats should be treated the same as tablecloths — spots and stains should be removed as soon as possible and laundered frequently. And the vinyl varieties sponged and dried before storing.

# 'Your Problems' By Ann Landers

## Some Would Rather Complain

Dear Ann Landers: I'd like to respond to Huggy Bear's wife — he was the man who constantly put his arms around women, rubbed their backs, etc. You said someday he'd get punched out. Well, that's fine for a woman who would never have to see the octopus again but that isn't always the case.

I worked at a mostly all-girls college for several years. One of the academic big shots enjoyed pawing, squeezing, grabbing and patting the female students. I can attest to the fact that hugging and dodging brought no results.

What can a girl do when she'd love to punch a guy out but can't because she's afraid of the consequences? — Likewise Victimized In Lake Placid

Dear L.V.: There are better solutions than punching a guy out.

Quick footwork, the rapid, no-nonsense removal of the hands off the bod, and a well-worded warning (said with a warm smile, of course) that the merchandise is "for looking but not for touching." Any or all of the aforementioned suggestions will get the most persistent lecher to clean up his act — if

she really wants him to, that is. Some dolls would rather complain.

### Talking Helps

Dear Ann: I would like to respond to the young lady who wrote to chew you out because you so often advise your readers to "get counseling." I'm with you.

Just talking to someone about disappointments, anxieties and fears can be a tremendous help. I work for a crisis intervention place and people often call or come in just to talk. Many times these people come back to thank us for helping them through a rough situation.

We are not psychologists, we are volunteers — many of us with problems of our own, but we are willing to help others. I believe that 13-year-old girl who wrote has a misconception of what it means to "get counseling." It doesn't mean you are mentally ill. It means you are a human being who has a problem you can't handle alone and are willing to admit it. This is healthy.

My letter is beginning to sound like a sermon, so I'll sign

off — but I appreciate your letting me speak my piece. — Voluntary Caring

Dear V.C.: And you spoke it well, indeed. You'll never know how many lifesavers you've thrown out to people who were hanging by a thread. Bless you.

### Neighbor's Roses

Dear Ann Landers: I have a problem that is getting my goat. It's our next-door neighbors. They have a rosebush that grows next to our driveway. Every time I get into my car to go to church, to the doctor, or the store, the darned thing catches on either my dress or my coat. It has also scratched my arms and my face. Our little girl almost got it in the eye a couple of times.

The bush is on their property so we can't touch it. My husband says he's going to chop it

ANN LANDERS

down one of these days, regardless. It does no good to complain. We have, and they thought it was very funny.

There must be a solution to this dilemma. What is it? — Nasty Neighbor Problem In Kentucky

## Astro-Graph

Bernice Bede Osol

**Wednesday, June 8**  
A surprisingly large number of opportunities may fall into your lap this year. Be wise. Treat each as if it's the only one you have. To find out more of what lies ahead for you send for your copy of Astro-Graph Letter. Mail 50 cents for each and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box Be sure to specify your birth sign.  
**ARIES (March 21-April 19)** Be apprehensive of any

conclusions you reach today. Your logic and intuition are very fallible. Mistakes could be major ones.  
**TAURUS (April 20-May 20)** In financial projections today, you are more hopeful than realistic. Additionally, you tend to be extravagant and wasteful of what you've accumulated.  
**GEMINI (May 21-June 20)** You may bank too heavily on good friends and good fortune to get you over the tight spots today. Unfortunately, neither can be depended upon.  
**CANCER (June 21-July 22)** Try not to kid yourself or others today. See things as they are, without embellishments, not as you'd like them to be.

**LEO (July 23-Aug. 22)** Your speculative urges could have you chasing rainbows today. Gambles or risky ventures will lead you only to a worthless pot of fool's gold.  
**VIRGO (Aug. 23-Sept. 22)** Be frank and honest in your dealings today. But also be doubly sure those you're negotiating with are equally sincere.  
**LIBRA (Sept. 23-Oct. 23)** Big ideas and high-sounding phrases are yours in abundance today. However, you lack the follow through to make them into reality.  
**SCORPIO (Oct. 24-Nov. 22)** Your high-rolling tendencies will bring you very little for your money today. Above all, don't jeopardize resources you're managing for another.

**SAGITTARIUS (Nov. 23-Dec. 21)** Promises are not assets unless they're fulfilled. Your glib nature today may erroneously lead you to think someone's word is like money in the bank.  
**CAPRICORN (Dec. 22-Jan. 19)** Don't butter up someone with the notion that they'll do a favor for you. You'll be fooling only yourself.  
**AQUARIUS (Jan. 20-Feb. 19)** Trying to impress others by spending lavishly when you can't afford it is a no-no today. It's more important to be solvent than sorry.

**PISCES (Feb. 20-March 20)** It's tough to get your goals in focus today. This is complicated by unreasonable concern for what others think is best for you.

**PARTING TIP**  
It's a good idea to try to change the part in your hair from time to time. This avoids weakening or damaging hair along the parted area.

## Carpet Unifies Room

Few would deny that wall-to-wall carpet is today the single most popular furnishing in United States homes.

Not only does carpet beautify...it unifies other furnishings, particularly in cut-up rooms disrupted by hectic architecture, built-ins, fireplaces, and too many doors or windows.

Owners of older homes are using wall-to-wall carpet not only because it looks luxurious, but because it completely hides neglected or worn-out floors that can't be repaired.

Carpet virtually eliminates surface noises on a floor...like footsteps, moving furniture, etc.

Those who have been putting off installing wall-to-wall carpet because of the expense, can stop procrastinating now.

It's now possible to do the job yourself with self-stick carpet squares, and the cost is economically feasible. For one thing, you don't have to buy additional padding, since cushioning is already built in.

According to a leading manufacturer, carpet squares are versatile. They come in myriad styles and colors.

Carpet squares are also "forgiving" — mistakes can be disguised or rectified easily.

Furthermore, carpet squares are "portable." Packaged ten squares to a box, you can pre-determine the approximate cost per square foot, estimate the number of packs or cartons needed, and drive away from the store with the potential wall-to-wall carpet in the trunk of your car.

Here's how simple it is to install squares:

— Measure the room to find its center point. Use a carpenter's square to make sure you have a right angle.

— Peel back the protective paper from each square as you work and lay a row of loose squares along the chalk lines in one quarter of the room in the shape of a large "L."

— To fit the squares along the perimeter, place a loose square on top of the last full square, pile side down. Then take a second square and fit it against the wall. Make a pencil line on the paper back of the first square, cut the piece and drop it into place.

— In or around an irregular area like a pipe, simply make a paper pattern of the space you must fill or allow for; trace the pattern on the square and shape it with a scissors or knife.

For a finishing touch on exposed edges in doorways, use metal door trim or reducer strips available at dealer or hardware stores. While not absolutely necessary, shoe molding nailed to the baseboard over carpet squares will give a trim professionally installed look to a finished floor.

**SQUARES:** Transform a room by installing wall-to-wall carpet yourself. Thousands of homeowners and apartment dwellers — men and women alike — are doing it every week, thanks to self-stick carpet squares available in a variety of colors, textures and prices.

Sunbeam-quick! ONE MAIN PATTERN PART (no seams!) for this sprightly wrap skimmer! Whip it up in tulip-bright cottons or blends for vacation, parties, picnics, trips.

Printed Pattern 9135: Children's Sizes 2, 4, 6, 8. Size 6 takes 1 yard 45-inch fabric.

Send \$1.25 for each pattern. Add 35¢ for each pattern for first-class airmail, handling.

Send to: Marian Martin, Pattern Dept. 141, 232 West 18th St., New York, NY 10011. Print NAME, ADDRESS, ZIP, SIZE and STYLE NUMBER.

Do what the smartest women are doing — send now for our Spring-Summer Pattern Catalog! Lots of drama for few dollars — wardrobe, pants, jumps. Free pattern coupon. Send 75¢.

Two of my girl friends at high school have been drinking 20 or 30 cups of water a day to cut down on their appetite. We all want to lose weight. Before I do this, I want to know if this is safe. My mother doesn't like the idea. — Miss E. F., Tenn.  
Dear Miss E.:

I wrote to you because I felt that there was an urgent need for you and your friends to stop this nonsense immediately.

For you and for other readers who might be tempted by such a ridiculous fad which threatens health the message is loud and clear: DON'T DO IT!

There are many cases on record of water intoxication that have done damage, and even caused death in some instances. Most of the desperate afterthoughts of this water intoxication happened to people who had severe psychoneurotic problems.

Any enormous fluid intake can create havoc to the entire mineral and electrolyte balance in the body. This then affects the retention of fluid in the body tissues and in the lungs. The kidneys and the heart can be damaged by flooding the body with fluid.

There are many simple and sensible diets that can help in weight reduction. Looking for a magic wand is fruitless and can lead to trouble.

+++  
I'm sure that the fecal droppings of dogs and other pets are

dangerous to my small children and other children who play in the streets. Is there any way that the government, which cares so much about our health, can protect us from this filth? — Mrs. H.T., N.J.  
Dear Mrs. T.:

You stated the problem succinctly and accurately. There is no doubt that widespread human health hazards are created by contact with animal defecation. Viruses, larva, parasites and germs can all be transmitted from the excretions of animals to children and adults.

The real problem, of course, is the safety of young children because they do not have the judgment to avoid contact with fecal material.

Legislation, in my opinion, is the only way that this menace to health can be controlled. For years I bred and showed dogs and consider myself an "animal lover." Yet I feel the right of owning a dog carries with it special social responsibility to others.

Dogs should be curbed and their droppings scooped up by their owners, then properly disposed of.

"Ticketing" by police and pressure by community groups can help eradicate this public health threat. Get busy!

# Owner Wants His 'Rescued' Dog Back

DETROIT (AP) — Peter Wythe of Detroit was driving home from work Monday when he heard a radio report about a malnourished dog that had been locked in an abandoned car wash for nearly two weeks.

So he drove over to the car wash, climbed through a broken window and took the animal home.

"I knew it was illegal," said Wythe. "But something had to be done."

Meanwhile, the owner of the car wash — AND THE DOG — arrived back in town and said he wants his animal back.

The episode began Monday with news reports about the plight of the white, part-shepherd dog.

Patrons of a nearby tavern said they noticed the dog last week, locked up inside the vacant car wash. They had been feeding the animal food scraps through a small exhaust hole in a door.

The bar patrons and employees said they had called police and animal protection groups but

# Kitchen Sleuth Unlocks The Colonel's Secrets

ALGONAC, Mich. (AP) — Gloria Pitzer claims to hold the key to some of the most closely guarded culinary secrets of the Western World — like the recipe for the creamy, white stuff inside an Oreo cookie or Kentucky Fried Chicken's "11 secret spices."

Mrs. Pitzer, a homemaker and self-proclaimed "junk food junkie," might better be known as a kitchen sleuth.

From her kitchen in the tiny community of Pearl Beach (pop. 500) just west of here, she uses her college background in food chemistry to pick apart popular fast foods, discover their basic components and recreate the recipes.

The results, sometimes coming after years of trial and error, are tested on her five

children and then printed in cookbooks and her weekly newsletter, "The National Homemaker."

It isn't always easy. "It took me two years to figure out Arthur Treacher's fish batter," she recalled. "Some of my kids grew fish scales."

The right combination finally came one night when her kitchen cupboard was bare and she improvised a batter out of pancake mix and club soda.

"As soon as it came out of the deep fryer, my kids yelled 'That's it!'" she said.

And she "fooled around" for a year before coming up with her facsimile version of Kentucky Fried Chicken's 11 Secret Spices. In the end, she used rosemary, oregano, sage, ginger, marjoram, thyme, paprika, garlic salt, onion salt, parsley and pepper, with a little chicken bouillon and brown sugar thrown in.

Most fast-food executives scoff at the idea of a simple homemaker duplicating their

# Dioxins Spark Suit

GRAND RAPIDS, Mich. (AP) — Two state dairy farmers have filed a lawsuit seeking damages for losing their herd, which was killed because it was contaminated with dangerous chemicals.

George LeMunyon and Bernard Drent of Cedar Springs filed suit Monday in Kent County Circuit Court against the Michigan and Kent City farm bureaus. They want damages to cover their financial losses and suffering due to the contamination of their herd with dioxins, highly toxic chemicals found in a popular wood preservative used to treat their barn.

The suit is the first filed in connection with the dioxin problem, which state agriculture officials say may be nationwide.

The suit names no amount of damages, but asks the judge or jury to decide how much the farmers deserve. The smallest award permitted under such a suit is \$10,000.

When introduced early in the session, the bill appeared to be headed for easy passage, partly because it was being supported for the first time by the White House.

But heavy lobbying by the U.S. Chamber of Commerce and other business organizations has swayed congressmen away from the consumer legislation, which would create a new agency that would represent the public in hearings before other federal agencies.

Rep. Benjamin Rosenthal, D-N.Y., a sponsor of the bill, said in an interview Monday: "As of this moment, we are probably 20 to 25 votes down in the House."

Rosenthal estimated that the opponents of the new consumer agency have spent around a half-million dollars in their lobbying campaign.

Resenthal estimated that the opponents of the new consumer agency have spent around a half-million dollars in their lobbying campaign.

# Both Sides See Win In Gay Rights Vote

By FRED BAYLES  
Associated Press Writer  
MIAMI (AP) — With a bitter and increasingly bizarre campaign over, both sides predicted narrow victory in today's referendum on whether to keep the Dade County law that forbids discrimination against homosexuals in housing and jobs.

Both sides added that they would appeal an adverse decision to the U.S. Supreme Court and would continue to wage their partisan battles on a national front.

Gay rights supporters planned to celebrate tonight at the posh Dupont Plaza Hotel. The Save Our Children group, which opposes the law, will gather at the Miami Beach Holiday Inn — which overlooks a popular gay beach.

Election officials predicted that 30 to 35 per cent of the county's 700,000 voters would turn out.

The ordinance was passed four months ago by the county commission.

But the commission was forced to call the referendum after singer Anita Bryant, who promotes citrus products for the state's growers, helped form and lead Save Our Children Inc. in a petition drive to repeal the law.

Save Our Children claims that homosexuals try to recruit children to their lifestyle. Miss Bryant said she opposes the law because private and religious schools would be forced to hire homosexuals.

Miss Bryant's pronouncements against the ordinance helped publicize the referendum and stimulated fund-raising efforts by gay groups.

Supporters of the law sold T-shirts that parodied Miss

Bryant's orange juice ads: "A Day Without Human Rights is a Day Without Sunshine." Another said simply, "Anita Dear, Cram It."

Supporters of the ordinance say the only issue involved is human rights. They contend that being homosexual should not deny them the opportunities available to heterosexuals.

"This isn't a question of conservative vs. liberal, north vs. south," said Bob Kunst, leader of the Miami Victory Campaign, which is fighting for the ordinance. "This is really the start of a new era on the right of expression."

# Takeover Delayed

KALAMAZOO, Mich. (AP) — A Texas food firm's bid to take over Gerber Products has been delayed because the company refuses to give Gerber information on its foreign payments.

U.S. District Court Judge Noel Fox on Monday ordered the effective date of the takeover offer from Anderson, Clayton Co. of Houston to be delayed until 10 days after the Texas firm provides the information Gerber wants.

Fox made the ruling after a 45-minute pretrial hearing. The judge held several such hearings and conferences last week.

But John DeWitt, an attorney for Anderson, Clayton, said his client intends to appeal Fox's original order last Thursday requiring the Texas firm to turn over information about the \$2.1 million in foreign payments.

HELMET FOES: James Rhoades, Michigan vice president of ABATE, is flanked on left by another motorcyclist and on right by a 5-year-old on steps of the Capitol in Lansing Monday during protest to repeal motorcyclist mandatory helmet law. More than 100 people participated in protest, claiming helmets can cause accidents and increase injury to cyclists. (AP Wirephoto)

# Military Families May Have To Pay

WASHINGTON (AP) — The military services may assist the Carter administration in reducing America's energy consumption.

Under provisions of a \$3.5 billion military construction bill passed by the House on Monday, the Pentagon would be authorized for the first time to install utility meters on service families' government houses.

## IT'S NEWS TODAY

### Backers Pushing B-1

WASHINGTON (AP) — Congressional supporters of the B-1 bomber, which President Carter says is wasteful and should not be funded, are making what could be a final attempt to change the mind of the commander in chief. As a deadline approaches for a decision on whether to authorize full production of the advanced bomber, Carter plans to discuss the issue with opponents and proponents. White House Press Secretary Jody Powell said Monday that "nothing has changed" since Carter expressed opposition during the 1976 presidential campaign to production of the bomber. "His basic inclination is not to build," Powell said. "He's got to be convinced, but I'm not saying he couldn't be convinced."

### Seek Better U.S. Ties

ANKARA, Turkey (AP) — Bulent Ecevit, whose Republican People's party won the Turkish national election, says he'll seek improved relations with the United States, "but of course this cannot be a one-way street." "We shall certainly exert every effort to restore cooperation, friendship and mutual trust with the United States," said Ecevit as he prepared to begin negotiations to put together a majority in the new National Assembly. The official tally of 95 per cent of the votes in Sunday's election gave Ecevit's party 5.9 million votes (41.3 per cent) to 5.3 million (37.12 per cent) for Premier Suleyman Demirel's conservative Justice party.

### Rosalynn Avoids Protestors

BRASILIA, Brazil (AP) — Rosalynn Carter is steering clear of student opponents of Brazil's military regime and scoring a personal success with the generals and civilian politicians. Mrs. Carter said she didn't see a letter written by striking students at the University of Brasilia appealing for Carter Administration support. The letter, written in English, was distributed in the lobby of the U.S. embassy while Mrs. Carter was there. Later the First Lady and Foreign Minister Antonio Azeredo da Silveira had a 75-minute meeting which he called "very constructive." Mrs. Carter attended a reception at the home of U.S. Ambassador John Crimmins Monday that brought out an unusually large number of military and political leaders. They included some who are rarely seen together and others who usually avoid foreign social affairs.

### Dutch Kids Back In School

BOVENSMILDE, The Netherlands (AP) — The children held hostage for four days by South Moluccan terrorists went back to class today, but not to their own school, 11 days after they were freed. With terrorists still holding four teachers hostage in the Bovensmilde elementary school, the parents of the children decided to send them to the little town's other school, operated by the Dutch Reformed Church. Four South Moluccans took 105 children hostage May 23 when they seized the elementary school. Another group took over a train and seized 55 hostages near Assen, north of Bovensmilde. The children and one teacher were freed four days later. The terrorists aboard the train released two pregnant women Sunday.

### Mother Gets Children Back

SANTA FE, N.M. (AP) — Mary Ann Corsey, who lost custody of her two children because she was dating the black man who became her second husband, expects to have the kids back by next weekend. The state Supreme Court ruled Monday that a county court had taken the children away solely on racial considerations. Mrs. Corsey, 31, first won custody of the children when she and Danny Boone were divorced in December 1975. Six months later, Boone asked for custody because his ex-wife was dating Ben Corsey. Curry County District Court Judge James Compton, now retired, granted Boone custody, saying the relationship between the former Mrs. Boone and Corsey was "immoral, a bad influence on the children and an improper atmosphere to raise minor children."

### Elderly Fight Retirement

PITTSBURGH (AP) — A coalition of 10 million elderly Americans, adopting "Count Us In" as a slogan, is launching an attack on mandatory retirement. Harriet Miller, executive director for both the American Association of Retired Persons and the National Retired Teachers Association, said in a keynote address to the groups' combined conference that forced retirement is "wasteful, degrading, discriminatory, morally wrong and fundamentally un-American."

## House Bill Would Bar Owner's Sale Of An Uninsulated Home

WASHINGTON (AP) — An energy plan approved by a congressional panel would forbid homeowners to sell their houses unless they first installed insulation and met federal guidelines for energy efficiency.

Despite Republican objections that the plan would constitute government intrusion on the privacy of homeowners, the House energy and power subcommittee gave its approval to the mandatory energy proposal Monday.

A spokesman for President Carter told the energy subcommittee the administration would not oppose such mandatory legislation.

Under the bill approved by the panel and sent to the House Interstate and Foreign Commerce Committee, a set of federal home heating and insulation standards would be drafted by 1980. The standards could be put into effect as early as 1982, but the government would have the discretion to delay making them mandatory as a condition on the sale of a home until 1985.

A key provision of the legislation says no home failing to meet federal energy-saving standards could be sold if the sale involved loans or loan guarantees backed by the government or loans from any bank or savings and loan that receives federal financial assistance.

The provision would not apply to homes of people considered too poor to finance insulation, to homes to be sold for business purposes and homes that have little remaining useful value. Another standard would exclude houses where home insulation

could not be justified economically.

It was estimated that as many as 10 million of some 74 million homes are sold each year.

As part of his energy proposal, President Carter asked for a voluntary approach to making American homes more energy efficient.

The President urged Congress to give homeowners incentive to voluntarily insulate their homes. Carter wants legislation

## New Bail Rules Bill Goes Back To House

LANSING, Mich. (AP) — The first bill that would tighten Michigan's bail, parole and criminal sentencing practices is one step away from the governor's desk. The state Senate, on a 34-0 vote Monday, approved a bill prohibiting bail for persons appealing convictions for violent crimes, except in a few circumstances. The measure, with minor changes written by the Senate, now goes back to the House for final approval. It would not drastically change present law. But it would shift it emphasis by automatically denying bail and forcing the court to document reasons for granting it. Present law sets out similar requirements before bail is to be granted, but backers of the bill say those guidelines have been interpreted differently by judges across the state. The bill would deny bail for persons appealing convictions for murder, manslaughter, kidnapping, rape, assault and robbery. Appeals by those denied bail would be expedited by appellate courts.

## Millions Drawn To Jubilee

LONDON (AP) — Millions of cheering Britons and foreign visitors jammed London today as Queen Elizabeth II and her husband Prince Philip rode in the golden state coach to celebrate her Silver Jubilee at a thanksgiving service in St. Paul's Cathedral.

The queen wore pink. Her husband was in the uniform of an Admiral of the Fleet.

Riding horsback behind them was Prince Charles, the heir to the throne, in the uniform of the Welsh Guards.

The queen's 2½-mile route from Buckingham Palace to St. Paul's Cathedral in the heart of London was lined six-deep by dawn. Hundreds spent a wet, chilly night on the sidewalks to get the best places.

Rain alternated with bright sunshine during the morning, but the rain stopped before Princess Anne, the queen's daughter, and her husband, Capt. Mark Phillips, left the palace in the first open carriage.

Others members of the royal family followed in carriages and coaches. More than 3,000 troops and 10 bands escorted the royal processions.

The state coach stopped briefly once during the procession, at Temple Bar, the entrance to the City, as the fiancée to the City, as the fiancée square mile in the heart of Greater London is called.

There, in an ancient ritual, the Lord Mayor of London extended the Pearl Sword given to the City by Queen Elizabeth I, and Queen Elizabeth II leaned through the opened door of the coach to touch the sword in proof of her sovereignty over the City.

As the state coach left the Temple Bar, a 62-gun salute began from the Tower of London.

The crowds struggled off the

QUEEN ELIZABETH  
Center of Attention

rain, calling it "Queen's weather." It also rained in 1953 during her coronation, they recalled.

The jubilee celebration commemorates Elizabeth's accession to the throne on Feb. 6, 1952, following the death of her father, King George VI. The celebration, like that of the queen's birthday each year, was delayed until June in the hope of good weather.

Over the heads of the waiting crowds hung thousands of British flags and miles of hunting. The red, white and blue was repeated in cities, towns and villages throughout the country.

## IT'S NEWS TODAY IN MICHIGAN

### Sheriffs Hit Back

LANSING, Mich. (AP) — A Michigan sheriffs' association has charged that a state troopers' group is trying to "poison the public mind" on the issue of patrolling Detroit's freeways. The Michigan State Police Troopers' Association said last week that deputy sheriffs could provide only "second-class police protection" on Wayne County freeways by using "former unqualified jailers." In a letter to Gov. William Milliken released Monday, the Michigan Sheriffs' Association said such criticisms would adversely affect every sheriff's department in the state. "It seems incredible, and to say the least disgusting, to us that an association representing employees of a state agency would publicly attack members of a constitutionally established law enforcement body, engaged in the same work as they, and to attempt to poison the public mind against us," the sheriffs' group said. Milliken vowed last week to veto any bill that removes state police patrols from the Detroit freeways.

### 'Numbers Game' Big Draw

DETROIT (AP) — They turned out by the tens of thousands Monday, some waiting patiently in line for 15 minutes to play the numbers. Only this time, it was legal. It was the debut of the Michigan State Lottery's new numbers game. At 310 computer terminals set up around southeastern Michigan, bettors plunked down their quarters and greenbacks, hoping for a legal payoff that could be as high as 500-to-1. That's the same kind of payoff given in the illegal version of the game that has flourished surreptitiously in Michigan cities for years. Seventy-year-old Cora Tate has been playing the numbers since 1928. On Monday, she was one of those queued up at a downtown Detroit drugstore, waiting to buy her tickets. "I owe the gas company \$140," said Miss Tate. "They want me to pay \$70 of it, and I ain't got it. So I say, 'I'll just take \$3 and play the numbers and hope I get enough to pay the gas company.'" She said she was glad to see the state get into the numbers game.

### Adding To Their Arsenal

PONTIAC, Mich. (AP) — One of the most lethal new automatic weapons produced, a laser sight submachine gun, has been added to the arsenal of the Pontiac Police Department. But police officials aren't willing to talk about their new weapon, the 22-caliber "American 180," or let it be photographed. "I don't really think we wish to discuss our weapon or our intent in purchasing it," said Sgt. Robert Burns. "We really don't want to discuss any of our weaponry." More than 300 U.S. law enforcement agencies have purchased the 180, according to its developer, Charles W. Goff, president of the American International Corp. in Salt Lake City. Among the purchasers of the controversial weapon are the White House, the FBI and the government of Israel. But they do not include the Detroit Police Department or the Michigan State Police.

### Gas Company Offers Plan

LANSING, Mich. (AP) — Natural gas customers could take five years to pay off insulation or fuel-saving furnace devices installed in their homes under a pioneer plan proposed by Michigan Consolidated Gas Co. The utility asked the state Public Service Commission on Monday to approve the gas conservation plan. A company spokesman said it could save average homeowners up to \$49 a year, even while they're paying off the improvements. Michigan Consolidated says it is the first utility in the nation to seek state approval of the system. Officials said it could save up to 188 billion cubic feet of gas a year, or half of 1976 consumption. There's a chance the program — which the PSC has approved in concept — will get final approval and be ready to go before next winter's high gas bills start arriving, say PSC officials.

### Top Black Firms Named

By ASSOCIATED PRESS

Motown Industries, the former Detroit-based entertainment conglomerate now located in Hollywood, led the 1977 list of the nation's top 100 black-owned business enterprises compiled by the magazine "Black Enterprise." Motown, which has been No. 1 in the five years the magazine has published its list, had 1976 sales of \$80 million. The firm, founded in Detroit in 1959, employs 300 persons. In second place was Johnson Publishing Co. of Chicago, publisher of Ebony magazine, with sales of \$47.6 million and 320 employees in its growing communications business, which was founded in 1942. Johnson Products Co. of Chicago, which makes hair care products and cosmetics, was in third place with sales of \$43.5 million. Founded in 1954, the firm employs 413 persons. The two Johnson firms are not related. Rounding out the top five black-owned businesses in 1976 were Fedco Foods Corp. of New York, a supermarket operator with sales of \$37 million and 450 employees, and Philadelphia International Records, a record and music publishing firm with sales of \$25 million and 150 employees.

### Hard Time For Reform Bill

LANSING, Mich. (AP) — A key political reform bill to regulate lobbying didn't even make it safely into a committee without dispute Monday night when introduced in the state Senate. So its sponsor faces a battle today when the chamber votes on giving the bill to his own committee or diverting it to another, less receptive panel for initial discussion. The bill would require the registration of lobbyists, similar to existing law. But it also requires sweeping disclosure of money spent on lobbying public officials, provides local government with power to regulate lobbyists, and restricts public officials from moving directly into lobbying when quitting their state jobs. It was described as a "right to know" bill by its sponsor, Sen. Gary Corbin, D-Cllo. But he was challenged in attempts to refer it to his Municipalities and Elections Committee. Sen. Michael O'Brien, D-Detroit, asked it be sent to the Judiciary Committee. And Sen. Arthur Cartwright, D-Detroit, although absent, has reportedly expressed interest in getting it in his State Affairs Committee. Either of those panels likely would be less receptive to the bill.

## ONLY ONE AMBULANCE FIRM LICENSED IN CITY

# Early SJ School Tax Collection 'Dead'

**SUBMIT PETITION:** Mrs. Dorothy Petersen, left, of 501 Lake street, St. Joseph, submitted petition to St. Joseph city commission last night she said is signed by 110 people opposing provision of proposed new city zoning ordinance that creates water recreation district in what is presently residential area in Silver Beach vicinity. Edward Dorstewitz, right, of 611 Lake street, said he helped circulate petition in Silver Beach area. New zoning ordinance is scheduled to come before city commission for preliminary approval June 13. (Staff photo)

The St. Joseph city commission last night squelched a proposal to collect half the St. Joseph school district millage each July during the city property tax collection.

The proposal died after commissioners declined to move that it be put up for a vote.

In another matter, the two private ambulance firms serving the Twin Cities area, Rampart and Action, both forfeited their right to do business in St. Joseph — at least temporarily — because they failed to meet yesterday's application deadline for annual city licenses. The old licenses expired May 31.

City commissioners voted to renew licenses for two Medic 1 ambulances last night. Medic 1 was the only firm to submit renewal applications, said Patrick Phelan, city clerk-treasurer.

Rampart and Action must now wait until next week's meeting to be considered for license renewal, and in the meantime, neither one can legally do business in the city, according to City Atty. Arthur Preston Jr.

Operating without a city license is an ordinance violation punishable by up to 90 days jail and \$100 fine, Preston said.

Phelan told commissioners his office had contacted Rampart and Action several times last week and advised them that yesterday would be the deadline to get commission approval. Neither firm complied, he said.

Medic 1 began operations earlier this year with subsidies from 10 local governmental units including St. Joseph.

The proposal to collect half the school millage in the summer was made in April by the St. Joseph school board. At present, city property owners pay all school and county taxes in the winter.

When asked after last night's meeting if the commission's failure to take action meant permanent defeat for the proposal, Mayor Franklin Smith said, "It would appear at this particular point that it's pretty dead."

Commissioner LeRoy Selent agreed. "It's dead for the time being at least."

Commissioner William Gillespie said he would vote against it if given the chance. He said he believed the school district would only receive a one-time advantage from it on interest saved. School officials have estimated the collection would save about \$30,000 each

year in interest on borrowed money.

Gillespie said taxpayers would lose about that much each year in interest by paying half their school taxes six months early.

If adopted, the proposal would have gone into effect in the summer of 1978. School district residents outside the city limits would still pay all their school taxes each winter because the townships do not collect property taxes in the summer.

School officials have estimated that with the partial summer collection, they would receive about \$1.4 million at the start of the school year and could reduce borrowing to operate mail winter tax money and state aid is received.

In other areas last night, the commission accepted a petition with 110 signatures handed over by Mrs. Dorothy Petersen, 501 Lake street.

She said the signers were all opposed to a provision of the city's proposed new zoning ordinance which would create a

water recreation district in the Silver Beach residential area north of Park street.

She said the majority of signers were homeowners in the affected area and the rest were residents. Mrs. Petersen said the signatures were collected by her and Edward Dorstewitz, of 611 Lake street.

The zoning, if adopted, would make existing homes in the area non-conforming and subject to restrictions on repairs and renovations.

The new zoning ordinance has

been recommended for adoption by the planning commission.

The ordinance will be up for preliminary approval at the June 13 city commission meeting, according to City Manager G.W. Hepler. He said he will recommend that the city commission hold a public hearing on the ordinance June 27 before considering it for final approval.

The commission last night voted first reading approval for an ordinance that would allow the city to sell \$200,000 in revenue bonds to help finance construction of a proposed 70 to 75 slip marina in the Morrison channel of the St. Joseph river.

It must win commission approval on two separate readings before it goes into effect.

The ordinance stipulates that the city will sell 40 bonds valued at \$5,000 each that would mature over 12 years.

The maximum interest rate would be eight per cent, but the actual rate will be determined by bid, according to Atty. Preston. He said he expects bids to run about six per cent.

The bonds will be repaid from marina revenue and will not involve property tax money.

The entire cost of the marina is estimated at \$716,000. The state department of natural resources is contributing \$200,000 toward the project and the federal Bureau of Outdoor Recreation is expected to provide the remainder.

The commission renewed at \$5 each three taxi cab licenses for the Twin Cities cab company and four licenses for Advance Cab Lines.

The commission approved a request from Child and Family Services auxiliary to hold an ice cream social in conjunction with the art fair July 10 in Lake Bluff park near the band shell.

## Summer Water Rate Cut For St. Joe Customers

The St. Joseph city commission last night approved a reduced water rate for the summer billing period that will give all but minimum users a one-third discount.

The summer billing period runs from June 1 to Sept. 1. The reduced rate will apply to customers in Stevensville, Shurman and the townships of St. Joseph and Lincoln as well as to city users. It is intended to encourage lawn and garden sprinkling.

Customers exceeding minimum usage will be billed for water consumption at two-thirds the normal rate, according to Patrick Phelan, city clerk-treasurer. A customer using 3,000 cubic feet will be billed for 2,000 cubic feet, he said.

With the one-third discount in effect, the minimum charge of \$4 for 100 cubic feet or less will apply to all customers using 150 cubic feet or less, Phelan said.

The lower rate is tied to a revised sewer rate also approved by city commissioners last night. Sewer charges are based on water consumption.

Under the revised rate, sewer charges for the summer will be based on winter water consumption, Phelan said.

For most customers, sewer bills will be calculated by

applying 1977 rates to water use recorded during the billing period of Dec. 1, 1975, to March 1, 1976.

Consumption figures for the most recent winter were not used because customers were asked to run their water taps continuously to avoid freeze-ups, Phelan said.

Tying sewer charges to winter water consumption means customers will not be charged additional sewer costs for water used in outdoor watering, Phelan said.

For new customers since March 1, 1976, equivalent sewer charges will be calculated, Phelan said.

## Car Costs Up \$700 Over '75

DETROIT (AP) — The American consumer paid an average \$700 more for a new car last year than in 1975, the biggest relative increase from year to year in at least a decade, according to an industry survey.

The average price for a car in 1976 was \$8,450, compared to \$1,750 in 1975, according to the National Automobile Dealers Association.

## Lake Township Cracking Down On Parking Lots

**BRIDGMAN** — Complaints about some residents turning their yards into parking lots to accommodate overflow from Warren Dunes state park prompted Lake township board last night.

The board voted to more strictly enforce a 1967 motor vehicle parking lot ordinance which sets limits on parking lots and requires permits for their operation after an inspection.

Some residents at last night's meeting told the board that the lots were creating traffic problems along Red Arrow highway, that cars were damaging adjacent property and that some people were using the lots for overnight parking.

The board learned that only one of some half dozen of the lots has obtained a permit, required under the parking lot ordinance. Under the ordinance, before a permit can be granted, an inspection by the township building inspector is required. The ordinance also states that the lots may only be operated in areas zoned for commercial use.

Supervisor Wade Shuler said that the township would begin notifying people operating lots without permits of the ordinance.

In other areas, it was reported that at a special meeting held May 23, the board agreed to have rough plans drawn up by the Poole Construction Co., Berrien Springs, for an addition to the township hall. No proposed size estimates of the proposed addition, or cost estimates have been arrived at, according to the board.

In a related move at a special meeting May 16, the board entered into a tentative agreement with Mrs. Lorraine Robbins to purchase her property adjacent to the hall at a cost of \$15,000.

**RESCUE FAHS**  
SAGINAW, Mich. (AP) — Rescue efforts by two citizens and two police officers failed to revive a 38-year-old Saginaw woman, Irene Zuziak, who drowned in the Saginaw River after jumping from the Holland Bridge.

The board approved a \$1,000 down payment. The land would be used for the hall expansion and additional parking, according to the board.

Also at the May 16 meeting, the board voted to purchase eight two-way radios and a radio base station for the fire and ambulance services. Cost of the radios is \$5,200 and the base station, \$2,000. Both items were purchased from Monroe Electronics, Benton Harbor.

At last night's meeting, Shirley Busick of Industrial Workers Local 547, Pemco Die Casting Corp., presented the board with a check for \$150 from the union membership. The union uses the hall free for meetings and presented the check as a token of appreciation for use of the hall. Supervisor Shuler said the check would be donated to the fire and rescue services for purchase of equipment.

## THE TAXPAYER QUIZ OR WHERE DOES YOUR MONEY GO?

Answer YES or NO

As a taxpayer, do you believe:

1. The School Board has authorized \$80,000 for the remodeling of the Administrative building, when the buildings that we send our children to, some cases, are unsafe, in need of repairs and proper upkeep?
2. Do you believe the School Board should have authorized \$16,000 for the making of the film "The All American School System"?
3. Do you believe the School Board members should be allowed to reside outside the district?
4. Do you believe School Board members should have their children in private schools while dictating policy for your children in the Benton Harbor Public Schools?
5. Do you believe that the School Board should pay a lawyer in excess of \$25,000 to negotiate teacher contracts, when the Board has already hired an administrator for that purpose?
6. Do you believe that School Board members should be permitted to contract with the Benton Harbor School District while serving as a board member?
7. Do you believe that School Board members should have entered into a five year contractual agreement with administrators when board member are elected for four years?
8. Do you believe School Board members should have charge cards in their possession at taxpayer's expense?
9. Do you believe that some School Board members should hold meetings that are not open to public and other board members of differing views?

## Thousands Hear Prayer Call In Boston Session

BOSTON, Mass. — Christian Scientists from around the world have been summoned to "unite in good, strong prayer" and to do a better job of "responding to mankind's needs."

David E. Sleeper, the new chairman of the Christian Science board of directors, told church members yesterday that it was time "to discard every thought that would turn us away from our conviction that God is as supreme on earth as He is in heaven."

A Texan and a member of the denomination's governing body since 1969, Sleeper said the example of Jesus is as relevant today as it was centuries ago. He said the key to that example was a willingness "to read the signs of the times spiritually —

according to divine guidance."

Several thousand members, representing Christian Science congregations in the United States, Canada and overseas, attended the 82nd annual meeting of the First Church of Christ, Scientist, here Monday. Church officers reported on the denomination's healing ministry, its reading room and publishing activities, and the work of its branch congregations.

Boston is the home of the denomination's international headquarters. The church was founded here in 1879 by American religious leader Mary Baker Eddy.

Sleeper and others who spoke acknowledged a continuing need for steadier church attendance by those of all ages. But, as with primitive Christianity, said Sleeper, mere surface conditions do not discourage "committed followers of the Master."

Said the chairman: "Jesus wasn't one to ignore appearances, whether they were good or bad. Whatever effects he saw on the surface he never let the appearance mislead him. In fact, he strongly rebuked those who did limit their conclusions about cause and effect to what they could observe humanly."

"If Jesus hadn't been able to read the signs of the times spiritually," Sleeper declared, "he might have been terribly discouraged. We too must read the signs of the times correctly and act from the standpoint of spiritual vision."

## Christian Scientists Choose State Man

BOSTON, Mass. — James Spencer of Birmingham, Mich., has been named President of The Mother Church, The First Church of Christ, Scientist, in Boston.

The annual appointment honors Christian Scientists who

JAMES SPENCER  
Variety of Posts

have given extraordinary church service. It was announced here yesterday during the 82nd annual meeting of church members.

A native of New York City who grew up in Miami and studied at both the University of Pennsylvania and at Principia college, Elmhurst, Ill., Spencer is a lifelong Christian Scientist. He has been active in the healing ministry of the Church of Christ, Scientist, since 1954.

On active duty with the U.S. Marine Corps during the Korean war, he served as a Christian Science representative in the Armed Services. He later served as chaplain in the United States Army and as a civilian Christian Science minister for the Armed Services in Miami and Key West, Fla.

Spencer has served in a variety of church posts. In 1967 he became a Christian Science lecturer and in 1974, a teacher of Christian Science. He has lectured throughout the United States, in South America, England and Europe.

## Today in History

By ASSOCIATED PRESS  
Today is Tuesday, June 7, the 158th day of 1977. There are 207 days left in the year.

Today's highlight in history: On this date in 1942, the Pacific War Battle of Midway ended in a major American victory over the Japanese.

On this date: In 1854, the coronation of Louis the 14th as King of France took place at Rheims.

In 1789, Daniel Boone began his exploration of the Kentucky wilderness.

In 1862, the United States and Britain signed a treaty for suppression of the slave trade.

In 1864, President Abraham Lincoln was renominated by a Republican convention in Baltimore.

In 1940, in World War II, organized resistance to German invaders ended in Norway.

In 1973, West German Chancellor Willy Brandt, on a visit

to Israel, denounced what he called the suffering and horror of the Nazi persecution of Jews.

Ten years ago: In the Middle East Six-day War, Israeli forces driving into Egypt reached the banks of the Suez Canal.

Five years ago: American jets battered a North Vietnamese railroad yard only a few miles from the China border.

One year ago: Secretary of State Henry Kissinger arrived in Santiago, Chile for a meeting of the Organization of American States.

Today's birthdays: Singer Tom Jones is 37. Poet Gwendolyn Brooks is 60. Violinist Jaime Laredo is 36.

Thought for today: He who could foresee affairs three days in advance would be rich for thousands of years. — A Chinese saying.

## Inmate Still Sought

PORT HURON, Mich. (AP) — A red Plymouth believed to be the car a convicted killer used to escape from Southern Michigan Prison has been recovered in Port Huron, state police said today. Inmate Robert Taylor of Port Huron, 33, who was serving a life term for an abduction-slaying, disappeared from the Jackson prison late Sunday. He is the third inmate since 1970 to escape from the walled facility. State police at the Jackson post said the 1972 Roadrunner with a white top was discovered late Monday. An all-points bulletin has been issued for Taylor's arrest. Taylor was last seen at the 6 p.m. check Sunday but was missing at 11 p.m. on the final check of the day, according to prison Warden Charles Anderson. Jackson County deputies said they believed he was driving the red Plymouth, but gave no indication why Taylor would have access to that particular car.

# U.S. To Reject College Quotas

NEW YORK (AP) — The federal government is committed to fighting discrimination in higher education but will not set "arbitrary quotas" toward meeting that goal, says Secretary Joseph A. Califano Jr. of the Department of Health, Education and Welfare.

Califano said the government favors "numerical goals" in its campaign to ensure equal opportunity in colleges and universities, because "goals

impel us to greater efforts, to search farther, to work harder."

"And they make clear that applicants must be able to compete successfully," he told the graduating class Sunday at the City College of New York.

But Califano said, "Arbitrary quotas will not be part of our enforcement program." He said that "in the effort to eliminate differences and inequalities, quotas may actually aggravate them."

The role of colleges now is "to take stronger and more focused action" to end discrimination, Califano said.

Despite the decline of overt discrimination in higher education, he told the graduates, "the specter of discrimination still haunts America."

"Outright discrimination may be on the wane, but it still exists," he said. "Even where, by good faith and hard effort, discrimination has been rooted out, its damage persists."

Thousands of minority youths suffer from those "past handicaps," said Califano, adding that "with second class training, even potentially first class students cannot compete on traditional terms for college openings."

American colleges need to "seek out minority students who possess that talent and desire to procure a higher education. Our recruitment efforts must be dramatically strengthened and aggressively pursued among minorities, among women and among the handicapped," he said.

**LOCAL COMEDIC:** Comedian Jimmy Ruff of Benton Harbor will be playing at Sinbad's West, St. Joseph, this Friday night. Ruff has recently returned from a road tour that included three nights at the Haddon House hotel in Atlantic City and an engagement at the Chin Tiki room in Detroit.

## AT FAIRGROUNDS

### Cass Tractor Pull Scheduled July 2

CASSOPOLIS — The Cass County Tractor Pullers association will stage its first pulling contest on Saturday, July 2, at the Cass county fairgrounds here.

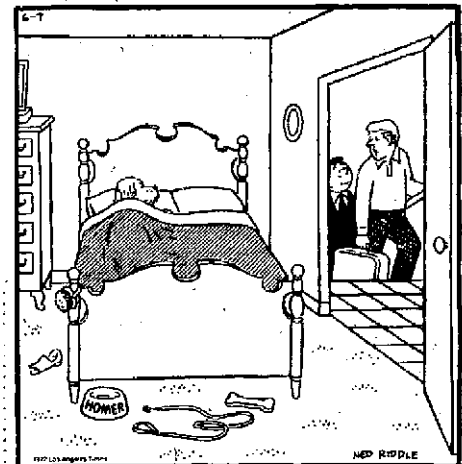

The contest will include classes for Farm Stock (out of field), Farm Altered, and Modified tractors, according to

Jan LaPorte, secretary. The Farm Stock class competition will begin at 9 a.m., while the Farm Altered and Modified machines will pull at 7:30 p.m. in front of the grandstand.

The association, formed last summer, has some 35 members.

# COLOMA CAREER PROGRAM Principal Gives Report

COLOMA — Victor Wier, Coloma high school principal, said last night Coloma school counselors could develop and conduct a career awareness program better than one recently conducted in the system.

The recently concluded program was carried out by the Twin Cities Chamber of Commerce.

Wier's report on the 21-week career awareness program sponsored by the Chamber was made to the Coloma school

board, meeting in a special session.

Wier suggested, the program which was completed June 1, be enlarged to include more students if the program is continued by the school board, and the present format be altered.

The school board last August authorized a \$1,000 expenditure to participate in the chamber sponsored program. In the program the district's 10th grade class of 250 were able to visit Twin Cities area industries and businesses; to prepare for

seeking jobs and careers.

Wier's report credited those responsible for the program and their resource people with doing an excellent job of presenting their materials.

Wier reported it was a good experience for the school to be involved in the program, and it was worthwhile, to the extent that it forced the school to evaluate its own career awareness program.

No action on Wier's report was taken by the board.

In other areas, the board authorized school administra-

tors to seek bids for installing a new lighting system in the Alwood gymnasium aimed at increasing the lighting and reducing the amount of electricity.

The board approved purchasing a trophy case for high school trophies, using money from an athletic fund established several years ago.

The board approved sending a congratulatory letter to the Coloma junior high band for winning the best band trophy at the Blossomand Youth parade May 19, and winning first place honors in the junior high division of the Michigan week parade held in Sturgis, Mich., May 14.

The board set Monday, July 11 as the date for the board's annual organizational meeting instead of the usual first Monday in July, due to the Fourth of July holiday.

**'FREE' HOME:** Ernestine McCall, 27-year-old mother of four, takes break from sweeping her home in North Philadelphia. She is one of several squatters in vacant homes abandoned by previous owners who couldn't make mortgage payments. Instead of rent, the squatters pay for repairs and protect the properties from vandals. (AP Wirephoto)

# Fennville Okays Sheriff's Post

FENNVILLE — The Fennville city commission last night voted its approval to having an Allegan county sheriff's substation located in the city.

Notice of the commission's approval is to be forwarded by letter to the county sheriff's department.

Under the plan, two patrol cars and two deputies would be stationed in the city and would serve the city and eight surrounding townships at a cost of \$750 yearly to each governmental unit.

The fee would be for vehicles and uniforms with the two deputies paid by federal CETA funds. The still incomplete plan has not yet gotten the full approval of all units and the sheriff's department.

The city does not have a full-time police officer.

Pete Ridgeway, maintenance supervisor, said city workers have discovered that six fire hydrants in the city are inoperable and will have to be replaced at a cost of about \$1,000 each.

The inoperable hydrants were discovered when firemen ran into one balky hydrant while fighting the Sunday morning blaze that destroyed the Acro Chemical Co. building.

The hydrant nearest the firm was repaired and put into use for the fire, Ridgeway said, but a subsequent survey showed six

others beyond repair.

Mayor Robert McCracken said that because of fiscal demands, the hydrants "...will have to go begging this year."

Ronald Prentice, a spokesman for Michigan Fruit Canners, told the commission that the sanitary landfill the firm and city jointly operate is in violation of health standards in five areas.

The alleged violations were listed in a letter from the county health department, he said.

He suggested the city, the company and county officials work together to stop refuse burning, dumping of containers in swampy areas, lack of on-site supervision and failure to daily cover up the refuse.

The commission voted to give \$200 to the Fennville Chamber of Commerce for beautification of an area adjacent to the old railroad station and along the railroad right-of-way.

The project had been recommended by Mrs. Helen Bashford, a member of the Chamber.

## BRITISH SPY DIES

OXFORD, England (AP) — Sir John Masterman, who masterminded the sabotage of Germany's spy system in Britain during World War II, died Monday at an Oxford nursing home. He was 88.

# Hartford Slates Meeting Tonight On Sewer Bond

HARTFORD — The Hartford city council last night received, but took no action on, proposed sewer rate increases to help defray operating costs of a proposed new sewer treatment facility here.

The council met in a special session to sign an agreement designating the Van Buren county department of public works as agent for a proposed \$450,000 bond issue to finance local costs of the \$1.8 million project. However, at least five signatures are needed to ratify the agreement and just four council members attended last night's meeting.

A special session is set for tonight at 7:30 p.m. to sign the agreement on the bond issue.

Robert Benzinski, Van Buren county rate consultant, presented the sewer rate increase proposals based on water usage. Suggested rates would be \$15 per 10,000 gallons of water used on a quarterly basis with another \$1 per 10,000 gallon charge for water used in excess of 10,000 gallons per quarter.

Currently the sewer rate is based on \$15 for each 20,000 gallons of water used on a semi-annual basis.

Benzinski said those rates would cover estimated operating costs of the proposed new plant pegged at \$65,000 per year.

No method has yet been determined for paying off the \$450,000 bond issue needed to meet the city's share of the estimated project construction costs. Federal and state grants are to pay the balance of the project costs.

In related action, Don Smith, a former council member, presented 77 petitions requesting cost breakdowns on the proposed \$1.8 million sanitary sewer improvement project.

He also told the council that it should consider sewage treatment lagoons rather than a treatment facility because it is cheaper. Hartford Mayor Wayne Nelson said there was not enough inexpensive land available for lagoons. He said some 100 to 125 acres of land is required. The city currently has option on 25 acres of land in Hartford township as the proposed site of the sewage treatment facility.

The petition was in addition to one with some 250 signatures presented to the council at its May meeting. The petitions also ask for a referendum on the bond issue. The city charter requires that to initiate a referendum by petition, 1,200 signatures of city residents would be required.

Also in related action, the

council last night approved an agreement to be sent to the Hartford township board which would allow use of township land for the treatment facility site, set charges for township residents' use of the sewer system and outlined sewer line expansion procedure.

Under the agreement, charges for township residents using the sewer system would be the same as those charged city residents. The agreement also stipulates that any future expansion of lines would not be at any cost to the city.

# Cass Incumbents Are Re-Elected

CASSOPOLIS — Two incumbent Lewis Cass Intermediate school board members were re-elected to six-year terms on the board last night.

Re-elected without opposition were Mrs. Janet Pendergrass of Dowagiac and Michael Chutia of Cassopolis. Each received four votes from the intermediate board's constituent districts — Dowagiac, Cassopolis, Edwardsburg and Marcellus.

No other candidate was placed in nomination by representatives of the individual school districts. Mrs. Pendergrass is currently vice president of the intermediate board.

Supt. Arthur Towse presented the tentative 1977-78 intermediate budgets. One, in the amount of \$821,570, is based on anticipated voter approval of an additional three-quarter mill property tax levy. The other, for \$856,538, is based on failure of the millage request to pass.

The intermediate district currently levies 1.5 mills and the rate would be hiked to 2.25 mills, if the request is approved.

Supt. Towse stressed there will be no change in special education programs operated directly by the intermediate district if the extra millage is defeated.

**'DR.' REDFORD:** Actor Robert Redford wears cap and gown as he attends 188th commencement exercises at Williams College, Williamston, Mass., Sunday. School awarded him honorary degree as doctor of humane letters. (AP Wirephoto)

The \$165,000 difference will effect reimbursements or additional payments for the four constituent districts. If the millage does not pass, according to Towse, the four districts will have the funds proportionately deducted from their special education programs.

Towse said the four school districts would then have to delete some of their own special education programs or fund them through their own operating funds.

The Lewis Cass board held tonight's meeting in the just completed house constructed by the building trades class at 109 Haines street, Dowagiac. Bids for sale of the home will be opened at the board's June 27 meeting. The board is reserving a minimum \$30,000 price tag for the three bedroom home.

## Lower Rates

DETROIT (AP) — Michigan Bell Telephone's business customers could see lower phone bills under a pilot program scheduled to start next January in southeastern Michigan.

Under the program, calls from 20,000 businesses will be timed by the phone company, and discounts will be given for those lasting less than five minutes.

# Thursday's Last Signup Day For Summer Band At Coloma

COLOMA — The final registration day for the Coloma schools summer band program will be Thursday, June 9, according to Raymond Norberg, director of music. Students registering for the summer band program, slated to begin June 27 and continue through Aug. 4, must pay an enrollment fee of \$10. The classes will meet in the high school band room. Registration hours will be from 10 a.m. to 4 p.m. in the Coloma high school band room, Norberg said.

# BH Commission Favors Malleable Building Sale

The Benton Harbor city commission last night unanimously approved an "intent to sell" a portion of the bankrupt Benton Harbor Malleable Industries plant to a Benton township metal tubing manufacturing company for \$27,500.

The "intent to sell" agreement is with Triax Tube Co., located at 2564 M-139. The agreement calls for Triax to purchase 60,000 square feet of the former Benton Harbor

Malleable's 500,000 square foot plant complex on Graham avenue.

Under the agreement, Triax would purchase two empty buildings, one formerly used for shipping and receiving and the other for office space and light manufacturing, on an "as is" basis. The buildings are located on five acres of land fronting on Eighth street off Graham avenue.

The "intent to sell" agreement, according to City Manager Melvin Farmer Jr., precedes the signing of a formal contract which will spell out the legal description of the property and conditions of sale.

"We have no problems in the sale," Farmer said, "and Triax has indicated that it has no problems with the present agreement." Payment will be in cash, Farmer said, and Triax has paid a \$1,000 deposit on the property.

Benton Harbor Malleable entered bankruptcy proceedings in 1973 and closed its doors in December, 1974. The buildings are being sold under an agreement set by federal bankruptcy court in Kalamazoo in September, 1975.

Under that agreement, the City of Benton Harbor acts as "collecting agency" and will collect the first \$300,000 from

the sale of land and buildings and distribute it to the county, schools and city for payment of back taxes. Malleable owed some \$300,000 in local property taxes when it went into bankruptcy proceedings.

The formal sales agreement will also have to be approved by the county and Benton Harbor school board, according to Farmer.

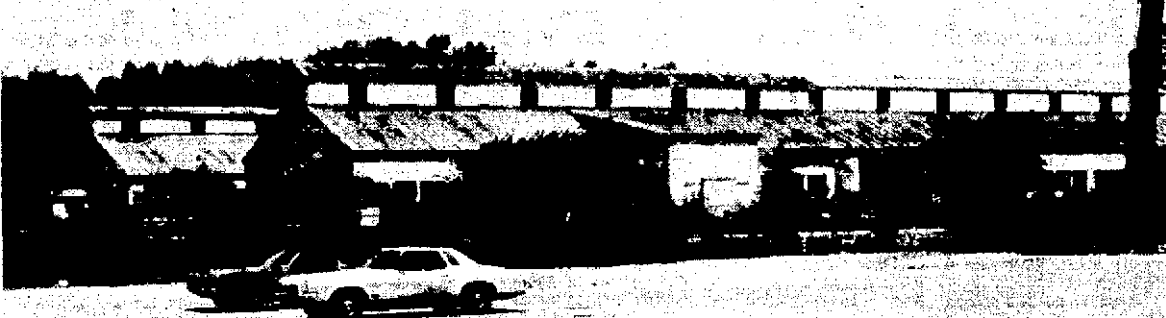

Money collected for sale of further land or buildings beyond the \$300,000 will be split evenly between the two banks which hold a mortgage on the property, Farmers and Merchants bank of Benton Harbor and Continental bank of Illinois.

Triax Tube will be the second company to purchase part of the Malleable property for manufacturing operations. In December, 1975, Twin Cities Metal Finishing company bought two buildings at the corner of Eighth and Graham for \$155,000. The two buildings Triax Tube intends to purchase are located just north of the Twin Cities Metal Finishing property.

The agreement approved last night is a revision of an earlier offer made by Robert G. Jackson, president of Triax Tube Co., which the commission vot-

ROBERT G. JACKSON  
Triax president

**FORMER MALLEABLE BUILDINGS BEING SOLD:** These two buildings, part of bankrupt Benton Harbor Malleable Industries plant, are scheduled to be sold to Triax Tube company for \$27,500. Benton Harbor city commission last night approved "intent to sell" agreement with Triax Tube company, located on M-139 in Benton township. Two empty buildings, which front on Eighth street, contain total of 60,000 square feet. (Staff photo)

# New Drainage Plan To Be Heard

Nye's Orchards, developer of a proposed industrial park site near the intersection of I-94 and Niles road, has a new plan for handling surface water run-off from the site, the St. Joseph township board learned last

## Nye's Offers Runoff Proposal For Park

plan was proposed by Nye's Orchards.

Gnodtke said under the new plan, the 17 acres which includes The Herald-Palladium plant would be added to the Royalton Heights district, while

amount of water running through the drain, Gnodtke said.

Nye's Orchards would pay for the entire project, Gnodtke said, and the residents can have their say at the June 20 hearing. He will have the final say on the proposal, he added.

Also last night the board set a public hearing for July 5 at 8 p.m. on Anchor Marina, a proposed marina that would be financed in part by revenue bonds for \$1.2 million issued through the county.

Township Atty. John Crow responded to a letter received by the board. Sent by Concerned United Taxpayers of St. Joseph township, the letter asked the board to rescind the recent appointments of five people to the zoning board of appeals. The reason given in the letter was that the board had expanded membership on the board before it modified its ordinance, which calls for a three-member board.

Crow said recent state law requiring that such boards have at least five members "takes precedence over local ordinance." The board acted correctly by complying with the state law, then amending the ordinance, Crow said.

In other action, the board:

— Appointed Mrs. Beverly Hicks, 3565 Arbor street, to the vacancy created on the township parks board when Ronald Griffin was appointed a township trustee May 2.

— Voted to require that the some 1,100 homes not connected to the township's sanitary sewers be hooked up by July 1, 1978. An ordinance that

required hookups within a year of completion of the sewers in front of homes was not enforced for a time because of problems with the interceptor sewer system, Benson said.

— Voted to spend an additional \$2,128 on extra insulation at the new township hall.

Energy conservation was the reason given for the addition to the original plan. Architect Wayne Hatfield said the hall will be completed around Aug. 1.

— Voted to reject the two bids received for the township hall, 146 West Napier avenue, because they were too low. Bids were received for \$18,000 from Charles Garlanger and for

\$35,000.06 from Edwin Brink, according to Clerk Bill Payne Smith. Smith moved that the bids be rejected.

— Voted to approve building permits, contingent upon approval of the township planning commission, for two projects. Wolverine Metal Stamping Company asked for a permit to build a storage building behind the main plant at 3600 Tennis court. Zick's Vineland Foodland, 1155 Vineland road, is seeking a permit to build an 80-foot by 120-foot addition to the store. Neither request involved a zoning change, according to Isadore DiMaggio, township manager.

city's second-year federal Community Development grant. The additional \$21,000 will also come from the city's Community Development grant, Farmer said.

The commission voted to approve a \$2,520 contract with All Time Pest Control, 757 East Main street, Benton Harbor, for exterminating services at seven houses scheduled for repairs under the city's home rehabilitation program.

Other submitting bids for the exterminating service were Excel Termite Service, of Benton Harbor, for \$2,611, and Hull and Horton Pest Control, Benton Harbor, which submitted a bid of \$2,075 for extermination services at six of the seven houses.

A delay in awarding the contract for the extermination services drew a protest at last week's city commission meeting from Maurice Bishop, owner of All Time Pest Control.

**Fire Doused**

St. Joseph firemen reported 500 gallons of water were used Monday to extinguish a wood and rubbish fire in the foundry at Auto Specialties Manufacturing Co. Firemen said the blaze ignited when a ladle of molten metal spilled at 8:15 p.m. No damage to the foundry building was reported.

## Cab Driver Is Robbed Near Niles

NILES — City police here said a City Cab driver reported he was robbed of \$29 by a fare last night on US-31, north of the city.

Police said cab driver Lawrence Citrulo, 1808 Front street, Buchanan, told them the man got into the cab near Walton road about 10:45 p.m., and shortly afterwards put an arm around his neck, stuck a blunt instrument in his back and demanded cash.

Citrulo, who was not injured, reported the man fled on foot after getting the money, police said.

# Beach Pay-To-Park Plan Advances At South Haven

By TOM RENNER  
South Haven Correspondent  
SOUTH HAVEN — Legislation enabling the city of South Haven to implement a paid parking program at its beaches received city council approval last night after nearly two hours debate before filled council chambers.

Council by a 5 to 2 margin

amended its uniform traffic code to allow creation of permit parking zones anywhere in the city between May 15 and Sept. 30, to allow creation of paid parking at the beaches.

Details of the program are to be worked out by City Manager Paul Sharon and a council committee in time to be approved at the council's next meeting June

20. A preliminary plan released last month indicated that city residents and property owners would be given free parking permits while out-of-town visitors would be required to purchase a permit. The fee has been suggested at \$1 on weekdays, \$2 on weekends and holidays or \$15 for the season.

The proposal, which drew opposition from the South Haven Chamber of Commerce on the grounds it would drive out-of-town shoppers away, received support from most of the nearly 40 people in attendance.

Most of the people sought assurances from city officials that

enforcement of traffic, littering and noise violations in the areas of the beaches would be improved.

Third ward alderman Robert Warren, a primary proponent of the permit system, assured those in attendance that the purpose of the program is to generate revenue to continue beach maintenance.

"We are not trying to be vindictive to our out-of-town neighbors," said Warren. "We are asking our neighbors to help us share the cost of maintaining our beaches. I believe you respect what you pay for."

Mayor Schutt, president of the chamber of commerce, presented a survey indicating its membership opposed paid parking at the beaches by a 77 to 11 margin.

"It appears there is a current enforcement problem (at the beaches), but I don't believe the police are going to respond any quicker because a violator doesn't have a parking sticker," said Schutt.

Second ward alderman Joseph Seiler said he conducted his own poll and ended with residents in his ward in favor of paid parking by a 29 to 2 margin.

"I would like to see a referendum on the question," said Seiler. "It would probably pass 6,000 to 200."

Some residents just outside the city said they patronize South Haven businesses and didn't believe they should be treated the same as people who travel a distance just for the purpose of using the beaches.

"I don't like being

categorized as an outsider," said Mrs. Judy Schlaack of Geneva township. "Maybe if our money isn't worth that much to South Haven we should spend it elsewhere."

Mayor Richard Lewis and third ward alderman Matthew Goerg cast the dissenting votes. In favor were aldermen Warren, Seiler, Ronald Kozlik, Wilbur Ingraham and Norvan Books.

Mayor Lewis said he opposed the ordinance because it didn't offer solutions to the enforcement problems that exist.

"I am tired of the so-called free loaders and I am in favor of beach-users contributing, but this proposal is too vague at this time," said Lewis.

Goerg said he was opposed because he feared it might cost more to implement the program than the revenue that might be generated.

In other matters, council accepted the high bid of Plantation Pancake House of South Haven to operate the concession stand on the city's north beach. The three year agreement calls for the firm to pay the city \$634 per summer.

Council denied a request from Dorris Akers and Alan Sylvester of South Haven to establish a farmers' market on city property near Williams street, saying it would compete with

existing businesses.

A request for a catering permit from Frank Pele of South Haven to operate a mobile concession stand that would roam the city was denied.

Council set June 20 for a hearing to consider a petition from Getman corporation for an industrial facilities exemption certificate. The exemption would give the firm some property tax relief for a proposed expansion program.

Council accepted the resignation of Douglas Waltrick from the board of public utilities. Waltrick said he is moving outside the city.

A \$105,400 budget for the 1977-78 school year community recreation and education program was approved. The program is co-sponsored by the city and public schools system. The city will again contribute \$40,000 toward the program.

Council by a 6 to 1 vote authorized a study of the city electric utility's industrial power rates. Warren cast the dissenting vote, saying the city should obtain competitive bids instead of accepting a \$3,500 proposal from one firm.

The lone \$1,538 bid of Motorola Communications of Kalamazoo for a radio base station for the police department was rejected. The city manager was told to get multiple bids.

The use of the city's north beach for a volleyball tournament for three consecutive weekends beginning June 18 was approved.

City manager Sharon said four parking spaces in the central business district would be designated for handicapped people.

Lewis revealed that citizens interested in being appointed to boards or commissions should contact him as this is the time of the year when vacancies are filled. He noted there are vacancies on the board of public utilities, housing commission,

planning commission and housing board of appeals.

A petition signed by 39 people asked the city to expedite the removal of an allegedly unsafe building at 43 North Shore drive. Sharon said the building

should be removed in July. Council recessed its meeting to this Thursday at 7:30 p.m. at which time aldermen said they would reconvene in executive session to discuss labor negotiations.

## POLICE ROUNDUP

### Officers Probing Robbery, Thefts

A Sodus township farm laborer told Berrien sheriff's officers he was struck on the head and robbed of his wallet by a man he was riding with on Meadowbrook road in Bainbridge township.

William D. Young, 62, of 5664 Pipestone road, Sodus, an employee of Summerfelt farms, reported his wallet containing \$80 cash and identification documents, was taken Sunday night by a man he said he met earlier that day. Officers reported.

Deputies reported Young said he had just gotten out of a car and was standing on the edge of Meadowbrook road when he was struck from behind. Officers said Young was bruised on the head, and the alleged assailant drove away.

State police from the Benton Harbor post Monday reported the arrest of a Milwaukee, Wis., couple on charges of carrying a concealed weapon and receiving and concealing stolen property over \$100 after a car was stopped on I-94 near M-139 in Sodus township.

Arrested were Leonard Ross, 21, and Connie Ross, 22, police said. Officers reported they seized two television sets and a .38 caliber pistol at 6:30 p.m. after stopping a car.

Thefts totaling more than \$1,300 in goods were reported to various police agencies Monday.

Berrien sheriff's officers said jewelry including a diamond ring, and clothing, valued at a total of \$815 owned by Judith Hill, 2839 Crownpoint, Stevensville, were reported stolen while the items were being kept at 2910 Pagoda lane, in Stevensville.

Sheriff's officers also reported a 40-foot aluminum ladder and a light fixture valued at \$200 were stolen from the property of Frank Zappia, Route 2, Brush Lake road, Eau Claire.

Benton township police reported four chrome wire wheel covers valued at \$210 were reported stolen from a 1977 Ford LTD parked in a storage lot behind Ashley Ford, 1074 East Napier.

Benton township police also reported one wheel cover worth \$63 was stolen from a Lincoln Mark IV owned by Dale McDannell, 4185 Red Arrow highway, while the car was parked in front of 1804 South M-139.

St. Joseph city police reported two Mexican-made ponchos were reported stolen from the Charlene Mustee residence, 812 Lake boulevard after the garments were left on a front porch.

## Arguments Polished

DETROIT (AP) — Both sides in the trial of two nurses accused of murdering hospital patients polished arguments today on a defense motion to dismiss all charges. Lawyers for Leonora Perez, 32, of Ann Arbor and Filippa Marciso, 30, of Ypsilanti last week asked U.S. District Court Judge Philip Pratt to throw the case out on the grounds the prosecution failed to submit enough evidence to prove beyond a reasonable doubt the two nurses committed murder and other crimes. Oral arguments were to begin today. The government accused the nurses of poisoning seven patients, killing two of them, at the Ann Arbor Veterans Hospital in 1975 by putting the paralyzing drug Pavulon in their intravenous feeding apparatus.

## HYDRANT HIT

### Crackup Sends Water Gushing

St. Joseph city police reported a car struck a fire hydrant and a tree off Niles avenue early today, causing minor injuries to the driver and sending water gushing into the street.

Police identified the driver as Carol Lee Hangerford, 20, of 494 Townline road, Benton township, who was ticketed on a charge of reckless driving and treated for cuts and released at Memorial hospital.

A city crew was called to turn off water from the broken hydrant. Police said the accident was reported at 2:05 a.m. on Niles near Lane drive. The car was damaged heavily.

St. Joseph township police reported Terry L. Lamirand, 27, of 328 Park road, Watervliet, sustained back injuries and was treated and released from Memorial hospital after a truck backed into him while he was standing on the shoulder of Niles road at Lydia drive Monday morning.

Police said the truck is owned by Michigan Bell Telephone company and was driven by Martin R. Nugent, 29, of 1819 North Fifth street, Niles. No ticket was issued police said.

Benton township police reported James Tunstall, 21, of 855 Thomas avenue, complained of neck pain but sought his own treatment after the car in which he was a passenger collided with a second auto on Red Arrow highway near Benton Center road Tuesday night.

Police said an auto driven by Theresa S. Tunstall, 18, of the same address, was involved in a collision with a car driven by Kenneth A. Merfeld, 16, of 2190 Holly avenue, Benton township, at 10:11 p.m. Tuesday. Both cars were southbound at the time of the crash, officers reported. They said neither motorist was ticketed.

IN PHILLY: Joan Mondale, wife of Vice President, rode through historical section of Philadelphia, Pa., Monday, and also dedicated fountain and various art works during her visit. (AP Wirephoto)

## DEATHS AND FUNERALS

### Police Seek Cause Of Fatal Fire

Cause of a bedroom fire in which a nine-day-old boy died Sunday night in Benton Harbor remained undetermined this morning, according to Fire Chief Harold Gaddie and Police Det. Sgt. Sam Watson.

Gaddie said his department has turned investigation of the blaze over to the police department. The fire was in an upstairs bedroom at 733 Lavette street. Corey Puffer, who had been left in the bedroom, was dead on arrival at Mercy hospital shortly after the fire was discovered.

Dr. Paul Tam, deputy medical examiner, said a definite cause of Corey's death would not be determined until laboratory tests of the baby's blood have been received. Tam said a preliminary examination indicated burns appeared to be the cause of death.

Corey's mother, Evelyn Puffer, told firemen she had left the infant upstairs and had gone downstairs to tend five other children for whom she was babysitting at the home of her sister, Shirley Campbell, before the fire broke out.

Firemen said damage was confined to the bedroom. Corey and his mother lived at 314 Lake avenue, Benton Harbor. Corey was born May 27 in

Berrien General hospital, Berrien Center.

Surviving besides his mother are the grandparents, Mrs. Annette Puffer, Benton Harbor, Gus Foster Sr., and Isabelle Meyers, both of Little Rock, Ark.

Memorial services will be held at 1 p.m. Wednesday in the Finch funeral home, Benton Harbor, where friends may call beginning Wednesday morning. Burial will be in Crystal Springs cemetery.

### Benton Man's Body Found In Paw Paw Lake

Berrien sheriff's marine officers reported the body of a Benton township man was recovered at 6:30 p.m. Monday from Paw Paw lake — about 48 hours after he reportedly fell out of a boat.

Officers said the body of James C. Cooper, 32, of 227 Butternut street, was found in 35 feet of water about 35 yards from shore on the northeastern side of the lake, Watervliet township.

Dr. Rolando M. Fajardo, deputy county medical examiner, said this morning he has ruled Cooper's death accidental drowning and no autopsy is planned.

Sheriff's officers reported that Cooper fell from a moving 15-foot boat powered by a 65-horse motor Saturday evening.

Deputy Van Clark reported Lillie Sims, 24, of 323 Walnut street, Benton township, said she and her three-year-old son were in the boat with Cooper. She said Cooper asked her to take the wheel of the boat as he walked toward a back and apparently fell overboard.

Mr. Cooper was born Nov. 19, 1924, in Lambert, Miss., and had resided in the area nine years. He had been employed by Bendix Corporation. Mr. Cooper was a veteran of World War II, serving in the Navy.

Surviving are his widow, Suzie Mae Cooper, Lambert; his parents, Mr. and Mrs. Ollie Cooper, Crowder, Miss.; six daughters, Pearlann Cooper, Chicago, Ill., Nellie Mae Cooper, Mrs. Bobbie Joe Smith, Gordian Cooper, all of Lambert, Jean and Minnie Cooper, both of Muskegon; three sons, Fred, William and Davel Cooper, all of Lambert; four sisters, Mrs. Ollie Mae Cole, St. Louis, Mo., Mrs. Ellie V. Spanton, Mrs. Mary Watson and Mrs. Katherine Washington, all of Crowder; seven brothers, Willie and Mose Cooper, both of Benton Harbor, Charlie Cooper, Eau Claire, Ind., Ozzie Cooper, Evansville, Ind., Ozzie Cooper, Syracuse, N.Y., Walter Lee and LeRoy Cooper, both of Crowder and 13 grandchildren.

Funeral arrangements were incomplete this forenoon at the Finch funeral home, Benton Harbor.

### Jack Leslie

HARTFORD — Jack Corbit Leslie, 60, of Route 1, Hartford, died at his home Monday morning. He was born Oct. 14, 1916, in Riceville, Ky., and was a former employee of V-M Corporation, Benton Harbor. Mr. Leslie was a veteran of World War II, serving in the U.S. Army.

Surviving are his widow, the former Madge Shelton, to whom he was married on Dec. 3, 1974; five sons, Wayne Leslie, Brownsville, Texas, Melvin Leslie, Bangor, Paul Leslie, Bangor, Carl Leslie, Lawton and Marvin Leslie, Paw Paw; three daughters, Mrs. Ronald (Wanda) Lock, Breedsville, Mrs. Charles (Joyce) Burns, Vicksburg, Miss. Pamela Gale, Breedsville; four step sons, Bruce Shelton, Hammond, Ind., Roger Shelton, Hebron, Ind., Rev. Jack Shelton, Akron, Ohio and Dan Shelton, Niagara, Wis.; 22 grandchildren; two brothers, Lee and Joe Leslie, both of Columbus, Ohio; a sister, Mrs. Ora Reed, Flint, Mich. His first wife, the former Etta Moore, preceded him in death in 1960.

Funeral services will be held at 2 p.m. Thursday in the Calvin funeral home, Hartford, where friends may call after 7 p.m. tonight. Burial will be in Coloma cemetery. Military graveside rites will be held by American Legion Stoddard Post No. 93.

Shearer Rites  
BERRIEN SPRINGS — Funeral services for Charles W. Shearer, 63, of 308 South Cass street, Berrien Springs, who died Monday, will be held at 2 p.m. Thursday in the Allied funeral home, Berrien Springs. Burial will be in Rose Hill cemetery. Friends may call at the funeral home from 4 until 9 p.m. Wednesday. Memorials may be made to Berrien County Cancer Service.

Mr. Shearer was born March 2, 1914, in Hinchman and had resided in the area 14 years, coming from Three Oaks.

Surviving are two sons, William, Galien, Michael, Three Oaks; three grandchildren; his mother, Mrs. Essie Shearer, Berrien Springs; two brothers, Leslie, Niles and Stewart, Benton Harbor; three sisters, Mrs. Harry (Marguerite) Heim, Mrs. Harold (Ethel) Wagner, both of Berrien Springs and Mrs. Kenneth (Betty) DeVlew, Portland, Ore.

Funeral services will be held at 2 p.m. Wednesday in the Finch funeral home, Benton Harbor, where friends may call after 7 p.m. tonight. Burial will be in Rose Hill cemetery. Friends may call at the funeral home from 4 until 9 p.m. Wednesday. Memorials may be made to Berrien County Cancer Service.

Mr. Shearer was born March 2, 1914, in Hinchman and had resided in the area 14 years, coming from Three Oaks. ## Lawrence To Join Skills Center Plan

LAWRENCE — The Lawrence school board last night voted to join in a cooperative education program proposed by the Van Buren intermediate school district's skills center.

Harry Miller, director of the skills center, told the board last night the center is surveying various districts to ascertain interest in participating in the program. The program would provide on the job training for students in cooperation with various business organizations.

The board agreed unanimously that the district would participate should the proposed program become a reality. Miller said the program would be funded and coordinated through the skills center.

In other action, the board set a special meeting for June 23 to hear recommendations on a new

insurance program for the district. Robert Ellis of the Cook-Ellis Agency, Lawrence, will present the insurance proposal. The current district insurance expires June 24.

The board accepted the resignation of Gary Austin as high school athletic director. He told the board he did not have enough time to spend with his family. Austin is a social studies teacher in the junior-senior high school. The board also accepted the resignation of Jerry Hutchins as junior varsity football coach. He gave no reason.

The board granted permission to the Brush Creek Neighbors group to use the school grounds for a July 4 celebration. The board held its meeting last night because its regularly scheduled meeting falls on graduation night Thursday.

## Baroda Hearing June 27 On Proposed Subdivision

The Baroda village council last night voted to hold a public hearing Monday, June 27, to get public reaction to establishment of a 12-acre duplex housing subdivision.

The area is now agricultural land next to the Pheasant Run housing development off Cleveland avenue. Council action came in the wake of a planning commission recommendation approving the proposal, subject to acceptance of final plans.

Kenneth Matlner, chairman of the planning commission, asked the council to consider the number of people who would be moving into a relatively small area, the traffic congestion, poor health conditions if individual water and sewer is used, and the effects on surrounding property values, during the hearing. The hearing will start at 8 p.m. and will be held in the village hall.

Council action is sought by Don Camp of Bun Baldwin realtors and Robert Malzon, contractor. They submitted the proposal to the council in May and the council referred it to the planning commission.

In other business, James A. Richardson and Jay Howard of R.W. Petrie and Associates, Inc. presented preliminary plans and a progress report on the Lake street bridge project. The Lake street bridge is designed basically like the Church street bridge. Richardson said final permits and papers are being submitted with the plans to the state. He is hoping the state will advise the council of its action on the plans by Aug. 24 so bids may be sought by Sept. 1.

Mrs. James (Jean) Jasper, spokesman for the Baroda library volunteers asked for book contributions for use by the library. Some books would be used for a fund-raising book sale on July 18. Mrs. Jasper asked for villagers' cooperation in getting the library set up at St. John's Lutheran church Cleveland avenue. The Lincoln township library and the Baroda library volunteers hope to have the Baroda branch open to the public next week.

The council approved the request of Mr. and Mrs. Al Tio to open Tio's restaurant in the Robert Lausch building on Main street. Mrs. Tio said the state and county had already approved their request. The Tio's hope to be open by July 1 and will serve breakfast and light lunches, no dinners, seven days a week.

The council voted to hire Raymond Roberts, certified public accountant, of 1223 St. Joseph road, Berrien Springs to audit the village books from April 1, 1976 to March 1, 1977. The final report is expected July 15, 1977.

Trustee Larry Nye reported that he would refile for EDA (Economic Development Administration) funds sought for drain projects as soon as he receives an application.

Property owners were reminded to mow vacant lots and woods along streets by July 1 at the latest or else the village will mow and charge \$50. If property owners do not pay this fee, it will be added to their property tax bill.

Residents interested in holding a rummage sale need a permit according to Mrs. Beem Tallas, clerk. Interested persons should contact her regarding rules for rummage sales.

## Bloomington Gives Nod To Transfer Procedures

BLOOMINGDALE — The Bloomington school board last night voted to let the Van Buren and Allegan county intermediate school boards set up procedures that could allow district property owners to transfer to the Fennville school district.

Action came because in the past three months, several residents from what has been described as the northern Pullman area in the district have sought to have their property transferred from the Bloomington to Fennville school district.

Dr. Donald Drago, superintendent, said a steering committee representing all facets of both communities and the intermediate districts has been set up and a survey of the northern Pullman area will be made in an effort to define how many people seek transfer and where they reside.

"We still don't know if we're hearing from a couple of people or more," Drago said.

Drago said that if the area involved constitutes over 10 percent of Bloomington's state equalized valuation, then any joint-intermediate decision would have to be approved in a referendum of Bloomington school district residents.

"At this point, we don't know if 10 students or 170 would be involved," Dr. Drago said. "That's why the survey is essential."

He said it's possible that if a large number of students are transferred out of the Bloomington district, it could mean the end of split sessions at Bloomington, but added not if Bloomington would lose the Pullman elementary school in the process.

Bloomington currently has an enrollment of 1,411. The

school system has been on half-day sessions at the middle and high school level for the past seven years. Fennville has 1,772 students and has recently completed construction of a new high school. Fennville had been on half-days before the construction.

The Pullman area lies in Allegan county's Lee township, generally some 7 to 10 miles south of Fennville, and 15 to 20 miles northeast of Bloomington, which lies in north central Van Buren county.

In May, the Bloomington board denied the property transfer requests of Pullman residents LeRoy Wolins and Mr. and Mrs. Edward Wetzel.

The Bloomington board has also set Sept. 12, as date for a school bond issue election. The amount of the issue or for what purpose has not been decided, but a 41,000 square foot addition to the high school, costing an estimated \$1,230,000 has been discussed.

In other areas, the Bloomington board by a 3 to 2 vote approved engaging the Michigan Association of School Boards' representative for negotiating contracts this year with both certified and non-certified personnel.

Voting for the measure were Ray Melvin, Ronald Bodtke and Kay Johnson. Voting against it were James Muenzer and Fred Rawson. Roger Templeman was absent.

It was announced by Mildred Royal, teacher, that summer school in math and reading would be held 1½ days a week at Bloomington elementary, and one day each at Pullman and Grand Junction elementary.

Four teacher retirements were announced effective at the end of the current school year. They include: Mrs. Florence Warner, 2nd grade Bloomington; Mrs. Fern Cain, 4th grade Bloomington; Mrs. Jean Burns, high school physical education; and Mrs. Hanna Beach, middle school teacher. Mrs. Beach has taught at Bloomington for the past 13 years, Mrs. Warner and Mrs. Cain for the past 12 years and Mrs. Burns for the past 11 years.

## Hearing Loss is not a Sign of Old Age

Chicago, Ill. — A free offer of special interest to those who hear but do not understand words has been announced by Bel-tone. A non-operating model of the smallest Bel-tone aid of its kind will be given absolutely free to anyone answering this advertisement.

True, all hearing problems are not alike... and some cannot be helped, but many can. Send for this non-operating model now. Wear it in the privacy of your own home to see how tiny hearing help can be. It's yours to keep, free. The actual aid weighs less than a third of an ounce, and it's all at ear level, in one unit.

These models are free, so we suggest you write for yours now. Again, we repeat, there is no cost, and certainly no obligation. Thousands have already been mailed, so write today to Dept. 933, Bel-tone Electronics Corp., 4201 W. Victoria, Chicago, Illinois 60646.

## Buchanan Scholarships Valued At \$10,231

By JOHN DYE  
South Berrien Bureau  
BUCHANAN — Scholarships totaling \$10,231 have been awarded to Buchanan high school students, according to Dr. Walter Vanderbush, high school principal.

Announcement as the scholarship winners was made during an honors convocation held at the high school Monday.

Named winner of a \$2,700 scholarship presented by the College of Wooster, Wooster, Ohio, was Kevin Vanderbush, 18. He is the son of the high school principal. He was also

named the school's male outstanding athlete of the year.

Other top scholarship winners included Rodney Snow, winner of a Buchanan Moose Lodge scholarship for \$700, Christine Ring, winner of a \$300 Ellis Memorial scholarship, and Gayle Gibbons, winner of a \$300

Lake Michigan college board of trustees scholarship.

Dianne Camp, this year's valedictorian, received the Frank Heezen Excellence in Mathematics award and scholarships from Lake Erie college and Beta Gamma Upsilon sorority. She also received

a Michigan competitive scholarship.

SHARON L. KALLING  
First woman on board

BENJAMIN R. NYE  
Wins second term

Eckblom  
Resigns  
Coloma  
Twp. Post

COLOMA — Coloma Township Supervisor Ewald (Bill) Eckblom last night submitted his resignation to the township board effective June 30.

Eckblom, 68, in his letter of resignation stated his decision was not hasty and his reasons for stepping down from the post were personal and in no way reflected current or past events or personalities.

Eckblom has served as supervisor since first being appointed to the post in November, 1975, after a former supervisor resigned.

Eckblom was elected to a full two-year term in November, 1976. His successor, when appointed would serve the remaining portion of the current term which expires in November, 1978.

Prior to assuming the supervisor's duties, Eckblom served as the township clerk.

After reading his letter of resignation, Eckblom suggested the board consider the name of Rodney Krieger Jr., of 5429 Lakewood drive, Coloma, as one of the possible successors in his post.

The township board has 45 days in which to appoint a replacement for Eckblom. If no action is taken in the time limit, the governor may then take action to fill the vacancy.

The supervisor's salary is \$7,500 per year.

In other areas, the board approved an application for an industrial facilities exemption certificate for the planned expansion of DeGroot, Inc., North Coloma road.

If approved by the state tax commission, the \$750,000 addition would be exempted from half of the property tax rate assessed against it for 12 years.

The township board last month approved designating the firm as an industrial development district.

The expansion of the firm involves construction of a new warehouse, containing 55,000 square feet, which would result with an additional 50 jobs within the next two years.

RICHARD BARDEN  
Re-elected

MRS. FRANCES SAGE  
Wins board seat

Burnette Loses  
Van Buren Post

LAWRENCE — Incumbent Richard Barden of South Haven and newcomer Mrs. Frances Sage of Gobles were elected last night to six-year terms on the Van Buren intermediate school board, ending Bill Burnette's 24-year tenure on the body.

Barden garnered seven votes. Mrs. Sage five, Decatur high school biology teacher George Fusko four, and Burnette three in balloting by representatives from 11 of the county's 12 school districts.

Each district representative was allowed to cast two votes for the expiring terms of Barden and Burnette, but two representatives only voted for one person and no representative appeared from Covent.

Burnette, of Hartford, was first elected to the board in 1953 and had been its president since the early 1960's.

Barden, 46, who is employed as a spray consultant by the Food Machinery Corporation (FMC) of Middleport, N.Y., was appointed last year to fill the unexpired term of board member Richard Shanley, who resigned.

Prior to that, he had served on the South Haven school board for four years, and on the Allegan intermediate school board for six years, including four as president. He and his wife, Mary, have two children and live on a fruit farm in Casco township.

He left the Allegan board when the Casco school district joined South Haven in 1967.

Mrs. Sage, a housewife, served on the Gobles school

BILL BURNETTE  
Loses re-election bid

board from 1971-75. She and her husband, George, have four children and live on Mill lake.

Voting was done by secret ballot. The new six-year terms of Barden and Mrs. Sage begin July 1.

## Galien Fire Probed

GALIEN — Cause of a fire which destroyed two farm buildings, livestock and farm machinery near here remained under investigation late this morning, according to Robert Lozmack, acting Galien township fire chief.

Lozmack said the state fire marshal's office has been requested to make an investigation of the 12:07 a.m. fire which destroyed a 30 by 58-foot barn and a 16 by 24-foot corncrib at the Farrell Kirk farm on Olive Branch road, off of Cleveland avenue.

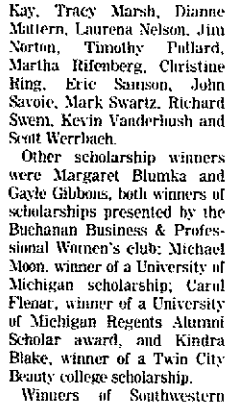

No damage estimate had been

made by late this morning, Lozmack said.

Last in the fire were six head of livestock, cattle and goats, that were a 4-11 project of the Kirk children, Lozmack reported.

Also destroyed were a combine and planter, 1,300 bushels of corn, and about 400 bales of straw, the acting fire chief said.

A total of 48 firemen from the Galien, Weesaw, Bertrand and Three Oaks townships fire departments battled the blaze. Lozmack estimated that some 30,000 gallons of water were poured on the fire.

DIANNE CAMP  
Valedictorian

Buchanan's Top  
Students Named

BUCHANAN — Dianne Camp and Rebecca Gray not only captured honors as the top scholars at Buchanan high school, but were also named winners of several other key awards at the school's honors convocation yesterday.

Miss Camp was named valedictorian, as well as winner of the Frank Heezen Excellence in Mathematics award, and scholarships from Lake Erie college and Beta Gamma Upsilon sorority, and a Michigan competitive scholarship.

Miss Gray, named salutatorian, was also honored as the girls' winner of the Lester Miller Outstanding Athlete award. She also was named winner of the D.A.R. Good Citizenship award, the Bausch, Lomb Science award, an Ellis Memorial scholarship award, Buchanan College club scholarship award and a Michigan competitive scholarship grant.

Dr. Walter Vanderbush, high school principal, reported that Miss Camp earned a 4.12 grade average, while Miss Gray earned a 4.03 average on a "weighted" 4.0 grade average system. He said that students can earn extra credit for enrolling in accelerated college-preparatory classes.

Miss Camp, 18, is the daughter of Mr. and Mrs. Donald Camp, 2950 Matthew road, Niles. She plans to attend Lake Erie college, Painesville, Ohio, and study to become a physician's assistant.

A member of the girls basketball and tennis teams, Miss Gray, 18, is the daughter of Mrs. Edwina Vastine, 106 Terre Coupe street, Buchanan, and Louis Gray Jr., Logan, Utah. She plans to attend Kalamazoo college.

Deadbeat Dads  
Sent To Jail

By SCOTT WILLIAMSON  
Staff Writer

Three fathers were ordered jailed yesterday and Friday in Berrien Circuit court for non-support of their children, with arrearages totaling nearly \$7,000.

Special Investigator Joseph Beckmann, of the Berrien friend of the court's office, reported on cases before Judge Julian E. Hughes.

Lyle C. Robinson, of 415 North Second street, Niles, was held in contempt of court for \$3,653 arrears for two children not on ADC, and told to begin a three-year probation with 30 days in jail. Robinson was also ordered to pay \$33 weekly support and \$2 per week on the arrearage when he is released from jail.

Beckmann said Robinson made his last support payment in November, 1974.

Jerry L. Morris, of East Jordan, Mich., was sentenced to seven days in jail after being held in contempt and placed on three years probation for \$2,196 arrears for three children not on ADC. Morris was also told to sign a wage assignment of \$36 weekly support plus \$5 per week towards the arrearage.

Beckmann reported Morris has not made a support

payment since the order started in June, 1976.

Isaiah McGee, of 815 LaVette street, Benton Harbor, was sentenced last Friday to 30 days in jail and three years probation for \$1,107 arrears for one child not on ADC. He was also ordered to sign a wage assignment of \$20 weekly support and \$5 weekly on the arrears. Beckmann said McGee's last support payment came in June, 1976.

Charles Maynard, of 202 Fairland, Niles, was placed on three years probation for \$4,935 arrears for one ADC child, paid \$100 towards the arrearage, and was ordered to pay \$38 support per week and \$2 weekly on the arrearage. Beckmann noted Maynard made his last support payment in March, 1975.

Beckmann said Robinson made his last support payment in November, 1974.

Jerry L. Morris, of East Jordan, Mich., was sentenced to seven days in jail after being held in contempt and placed on three years probation for \$2,196 arrears for three children not on ADC. Morris was also told to sign a wage assignment of \$36 weekly support plus \$5 per week towards the arrearage.

Beckmann reported Morris has not made a support

CHAIRMAN: Dr. Virgil L. Bartlett, associate professor of teacher education at Andrews University, Berrien Springs, has been elected chairman of Deans and Directors of Teacher Education in Michigan. Bartlett has been representative to group from Andrews past six years.

FINE AND JAIL  
TRAVERSE CITY, Mich. (AP) — Richard Nelson, a 19-year-old Traverse City man has been fined \$200 and sentenced to 30 days in jail in the hit-and-run death of a pedestrian.

Berrien County  
Schools Pick 2

BERRIEN SPRINGS — Representatives from 14 of the 16 constituent districts comprising the Berrien Intermediate school district last night elected Benjamin R. Nye and Sharon L. Kalling to two six-year terms on the Intermediate board. Nye, of Stevensville, was elected to his second full term on the board. Mrs. Kalling, of Niles, becomes the first woman ever to serve on the Intermediate board, according to President Lawrence Peachey.

Local district representatives balloted for two candidates out of three, with Nye and Mrs. Kalling defeating Richard Uzell, of Berrien Springs. Election tallies gave Nye 12 votes. Mrs. Kalling 10, and Uzell 5. It was the first time Mrs. Kalling and Uzell ran for seats on the board. Mrs. Kalling fills the slot of Donald Stover, of Berrien Springs, who served one term and did not seek reelection. Representatives from the New Buffalo and Riverside school districts did not attend the meeting held at the Intermediate headquarters here.

After adjournment, Mrs. Kalling was sworn in by Peachey, but will not be officially seated until July 1, when the board will hold its annual organizational meeting to select officers for the 1977-78 school year.

Mrs. Kalling, 34, resides at 222 Kings road. Niles, with her husband, David, and two children. She is controller for Executive Data Planning and Services Co., Inc., of Niles, a computer service bureau. She has been controller two years, and served in customer relations work with the company six years before that.

She holds a bachelor's degree in education from the University of Toledo, and has worked as a teacher in the Toledo, Ohio, and Berrien Springs school systems. Mrs. Kalling is on the parent policy committee of the Berrien County Day Program for hearing impaired children.

Nye, 62, lives at 5992 Hollywood road, Stevensville, with his wife, Ruby. He is a lifetime Royalton township resident and operates a plant nursery. He spent 15 years on the old Hollywood elementary school board and later served as a board member and president of the Lakeshore school board. He also has been active in youth and agricultural organizations.

I&M Refunds  
Out This Week

Niles and South Haven each will be mailed refunds of more than \$300,000 from Indiana & Michigan Electric Co. this week, the utility's Benton Harbor division manager announced today.

Philip Carl said that Niles will receive \$369,701.33 and South Haven \$341,068.72 as part of more than \$4 million in refunds to 15 municipal utilities that purchase power from I&M at wholesale rates for resale.

The refunds are being made following an order June 1 from the Federal Power Commission

approving a settlement reached by I&M and the municipalities concerning a 1972 wholesale rate increase.

I&M petitioned the FPC for a wholesale rate increase on June 13, 1972. The increase was put into effect, subject to refund, the following December after the permissible five-month waiting period.

Early this year, however, the FPC ruled that I&M was entitled to only a portion of the increase collected. That order brought about negotiations between the utility and the municipalities to determine refund amounts.

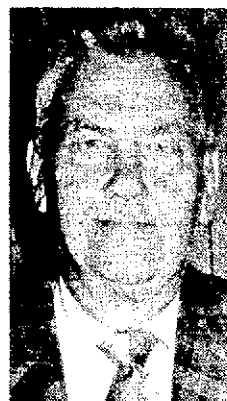

Under the terms of the settlement, each municipality will receive a refund which includes interest at seven per cent per annum from June 1972 through August 1974 and interest at nine per cent from August 1974 to June 1977.

The total amount of the refund plus interest is \$4,347,384.89, I&M said.

Niles and South Haven are the only Michigan municipalities involved in the settlement.

The others, all in Indiana, are: Avilla \$650.81, Bluffton \$231,914.99, Columbia City \$221,625.58, Frankfort \$51,063.71, Garrett \$110,323.37, Gas City \$96,457.20, Mishawaka \$830,605.29, New Carlisle \$4,710.72, Warren \$23,277.82, Anderson \$591,374.30, Auburn \$190,981.54, and Fort Wayne \$900,184.08.

The extra millage would raise the intermediate board's millage rate from 1.5 to 2.25 mills and provide an additional \$165,000 in operating money needed to help each local district maintain its present special education programs.

EWALD ECKBLUM  
Submits resignation

## FTC Stalling

WASHINGTON (AP) — The Federal Trade Commission is studying possible further court efforts to prevent the proposed acquisition of Monroe Auto Equipment Co. by Tenneco, Inc., according to an agency official.

The commission has said the acquisition would lessen competition in the auto replacement parts market.

An appeals court here denied an FTC motion last Friday for an injunction against the merger, pending an appeal.

Area Counties May Get  
Snow 'Disaster' Grants

All four southwestern Michigan counties and their local communities may be eligible for state disaster assistance in connection with the heavy snows that hit this area in late January.

According to The Associated Press, Allegan, Berrien, Cass and Van Buren are among 18 counties that could qualify for disaster aid.

Gov. William Milliken said

Monday that emergency rules allowing the areas to get aid have been filed with the secretary of state.

The rules implement a 1976 law giving grants of up to \$20,000 for public damage resulting from a disaster.

Under the rules, counties or local governments that maintain an emergency preparedness plan approved by the state

police are eligible for assistance.

Disaster aid is granted only if the county or local government can show that "an extraordinary burden" was placed on its resources.

The governor has made disaster area declarations on 19 occasions since last Dec. 30, when the act took effect, making various counties possibly eligible for state aid. Fifteen of the

disaster declarations stemmed from the January blizzard while four others followed April tornadoes and windstorms.

Other counties on the list include Barry, Chippewa, Eaton, Hillsdale, Ionia, Muskegon, Newaygo, Oceana, Ottawa, Sanilac, Shiawassee, Clinton, Kalamazoo and Livingston.

Eaton county was declared a disaster area in both January and April.

## No. 1 Teacher Gives Point Clinic Toski Cures Golf Swing Ills

By JOHN VANDEN HEEDER  
Sports Editor

"Dr. Swing" cured a lot of chronic golf ills at his clinic Monday afternoon at Point O'Woods Golf & Country Club.

The good doctor — better known as Bob Toski, the self-proclaimed No. 1 golf teacher in the world today — set up his office on the driving range and diagnosed hooks, slices, etc.

Toski, once the leading money winner on the pro tour, was on hand as the main feature of National Golf Day, an annual charity event on this side of the state sponsored by the Professional Golf Association's Western Michigan Chapter, Michigan Section.

After the clinic, Toski played an exhibition round with the National Golf Day participants and served as the guest speaker at the evening banquet.

Toski reportedly earns \$100,000 a year as a golf teacher, and he received a handsome fee to come to Benton Harbor, but it wasn't the money that brought the Miami, Fla., resident here.

"I'm here because of Sam (Point head pro Sam Drake)," declared Toski. "He's a very

personal friend of mine....he's a pretty special person."

Toski gives only about a dozen clinics like Monday's during the year. The rest of the time he gives personal lessons in Florida and serves for three months of the year as director of golf at Palmetto Dunes Golf Club on Hilton Head Island, S.C., an exclusive spot for well-heeled golfers.

Just recently he's worked on the swings of four pros Forrest Fezler, Grier Jones, J.C. Sneed and Gary Groh, who hails from Bridgman, once worked for Toski in a golf shop.

Toski's clients aren't limited to pros....who get free lessons. He's also helped the likes of

Perry Como, former President Richard Nixon and Jackie Gleason.

Toski stands tall in the golf world despite being only 5-7 1/2 and weighing only 125 pounds.

"If you are good enough, you are big enough," noted Toski. "I want to do it (teach) better than someone else. I'm more dedicated. I'm like Avis....I don't want to be second. I'm very precise....and I teach that way."

"In my opinion, I would say I'm the best teacher in the world. It's a special gift, and I've also had the advantage of being a good player and being exposed to the best playing talent in the world."

Toski has also read just about all the golf teaching literature available.

Toski's clinic on the golf swing covered such items as position, posture, pace and the path of the swing, and included the need for "sensitivity in your hands" and keeping one's weight on the balls of the feet.

But Toski said a basic problem with most golfers is trying to overpower the ball. "Rhythm is power," he stressed. "Golf is an intelligent game, played by intelligent people....studiously. Never try to be perfect....you'll end up with a white coat on."

Toski made his clinic even more interesting with an array

of trick shots and witty remarks. "I'm a showman because I enjoy my work," he explained.

Toski, a limber and spry 50, hit long drives while on one leg and on his knees and drew comments of "unbelievable....super" from his appreciative audience.

Toski doesn't limit his golf expertise to teaching. He has written one book on the "touch system" of golf and has another in the works. He has also just opened a business for making custom clubs in Newark, Ohio.

Toski is undoubtedly the man to look for if you want to get a grip on your golf game.

**TOSKI MAKES A POINT:** Bob Toski of Miami, Fla., the self-proclaimed No. 1 golf teacher in the world, makes a point during clinic Monday at Point O'Woods Golf & Country Club. Toski was in Benton Harbor for National Golf Day, an annual charity event sponsored by the Professional Golf Association's Western Michigan Chapter, Michigan Section. (Staff photo)

## Janson National Golf Day Winner

Lynn Janson from the Greenridge course in Grand Rapids was the low pro with a par 72 in the National Golf Day event Monday at Point O'Woods Golf & Country Club.

Bob Meyer of Orchard Hills in Buchanan was second at 74, while third place at 75 was shared by guest pro Bob Toski of Miami, Fla.; Ron LaPart of the Battle Creek Country Club, and Will Frantz, an assistant Point pro.

In pro-am best ball competition, the Jim Roschek team from

Lansing and the LaPart foursome of Battle Creek shared first at 58.

Point pro Sam Drake and Berrien Hills Country Club pro Tim Sowinski came in fifth with 62s. Playing with Drake were Lenny Capozzi, Ollie Yates and John Steimle, while the Sowinski squad included George Jaeger, Elmer Wood and Sherrin Ford.

National Golf Day is a charity event held annually by the Western Michigan Chapter, Michigan Section, of the Professional Golfers Association of America.

## Banner Year For Area Girls Track

As predicted, it turned out to be a banner year for girls track in southwestern Michigan.

There were 40 changes made on the all-time honor roll as two records were tied and eight new ones set.

The boys didn't do too badly, either. Benton Harbor's Maverick Burton ran a 9.8 100

for a new record. Berrien Springs' Jack Lewis set a new discus standard of 143-feet, three inches and the Tigers' 440 relay team tied the record of 43.3. In all, 13 changes were made on the all-time list.

The new girl record holders are Berrien Springs' Laurie Schoen (440), Janel Root of

Lakeshore (880), Edwardsburg's Beth Lynn (mile), Kathy Seibel of Decatur (two-mile), Carmella Hull of Benton Harbor (shot put) and River Valley's Deb Lundin (discus).

Lancaster Marlene Peldys tied the 110 hurdles and high jump records.

The outlook for next season is

bright as Schoen and Peldys are juniors, Seibel and Root are sophomores and Lynn is a freshman.

Those five plus other talented returners like Michelle Prier of St. Joseph, Cindy Culver of Coloma and Lake Michigan Catholic freshman Darlene Wallace could make next season

one to remember.

The boys on the all-time list back next season are Burton, Benton Harbor's Ricky McDonald (440), Tim Mance of St. Joseph (440), South Haven's Mike Jones (120 high hurdles), 350 low hurdles) and Kerry Myers of Lakeshore (high jump).

Two spots the boys didn't do well in were the mile and two-mile. The fifth-place time on this season's honor roll is the worst to make the top five since 1970.

Also, for the first time since 1969, all five times in the two-mile were not under 10 minutes.

## Veterans Hunter, Tiant Find Touch

### Zisk Carries Sox To Win

From ASSOCIATED PRESS  
Catfish Hunter says he was glad to find it again. Luis Tiant insists he never lost it.

Hunter's expression of relief and Tiant's vote of self-confidence were voiced after the frustrated veteran pitchers claimed long-sought victories Monday night.

"Everything was working well. I kept feeling good, so they left me in there," said Hunter, who pitched a six-hitter, leading the New York Yankees to a 9-2 victory over the Texas Rangers for his first triumph since opening day.

Before his strong performance against the Rangers, Hunter had voiced fears about his future as a pitcher. "It's the most concerned I've ever been about my arm," said the former Cy Young Award winner who has been troubled by arm miseries all season.

Tiant, meanwhile, was exuding confidence after combining with Bill Campbell on a five-hit, 10 victory over the Kansas City Royals. It was Tiant's third victory of the season, but only his first since April 30.

"I know what I can do and I do it," said Tiant. "There's nothing wrong with my arm. Year after year, they talk about my age. They said that last year and I came back and won 21 games."

Reggie Jackson hit two home runs and knuckled in four runs in support of Hunter's sharp pitching. The 10th and 11th homers for Jackson gave

Hunter, 2-3, a 3-0 lead and the eventual winning run.

The Yankees chased Alexander, 6-3, during a five-hit, four run uprising in the seventh inning that included doubles by Carlos May, Mickey Rivers and Willie Randolph.

In other American League games, the Chicago White Sox beat the Minnesota Twins 9-5 in 12 innings, the Baltimore Orioles downed the Milwaukee Brewers 5-2, the Detroit Tigers blanked the California Angels 8-0 and the Cleveland Indians trimmed the Oakland A's 3-1.

Carl Yastrzemski belted a home run in the seventh inning, providing the winning run for Tiant, who gave up just four hits before Campbell took over in the eighth.

Yastrzemski's homer, his ninth of the year, spoiled a solid pitching effort by Dennis Leonard, 3-6, who surrendered just five hits.

Richie Zisk's fourth single drove across the deciding run and Oscar Gamble followed with a three-run homer in the 12th inning, giving Chicago its victory over Minnesota.

Zisk, who had four hits in five trips, backed a good relief job by Lerrin LaGrow to pull the White Sox within one game of the division-leading Twins in the American League West.

The loser was Ron Schuler, 2-3, the fourth Minnesota pitcher, who was chased after Zisk's single scored Alan Bannister from second.

Jeff Holly replaced Schuler

and was greeted by Gamble's three-run blast—his 11th homer of the season.

LaGrow, 2-0, replaced starter Ken Brett when the Twins rallied for two runs in the ninth to send the game into extra innings.

The Twins missed a chance to win the game in the 11th when Lyman Bostock smacked a two-out triple. But LaGrow struck out Roy Smalley to end the inning.

Homers by Billy Smith and Lee May, coupled with the fivehit pitching of Rudy May, paced Baltimore over Milwaukee.

Pinch hitter Larvell Blanks broke a tie with a two-run single in the eighth inning, leading Cleveland over Oakland. Right-hander Pat Dobson, who went into the game with an 0-5 record and a 7.24 earned run average, struck out seven and walked one in 7 1/3 innings in earning the victory. He allowed six hits before needing relief help.

St. Joseph Catholic got 61 hits, including 18 home runs, while clobbering Fairplain Presbyterian 56-6 in a five-inning Stevensville church league game. Jerry Nye hit three homers and Eddie McCrone was the winning pitcher.

## NHL To Decide Fate Of Barons

MONTREAL (AP) — The National Hockey League's Board of Governors was to convene the formal segment of its convention today and attempt a final resolution of the continued troubles of the Cleveland Barons.

The governors were to listen to George Gund, who might be willing to purchase the Barons in partnership with Sanford Greenberg, owner of the team's Richfield Coliseum home arena.

Alan Eagleson, executive director of the NHL Players Association, said Monday he had heard that Greenberg had decided to withdraw from a potential deal. He said that Mel Swig, who bought the club from the league during the summer of 1975, would fold the franchise if that was the case.

"George Gund is supposed to fly in here," said Gordon Ritz, governor of the Minnesota North Stars. "He is going to make some kind of proposal. Then we are going to decide whether it is feasible for the club to start and finish the 1977-78 season."

The Barons lost more than \$2 million last year after moving from Oakland, where they were known as the California Seals.

One of the major concerns the league has is the Barons' debt to Charles O. Finley, who sold the club to the NHL in 1974.

Once the Barons' matter was discussed, there was to be a report by NHL referee in chief Scotty Morrison. His report was not expected to take up much time, but the Cleveland problem would, so the governors might not get a chance to talk merger.

There was bound to be some heated words when the discussion began.

"I think there are some people on the extreme ends and there is a whole group in the middle," said Ritz. "The group in the middle wants to review any proposal."

"I would like to see the proposal our fact-finding committee has made with the WHA before I decide which way we

are going to go."

Leading the pro-merger force is Ed Snider of the Philadelphia Flyers. The most outspoken anti-merger man has been Harold Ballard, president of the Toronto Maple Leafs.

"I have been quite disturbed about this thing they call amalgamation or expansion," said Ballard. "It's not amalgamation, it's expansion. The survey I've made shows there are seven that are definitely not interested in the WHA."

The seven teams Ballard named Monday were the Boston Bruins, Buffalo Sabres, Detroit Red Wings, Los Angeles Kings, Chicago Black Hawks, the Leafs, Colorado Rockies and probably the New York Islanders.

But Seymour Knox of the Sabres said Monday night he had not made up his mind on the matter and was going into the discussions ready to listen.

Sam Pollock, general manager of the Montreal Canadiens, was surprised "that people are going to vote yes or no about something they don't know about" after someone asked him about Ballard's stand.

"The whole thing is still in the talking stage. Everything is unofficial everywhere, but all the possibilities are still there."

Pollock would not say he favored expansion but added that "it doesn't cost anything to listen."

## Stolz Denies Getting Illegal MSU Money

BOWLING GREEN, Ohio (AP) — Denny Stolz denies he was involved in two questionable \$10,000 transactions while football coach at Michigan State University.

Stolz was accused by a Michigan State committee of being involved with Ken Erickson, a fund raiser for the Big Ten school and son-in-law of former MSU athletic director Bart Smith.

"I completely deny being involved with Ken Erickson," said Stolz, now the coach at Bowling Green State University in the Mid-American Conference.

The Michigan State committee's study on the school's NCAA violations reported Erickson said he transferred sums of \$

## Trollers Getting More Coho Perch Are Biting Again

Perch are biting again along southwestern Michigan's Lake Michigan shoreline. And there is also hope that more coho will be appearing in the catch of trollers on the Big Lake.

Excellent perch fishing started late last week, according to Lloyd Mollhagen Jr., of Mollhagen Fisheries in St. Joseph. A good bait has been

wriggled.

"They are all done spawning now," declared Mollhagen. "When they get done spawning is when they bite best."

An east wind also got credit for bringing the perch in close to shore.

And Mollhagen believes the east wind is also responsible for bringing some coho into the

catch because it has turned up some colder water temperatures.

The coho, which have been biting along the Illinois shoreline most of the spring, are in the three to four-pound class.

Many of the coho are being caught at the 30 to 35-foot depth, which was the thermocline over the weekend, according to St. Joseph charter boat captain Ben Yacobi.

Yacobi also reports the catching of a four-pound whitefish on a flutterspoon. The catching of a whitefish while trolling is rare... only a couple of other catches have been confirmed off the southwestern Michigan shoreline.

Lake trout trollers have been ranging out to 200 feet and trolling lures as deep as 90 feet. But Yacobi says depths of 70 to 110 feet were good producers over the weekend.

On inland waters, the better bass lakes have included Hutchins and Miner in Allegan county; Barron, Diamond, Juno

and Painter in Cass county; the St. Joseph River in Berrien county; and North Jephtha, Rush, Muskrat, Christie, Eagle, Bankson, Gravel and Cora in Van Buren county.

Bluegills are moving into deeper waters, with better waters, according to the Department of Natural Resources, being Hutchins Lake in Allegan county, Big Paw Paw Lake in Berrien county, Van Aiken Lake in Van Buren county and Juno Lake in Cass county.

Some pike are also being taken out of the Paw Paw River in Berrien county.

## National Park Camp Booklet Is Available

The 1977 edition of "Camping in the National Park System" is available from the U.S. Government Printing Office.

The pocket-sized guide provides information on fees, visitor regulations and facilities, safety and back-country camping.

Included in the booklet is a tabular listing of more than 400

campgrounds in 99 park areas from the Virgin Islands to Hawaii.

To obtain a copy of the guide, write the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 and ask for stock number 024-005-00668-1. The cost is 70 cents per copy, payable by check or money order.

**LUNKER LAKER:** Dave Hatt of Jasper, Mich., caught this 34-inch lake trout, which weighed 18 pounds, 6 ounces, on Lake Michigan off Benton Harbor-St. Joseph. Hatt was visiting his brother-in-law, Lynn Burkholder of Benton Harbor, and was fishing aboard a boat owned by Frank Pisarsky of Buchanan. Also aboard and helping land the fish — which was caught on a rattlespoon — was Steve Gilby of Bridgman.

## Reduced Waterfowl Output Is Expected

A decline in waterfowl production from the southern part of Canada's prairie provinces is expected this year because of drought conditions, reports A.J. Macaulay, chief biologist for Ducks Unlimited in Canada.

Lack of water in the southern prairies has forced some nesting ducks into the parklands.

The drought is the product of the driest fall on record in the southern prairies, combined with below normal snowfall during the winter. The warm winter and early spring caused further deterioration of waterfowl habitat because the snow

melt was gradual and water seeped into the soil.

The areas most critically affected are southern Alberta and the southwestern portions of Saskatchewan and Manitoba.

Further north in the parklands, and elsewhere in Canada, water conditions range from fair to excellent.

## NRC Gets Wetland Plan

Two proposals, one that would initiate condemnation proceedings for a state wetlands acquisition and another to provide landowners with limited hunter's choice deer permits, have been slated for the June agenda of the Natural Resources Commission.

The Commission will meet Thursday and Friday in sessions beginning at 9 a.m. at the Park Place Motor Inn in Traverse City.

The parcel of wetlands is located in the Pointe Mouillee Marsh, 28 miles from downtown Detroit. The area has been referred to as the "Michigan Everglades" and is considered important by the Department of Natural Resources because it provides habitat for waterfowl, a spawning area for fish and is an important filter in the Great Lakes system.

"The Pointe Mouillee State Game Area gets tremendous use from hunters, fishermen, boaters, picnickers, sightseers and bird watchers," says L.A. "Curly" Davenport, senior executive of the DNR's Wildlife Division. He adds that acquisition of a 182-acre tract of land is needed because of its central location, access to the Mouillee Creek, and previous loss of some 2,000 acres of habitat to high Lake Erie waters and shoreline erosion.

The land parcel lies within the dedicated boundary of the state's game area and is currently owned by Charles J. and Marjorie G. Roelant. Dee Weaver, supervisor of the DNR's lands division wildlife

unit outlined some of the difficulty found in obtaining the land.

"The owner has not given an asking price, has not hired an appraiser and merely has a verbal agreement with a broker," he says.

"Our final written offer was not accepted although it was based on a certified appraisal."

"We plan to keep negotiations open until the judge makes his decision."

Wildlife's Davenport says that because of high waters and shoreline erosion, hunting in the Mouillee area has nearly disappeared.

"When we bought the marsh," he says, "it was protected by a barrier reef. High waters in the 1950's washed it out and carried material inland."

What had been marsh is now open water in Lake Erie."

Davenport notes that the Army Corps of Engineers is constructing a new barrier reef with dredging spoil from ship channels in the Detroit and Rouge rivers. Sometimes called "the big banana," because of its shape, the new reef will occupy 600 acres where part of the old reef was.

"The new reef will provide shore fishing and help with the production of food for waterfowl," he says. Davenport adds that special measure are being taken to prevent pollution which could result from the dredging spoil.

In other action, the Commission will consider a proposal which would establish landowner's limited deer permits

on an experimental basis.

Under the DNR proposal, landowners who are unsuccessful in getting a permit through the regular drawing in a few areas in each region, would be granted limited permits up to a specified quota.

"These permits will limit the landowner to hunting antlerless deer on his own land or that of his neighbor with permission," says DNR wildlife biologist Dave Arnold.

The Commission will also consider DNR wildlife division recommendations for bear hunting regulations in 1977, rules for the hunting and trapping of muskrats, mink and muskrats for 1977-78, and regulations covering most of Michigan's small game seasons in late 1977 and early 1978.

## Egg Controls Proposed

Rules governing the sale of salmon eggs are expected to get final approval at Friday's monthly meeting of the Natural Resources Commission at Traverse City.

Under the regulations, salmon eggs would be sold or purchased only at designated and posted state salmon egg buying stations.

The high value of salmon eggs and uncontrolled selling and buying encouraged fishing violations in the past and led to the proposed rules. There were cases of eggs being taken from the salmon, with the carcass

being left to contribute to streamside litter and odor.

Eggs from Michigan salmon have been bringing fishermen from 50 cents to \$3 per pound, with an average price of about \$1.25 per pound. A 20-pound chinook might have four to five pounds of eggs, so some fishermen might consider the eggs of more value than the meat of a fish which might already be starting to die and decay after spawning.

The new rules would help reduce litter and odor problems by allowing the sale of salmon eggs only if accompanied by the

parent fish. Loose eggs could be sold only when each pound of eggs is accompanied by 10 pounds or more of salmon carcasses.

Anglers who don't want the carcass of their fish would also be taken care of, because buyers would be required to accept the fish and dispose of them properly.

## Miles Powder Puff Champion

Barbara Miles' 13-pound, 2-ounce lake trout was the largest fish caught in Saturday's second annual powder puff derby sponsored by the Southwestern Michigan Steelheaders.

Other division winners were Angie Radtke with a 7-pound, 8-ounce steelhead; Carol Smith with a 6-pound, 10-ounce chinook; Gail Modigell with a 4-pound, 2-ounce coho, and Ruth Bentsen with a 6-pound, 3-ounce brown trout.

The anglers catching the three largest fish in each division won trophies, and Miles

had her name engraved on a traveling trophy for having the largest overall fish.

Other winners were Dawn Duisy, Dianne Lynn, Danny Norris, Evelyn Bultema, Shane McCarthy, Sue Small, Scott Garcia and Patti arren.

Trophies were awarded at a picnic following the contest at the St. Joseph Township Park.

## B-J's Holding

### Four Contests

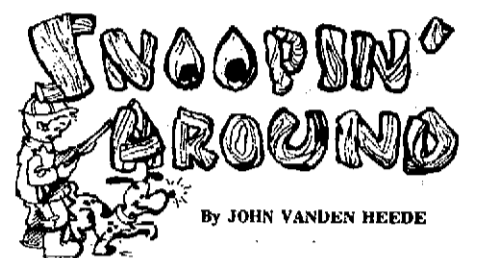

Four fishing contests are now underway at B-J's Sports in St. Joseph. There are separate contests for the largest bass, perch, lake trout and northern pike. The event runs through Aug. 31, with monthly winners receiving a \$25 gift certificate and overall winners \$50 prizes.

**TURTLES TOOTHLESS**  
No turtle has teeth, whether it be a sea turtle, a tortoise or a fresh-water terrapin.

## Outdoor Calendar

JUNE 5-10

Monthly meeting of the National Resources Commission at 9 a.m. each day at Park Place Motor Inn in Traverse City.

By JOHN VANDEN HEED

Taxpayers ended up paying for the feeding of deer — many of which died of starvation anyway — in the Upper Peninsula's controversial Beaver Basin.

The state legislature, under the urging from senate appropriations committee chairman Dominic Jacobetti of Negaunee, has approved reimbursing the Alger-Munising Sportsmen's Club \$27,000 for feeding the deer.

There was opposition. "We have appropriated a reward to a private group for opposing government policy," declared Rep. Lynn Jondahl of East Lansing. "To me it's stupid, encourages defiance of wildlife management and sets a precedent that — while not binding — opens the door to other private groups to seek state funds."

But despite the feeding program, the toll was grim. Preliminary results of a Department of Natural Resources count show more than 130 whitetails died in the Beaver Basin area from January to the spring breakup, most of them because of starvation.

The Beaver Basin deer herd was once kept large through a private feeding program. But the area then became part of the Pictured Rocks National Lakeshore, and it was decided something had to be done with the herd because national park policy is against maintaining wildlife through a feeding program.

Plans for a special hunting season to remove some of the deer were formulated by the DNR, but it was opposed by some U.P. sportsmen and ended up being knocked down in the court. The feeding program at taxpayers' expense followed.

The future of the Basin's deer won't be settled until at least September, when Judge Clair Hoehn will hold another hearing on the matter.

## THE QUIZ

### world travel

(10 points for each question answered correctly)

- 1 What government document identifies an international traveler and gives his citizenship?
- 2 If you were visiting Piccadilly Circus, you would most likely see...  
a-animal and trapeze acts  
b-congested London streets  
c-traffic circles in Washington, D.C.
- 3 A ship sailing through the Panama Canal from the Atlantic to the Pacific emerges (CHOOSE ONE: east, west) of where it entered.
- 4 The Great Barrier Reef is considered one of the natural wonders of the world. Where is it located?
- 5 The longest undefended border in the world is the one between the U.S. and (CHOOSE ONE: Mexico, Canada).

### newsname

(10 points if you can identify this person in the news)

I am premier of an island nation. Restrictions on travel by U.S. citizens to my country were lifted in the spring of 1977. Who am I and what is the name of my country?

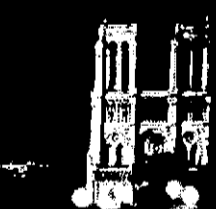

### currency match

(4 points for each correct match)

- |            |                   |

## Need Some Lake Weeds

Lakefront property owners concerned with problems caused by aquatic plants may find a new Department of Natural Resources booklet helpful.

"Aquatic Plants and their Control" stresses that the goal of aquatic plant management is not to "kill weeds" but to maintain a proper balance of plants within a lake and still retain its recreational and economic importance, notes the DNR's Al Massey, who helped develop the pamphlet which is available without cost.

"Plants are a vital part of any lake or pond," he says. "The replenish aquatic environment with oxygen that is essential to aquatic animals. Animal life and bacteria utilize them for food and energy. Plants are associated with reproductive activities of certain fish and furnish protection for young animals and fish. In too great an abundance, however, they conflict with man's recreational and economic interests."

The booklet is available by writing the DNR's Land Resources Program Division, Box 30028, Lansing, Mich. 48909. It divides management into two phases. Long-term management is concerned with manipulating nutrients to prevent excessive plant growth, while short-term management is the direct manipulation of the plants themselves.

# Detroit Youth Jailed For Extortion Effort

BIRMINGHAM, Mich. (AP) — An 18-year-old Detroit youth has been sentenced to six months in jail for trying to extort \$25,000 in reward money offered in connection with one of the Oakland County child kidnap-murders.

Michael Blue also was placed on five years' probation by Isiting Recorder's Court Judge George Ryan last week.

Blue had pleaded guilty to a charge of extorting reward money from the police department in this northern Detroit suburb in connection with the March 3 kidnaping of 11-year-old Timothy King, who subsequently was found murdered. He was one of seven children in the county to be abducted and killed over a 14-month period.

After the boy's disappearance, but before he was found dead, officials said Blue called police and offered information on the case in exchange for \$25,000 in reward money.

Two weeks later, Blue tried to pick up money left by police behind his apartment, but fled without the money when officers closed in. A second meeting was set up the next day, and he was arrested.

Police said Blue had no connection with the King boy's abduction or murder.

SCHOLARSHIP WINNER: Kim Lantz, daughter of Mr. and Mrs. William Lantz, Paw Paw, has been named winner of \$250 scholarship awarded annually by Paw Paw chapter of Business and Professional Women's club. A senior at Paw Paw high school, she plans to study medical technology at Kalamazoo Valley Community College next fall.

# Hackett Grads Get Diplomas Via U.S. Mail

KALAMAZOO, Mich. (AP) — The 146 seniors at Hackett High School will get their diplomas by mail after graduation ceremonies were called off because a "prank day" got out of hand.

School officials said some students threw smoke bombs and firecrackers in the school building Friday.

Afterwards, the Catholic school's 30 teachers voted unanimously to cancel the graduation ceremony scheduled for Sunday.

"For the first time in my five years at the school, I was fearful to enter the halls," said one teacher.

Senior class officials said about seven students were involved in the incident, and four of them later presented written apologies to school authorities.

**Sterne Brunson**  
**School Slates Commencement**

Commencement exercises for 84 sixth graders of Sterne Brunson school will be held this evening at 6:30 in the performing arts center at Benton Harbor high school. Principal T.C. Wallace Jr. said Dean Sanders, deputy superintendent of instruction for the Benton Harbor district, will speak on the theme "Love Will Keep Us Together." A reception for graduates and parents will be held in the student commons.

# Berrien Springs School Board To Fill Vacancy

BERRIEN SPRINGS — The vacancy left on the Berrien Springs school board by the death of George Bennett is to be filled at a special meeting of the school board Thursday at 7:30 p.m. in the middle school. The special meeting will precede an information meeting of the board already scheduled for that night, according to Supl. Jon Schuster. Bennett died May 25. He had been on the board since 1962.

# General Telephone Ups Long Distance Circuits

SOUTH HAVEN — General Telephone company says it is installing new equipment valued at \$137,682 to accommodate an increase in customer needs for long distance calling in the Covert, Hartford, Saugatuck and South Haven exchanges.

Equipment installation is scheduled for completion this month in order to make circuits available during the summer which is the high usage period for the exchanges, according to L. K. Muench Jr., southwestern division manager of the company.

Many of the circuits will be used to provide additional long distance circuits to the general public while others will be used for special services, such as business customers who are developing data networks.

Covert customers will also be provided new "intercept" equipment that provides the calling party a message when the number they are trying to reach has been either disconnected or not yet in service. An operator intercept will also be available to Covert customers for all changed numbers.

**Ad Man Dies.**

DETROIT (AP) — Sheldon Moyer, vice president and director of the Newspaper Advertising Bureau, died Monday at Henry Ford Hospital, where he was recovering from surgery. He was 56.

# Michigan's Population Shift Accelerating

DETROIT (AP) — A federal survey of Michigan's population trends shows the Detroit-Wayne County declining, Upper Peninsula and suburban southeastern counties gaining and residents generally losing ground in purchasing power compared to other states.

The report by the U.S. Bureau of Census says the exodus of citizens from major Michigan cities continues.

Indications were that the state would lose at least one congressional seat by 1990 and that Detroit would lose at least two of its 20 state legislative seats if the Motor City's population loss continues.

One significant part of the report was a state police conclusion that crime is following the path of population movement. Offenses such as purse snatching and mugging have followed those moved from troubled cities to smaller communities.

In addition to the crime increase in many communities, there are other problems such as an influx of senior citizens causing a strain on hospital and medical facilities.

On the financial front, the census report showed the 1974 per capita income was \$4,751. That put Michigan 17th among the states, a drop from the 12th spot it held in 1970. The national per capita income in 1974 was \$4,572.

The government survey confirmed that the much publicized southern migration to the state is still going on.

While the Upper Peninsula logged population growth of 7 per cent, Wayne County dropped 5.7 per cent to 2.5 million persons.

Many of those who fled from major cities appeared to bypass their adjacent suburbs in favor of the northern part of the Lower Peninsula.

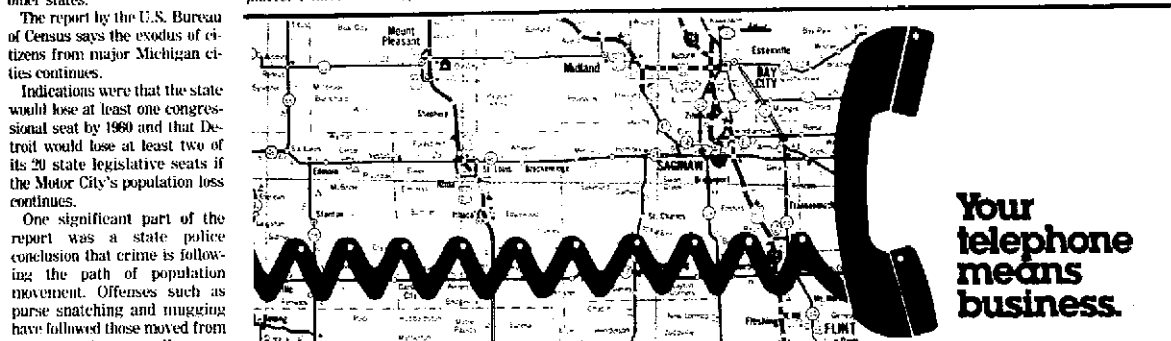

Professor J. Allan Beegle of Michigan State University said of the population shift, "All the indications today are that people want pretty remote places. I have a feeling it is a strong preference to escape the heavily populated areas and their troubles."

The biggest gains in northern Michigan were recorded in the counties of Osego, a 29.1 per cent increase to 13,436; Gladwin, 24.5 per cent to 16,770; and Ogemaw, 24.3 per cent to 14,735.

Michigan's urbanized counties showed smaller changes. Genesee County was up 0.9 per cent and Jackson 2.3 per cent while Kalamazoo was down 0.1 per cent.

Detroit reported an 11.8 per cent population loss from 1970 to 1975, to 1,335 million.

Oakland County planning director George N. Skrubbs said of population shifts, "We are now gradually moving towards what might be called a steady population growth. Most of the county's net growth is now due to births rather than to migration from other areas."

## Expand your sales territory without leaving your office.

Reach out by phone and you can reach prospects almost anywhere. Quickly, Easily, Economically.

It's the economical way to qualify prospects before making a sales visit. Especially when the average sales visit costs over \$70\* Or, you can actually sell directly by phone—anywhere in the country. You can reach more prospects in a single day than you can visit in a full week, at a fraction of the cost of being on the road. That's because the average sales call costs only about \$2.00 when you dial direct.

Sell by phone. It gives you much longer reach!

## Dowagiac Council Adopts \$1,014,305 City Budget

DOWAGIAC — The Dowagiac city council last night approved without change its proposed 1977-78 budget by a 4 to 1 vote.

The general fund budget anticipates revenues of \$1,039,305 and expenditures of \$1,014,305, allowing for a contingency fund of \$25,000. Current expenditures for fiscal 1976-77 have been pegged at \$942,927.

Casting the lone dissenting vote was Joseph Silva. Voting for the budget were Robert Hesse, Maurice Oppenheim, DeVee Hunsberger and Clarence Self. Councilman David Groner was absent.

Silva said he voted against the budget because only one council work session on it had been held, instead of two, which

he claimed had been promised.

Silva missed the work session. He questioned whether the budget had been given adequate consideration. His remarks were vigorously disputed by Mayor Graham Woodhouse and Henry Graper Jr., city manager, who contended the entire budget had been given careful scrutiny with all councilmen given ample opportunity for input.

The new budget will not require an increase in the city's general operating property tax rate of 15.5 mills. The city also gets two mills for debt retirement of the city's waste water treatment plant expansion program. The city's state equalized valuation is over \$24

million, Graper said.

In other areas, the council approved a set of annual fees to be charged for various licenses and permits required under the recently adopted airport ordinance.

The fee schedule is as follows for people working out of the airport:

A fixed base operator, \$100; ground school instructor, \$100; flight school and flight instructor, \$100; mechanical services, \$75; mechanical schools and instructor, \$100; sales rental and leasing agencies, \$100; air taxi and charter operators, \$100; flying clubs, \$100 plus \$50 for each airplane; scheduled airlines (currently there are none) no fee was set; other activities such as car rentals, food service, advertising, will be determined at time of application. Before there were no annual fees.

At the request of Councilman Self, a letter signed by all council members will be sent to the state highways and transportation department asking when a long awaited traffic light will be installed at the intersection of Front and Prairie Ronde streets.

Francis Hisecock, 507 Bauer street, was re-appointed to a six-year term on the city building authority.

Mayor Woodhouse and Michael Schott, police chief, presented the police department's 1977 youth citizenship award to Miss Tawara Brezen, 402 Orchard street. She received a framed citation and \$50 bond. Miss Brezen is also valedictorian of her senior class and Dowagiac's Blossom Queen for 1977.

Graper told the council he is working out details of a plan whereby the crime prevention program started by Officer Edward Owen, can be continued on a part-time basis, even though funding for the program was not included in the city's new budget.

## Buchanan Twp. Will Remove River Campers

BUCHANAN — Trespassing laws will be strictly enforced in an attempt to combat illegal use of a private boat ramp on the St. Joseph river near here, Supervisor Kenneth Jones said at last night's meeting of the Buchanan township board.

Jones instructed Galen Weaver, township constable, to enforce the laws at a ramp at the Miami Marina subdivision, located at the northeast end of East River road in the township.

The instructions came after a letter sent to the board and Weaver from the property owner, First National Bank of Southwestern Michigan, was read. The letter authorized Weaver to remove trespassers, and said overnight camping and public use of the boat ramp was prohibited.

East River road residents have complained of camping at the spot, which does not have public toilet facilities, Jones said.

In a related area, Jones told Fred Hanks, also of East River road, that the public boat ramp on the river near the Indiana & Michigan Electric Co. dam would again be posted with signs prohibiting overnight camping. Jones said the signs had been removed in the past.

Hanks voiced complaints about camping at the public ramp and the lack of toilet facilities there.

In other areas, the board authorized advertising for bids for a proposed addition to the township hall, and said the bids would be opened at a special meeting on Tuesday, June 29, at 7:30 p.m. No cost estimate has been made for the proposed 1,300 square-foot addition, but Jones has previously pledged it would not be built if a tax increase was necessary.

Clerk Donna Newsom announced that copies of a revised, proposed new township zoning ordinance would be available at the Tuesday, June 29 meeting of the township planning commission.

The board instructed Mrs. Newsom to contact the state Department of Natural Resources concerning erosion to St. Joseph river banks in the township. Board members and township residents have voiced concern about possible damage to both Red Bud trail and East River roads by the erosion.

Jones announced he would attempt to postpone a scheduled June 15 meeting of the Southeastern Berrien county Landfill authority because the Berrien county chapter of the Michigan Township association was meeting on the same date. Topic of discussion at the authority meeting was to be a proposal to franchise private trash haulers in the areas served by the landfill in order to increase landfill revenues.

Jones also said he would

investigate a complaint voiced by Mrs. Newsom that the landfill was closed on Saturday, May 8. He said it was to have been open on that date, despite the fact that it came during the long Memorial Day weekend.

The board instructed its attorney, John Spelman, to contact the owner of the former Red Bud Inn about removal of the structure destroyed by two fires in 1975. The owner is James Gideon of Benton Harbor.

Payment of \$118 in dues to the Michigan Township association was approved.

Appointment of board of zoning appeals was tabled until the board's June 14 meeting.

## Eau Claire Slates Police Interviews

EAU CLAIRE — In a special meeting last night, the Eau Claire village council agreed to meet privately Thursday night with four applicants for the job of village police chief. If a selection is made, a formal recommendation will be submitted to the council on July 13, village officials said. The post has been vacant for some time.

In other action last night, the council voted to have Ferguson Brothers Body Shop repair the village dump truck at a cost of \$540. The Eau Claire firm was the lowest of three bidding on the job. Also last night, former Village President Marvin LaVanway asked for a breakdown of the costs in street and sewer construction up to and beyond Shawnee Specialties Co., a lead and zinc die cast firm in the village. Village officials said LaVanway would get the breakdown once he makes a request in writing.

## Decatur Hires 7 For Park, Beach

DECATUR — The Decatur village council last night hired seven people for the village's Lake of the Woods park and beach that opens June 18.

Hired were Dorothea Benson, at \$3.50 hourly as head swimming instructor and assistant lifeguard; Scott Ferros at \$3.50 hourly as head lifeguard; and Mary Skinner, Theresa Hayes and Bill Carson at \$3 hourly as assistants.

Also hired were Viola Grandstaff and David Gephardt, at \$2.75 hourly, as gate keepers.

Under present plans, Decatur residents will be able to use the park and beach free if they pick up a sticker at the police department. Non-Decatur residents will have to pay 50 cents per person for admission.

Village officials said the beach will have a lifeguard on duty from noon to 6 p.m. daily, and will be open from noon to 9 p.m. daily.

It also gave Charles Henderson Jr. permission to use the concession stand in the park for selling refreshments.

In other areas, the council set Friday as the date when Frank Thompson Ambulance service will begin providing emergency service for the village.

Thompson is taking over after Decatur firemen voted in March to drop the service because of a lack of properly trained volunteers.

The council also accepted the low bid of 46.8 cents per gallon for gasoline, from Don Labadie of Paw Paw; and the low bid of \$695 from Thomas and Sons of Decatur for razing the house at 311 John street.

It granted the Decatur Lions club permission to hold a carnival, June 23-25, in the parking lot on Sherwood street.

The council voted to start proceedings on the request of Gary and Gail Congdon, 204 Williams, to rezone their property from residential to business so they can operate a beauty shop.

The council set a special meeting for 7 p.m. next Monday, and set its scheduled July 4 meeting for July 11.

matching basis for road care.

In other road matters, the board decided to spend its revenue sharing funds for 1977-78, just under \$10,000, for township road improvements. The township also approved making a \$20,000 advance payment to the Allegan county road commission for summer road work. Township and county funds are used on a

In other areas, the board raised the pay of its zoning board and planning commission members from \$2 to \$5 per meeting.

The board requested Wayne Blanchard, township fire chief to institute a training program for the volunteer fire department.

**BILL BARTZ DAY:** Benton Harbor Kiwanis club President Robert Doner (left) and Second Vice President Larry Holben joined William H. Bartz and his daughters yesterday after Bartz was named a Distinguished Kiwanian by the club. His daughters are Mrs. Allen (Carol) Stockman, to the left of Bartz, and Mrs. Loyd (Joyce) Both. (Staff photo)

## Distinguished Kiwanian Title Given To Bill Bartz

By NICK SMITH  
Staff Writer

William H. Bartz, an active member of the Benton Harbor Kiwanis club at age 83, was named a Distinguished Kiwanian by the board of directors of the Benton Harbor Kiwanis club yesterday.

He accepted the honor during "Bill Bartz Day." The meeting was held at the Benton Harbor Holiday Inn.

Atty. Myron H. Wolcott, a member of the St. Joseph Kiwanis club who attended the Benton Harbor club's meeting, said that to mark the event a contribution of \$520 has been made in honor of Bartz by members of the Benton Harbor club.

The contribution was made to the Distinguished Kiwanian Fund, a part of the Michigan District of Kiwanis International's Forney W. Clement Memorial foundation.

Wolcott, a foundation trustee, said the foundation supports recreation and rehabilitation programs for children at the C.S. Mott Children's hospital, Ann Arbor; and the Mary Free Bed hospital, Grand Rapids.

Bartz told fellow club members and several members visiting from the St. Joseph club "I don't deserve all this and I don't know why you made such a big fuss of it. It's just my life."

Larry Holben, second vice president of the club, said Bartz joined the club in 1939. Since then, he hasn't missed a meeting.

On two earlier occasions the club has named Bartz "Kiwanian of the Year." From 38 until his retirement in 1968 he was Berrien county treasurer.

Mrs. Carol Stockman, one of his daughters, presented her father with a Kiwanis pin from the family. Other family members on hand were his wife, Madge; Mrs. Joyce Both, a

**Cashier Going  
For Another  
\$100,000 Win**

LANSING, Mich. (AP) — A retired Hamtramck cashier, Genevieve Borowski, 60, will try to increase her winnings by \$100,000 in the state lottery's "Michigan" television show Thursday night.

Mrs. Borowski already has won \$107,000. The widow and mother of two said she will save her prize money for her old age. Her six challengers are: Marie Dale, 64, of Wyandotte; Arthur Dancoski, 71, of Luzerne; Andre Farrar, 40, of Lincoln Park; Four Bees Lottery Club of Warren; Chester Jarosz, 61, of Detroit; Arthur Williams, 56, of Detroit.

**SWITCH CHARGE**

NEW YORK (AP) — General Motors Corp. has been accused of a second instance of engine-switching, this time involving Cadillacs, Buicks, Pontiacs and Oldsmobiles, by New York State Atty. Gen. Louis Lefkowitz.

daughter; and Steve Stockman, a grandson.

Mrs. Stockman said that her son, Congressman Dave Stockman, wanted to attend the event

but could not get away from Washington, D.C.

Bartz and his wife live on Scottsdale road, Royalton township.

## Covert Unveils Plan To Expand Park On Lake

COVERT — A proposal to expand and improve the Covert township park along Lake Michigan was unveiled by the Covert township board last night.

Under the proposal, if the township can get a 50 per cent shared-cost federal grant, it would build and improve trails, walks, access roads, electric and water and sanitary facilities and build bridges, campsites and scenic viewing areas.

Township officials said they intend to meet sometime in July or August at the park to discuss the two- or three-year park improvement plan.

At the township meeting to discuss the plan were Vic Rose of St. Joseph who is project coordinator of Sauk Trails Resources and Conservation development program for the U.S. Department of Agriculture, and Nolan Waller, district conservationist for the USDA office in Paw Paw.

No price tags were put on the project at last night's meeting, but the USDA spokesmen said the township's share of the costs could be made in part by construction labor.

The township board also announced that at a special, May 18 afternoon meeting, it approved salaries for some township employees.

Under approved salaries, the cemetery sexton is to get \$420 annually, but also be paid \$650 for spring clean up; \$85 for each mowing of the No. 2 cemetery; and \$45 for each mowing at Fish cemetery; plus \$3 for burying a dead cat and \$4 for burying a dead dog.

The salary of the building inspector was set at \$900 an-

nually; the fire and ambulance chief at \$5,000 yearly; the landfill caretaker at \$1,500; extra clerical, \$3.75 hourly; election inspectors, \$2.90 hourly; and the chairman of the election board at \$2.60 hourly plus \$7 per day.

The board tabled two items for further study.

It tabled acceptance of a bid for gravel to build a new road in cemetery No. 2. Chum White had submitted the lowest bid, \$6,015.

Also tabled was a proposed improvement of the sanitary landfill. Yerington Construction Co., Benton Harbor, submitted the sole bid, \$22,275; \$23,240; and a second at one at \$27,581.

Township officials also announced a new health screening program for senior citizens in the area will begin soon. The monthly screening will be held at the township hall with medical technicians seeing four to six people on each visit.

The township board also appointed Jerome Shumate to fill a vacancy on the township planning commission.

Shumate takes the place of Ralph Calabrese who had resigned for health reasons.

## USSR Hit By Quake, Floods

MOSCOW (AP) — A strong earthquake and spring floods have caused serious damage in the central Asian Soviet republic of Kirghizia, the Soviet press reported today.

Areas in the neighboring Soviet republic of Tadzhikistan were also flooded, the reports said.

## Lee Okays Paving Extension

PULLMAN — The Lee township board last night approved extending the black-topping of Maple street some 100 feet to Lower Scott lake.

Several residents who live along the stretch were in attendance last night and made the request, according to Melvin Riston, township clerk. The \$1,660 project was originally to be on Maple from Lake street to

108th.

In other road matters, the board decided to spend its revenue sharing funds for 1977-78, just under \$10,000, for township road improvements. The township also approved making a \$20,000 advance payment to the Allegan county road commission for summer road work. Township and county funds are used on a

# Robber Given 8 To 10 Years

**By DENNIS COGSWELL  
Paw Paw Bureau**  
**PAW PAW** — A South Haven man whose original conviction on a charge of armed robbery was overturned by the state appeals court, was sentenced Monday in Van Buren circuit court to serve from eight to 10 years on the same charge.  
The sentence was handed down by Judge Meyer Warshawsky who gave Ralph Cunningham, 26, credit for 596 days already spent in custody.  
Cunningham had originally been convicted of the armed robbery charge by a circuit court jury in July, 1975, and was subsequently sentenced to a 10 to 20 year prison term. The appeals court overturned the conviction last January, and ordered Cunningham remanded back for a new trial.  
However, Cunningham, who had been free on bond since the conviction was reversed, chose in April to plead no contest to the charge.

His attorney, John Szymanski, told Judge Warshawsky yesterday that his client was tired of having the matter "hanging over his head" and wanted to get his sentence over. Szymanski said Cunningham pleaded no contest against his advice to go through with a second trial.  
The charge involved the hold-up of two women at a South Haven township mobile home on Nov. 1, 1974. Police said then \$84 had been reported taken.

In other cases, John Kirby, 19, route 1, Decatur, was sentenced to 33 days in jail, with 23 days credit, and placed on one year probation on a charge of attempted larceny from a motor vehicle, a checkbook from a truck in Decatur on Aug. 2, 1975. He had pleaded guilty earlier to the charge.  
Everett Painter, 25, Lawrence, pleaded guilty to a charge of attempted larceny in a building, a .22-caliber pistol from a Hartford township home last Sept. 26.

James J. Bloomquist, 37, 137 North Whitaker, New Buffalo, and Christine D. Anderson, 20, 9312 Shady Lane, Lakeside, pleaded innocent to two counts of breaking and entering involving burglaries at a pair of Covert township cottages on April 25.  
Robert E. Lamoreaux, 27, route 1, Bangor, pleaded innocent to a charge of attempting to break and enter the West Michigan Savings bank, 232 West Monroe, Bangor, on April 18.  
Dennis Versluis, 20, Paw

Paw, pleaded guilty to a charge of attempting to break and enter the Desert Gems jewelry store in Paw Paw on April 18.  
William C. Thorpe, 18, South Haven, also known as Bill Hill, pleaded guilty to a charge of attempted larceny in a building growing out of a burglary last Nov. 19 at a Columbia township home.

## Estimates Are Sought

**BERRIEN SPRINGS** — The Berrien Springs village council last night authorized Glenn Reitz, streets administrator, to seek estimates for seatcoating streets in the Krohn housing addition and Highland estates, and for blacktopping the village parking lot and three alleys in the business district.  
In other areas, the council accepted the resignation of Trustee Edwin (Bud) Racine, effective June 21.  
Racine, elected to the council in 1976, has accepted the position of development officer at the Loma Linda University medical center, Loma Linda, Calif. The move has been previously announced.  
The council approved American Legion club plans for a street dance to be held 9 p.m. to 1 a.m., Sunday, July 3, in the 100 block of North Bluff street.

## Bainbridge Mulls Ambulance Funding

The Bainbridge township board last night discussed the possibility of making an annual contribution to the Watervliet fire and ambulance board instead of guaranteeing payment of ambulance bills for township residents as suggested by the ambulance-fire board.  
No action was taken by the board after James Lull, township treasurer, said there is no urgency to act on the proposal.  
The contribution would be made to the ambulance board during the township's settlement day, held prior to its annual township meeting. A similar contribution is made to the Coloma Emergency Ambulance service.  
According to Mrs. Beverly Koroch, township clerk, the board has expressed no desire

**FORUM:** Princess Elvina Pallavicini, confined to a wheelchair, answers questions at news conference at her Rome palace Monday after a lecture by Msgr. Marcel Lefebvre, the French archbishop who has repeatedly challenged Papal views on church reform. Princess told newsmen she was merely providing Msgr. Lefebvre a forum. Vatican spokesman assailed lecture as a personal offense to the Pope. (AP Wirephoto)

## Two Face Charges In Burglary

**SOUTH HAVEN** — Terrance Smith, 22, 501 Green street, South Haven, demanded a preliminary examination when arraigned yesterday in Seventh District court on a charge of breaking and entering.  
Smith was arrested by South Haven police in connection with the alleged breaking and entering of Jack's Super Value grocery store, 237 Broadway avenue, on June 2. A quantity of liquor, sandwich meats and cigarettes were taken, police said. A 15-year-old boy has also been apprehended in the case and is to be petitioned to Van Buren probate court, according to police.  
Smith was ordered held in lieu of \$5,000 bond pending a June 14 examination.

## Accused Embezzler Arraigned

**PAW PAW** — A former Hartford man was arraigned Monday in Seventh district court on a charge of embezzling \$1,993 from a Hartford gas station where he used to work.  
Randy Sibley, 27, demanded preliminary examination on the charge. Bond was set at \$2,000 pending a June 13 hearing.  
Hartford police said Sibley was taken into custody in connection with a complaint by the W.E. Jersey Co., Benton Harbor, owner of Hartford Gas at 108 East Main.  
Police said Sibley is accused of not having turned over to the Benton Harbor firm the money he received from the sale of gas and oil products at the Hartford station last fall.  
He is the second person arrested in less than a week on a charge of embezzling money from the Jersey company.  
Last week, Edward Meagher, 21, 318 East Linden, Hartford, was arraigned on a charge of embezzlement of \$788 from the same station in March.  
Police said that the two cases, except for the fact that they involve the same station, are unrelated. Meagher was scheduled for a preliminary hearing today.

## Accepted

**HARTFORD** — The Hartford fire board last night accepted the lower of two bids for blacktopping the parking lot and driveway at the fire station.  
Accepted was the bid of John G. Yerington Construction Co., Benton Harbor, at a cost of \$3,261.  
In the only other action, the board voted to advertise for bids on providing the fire department insurance based on new specifications developed by the board.

**Prison  
Ahead**  
H.R. Haldeman, left, and former Attorney General John Mitchell, right, once top lieutenants of Richard M. Nixon, have been ordered by Federal Judge John J. Sirica to report to federal prison by noon June 22 to begin serving 2 1/2 to 3-year terms imposed in 1975 for their Watergate cover-up roles. They are spending final two weeks at home getting affairs in order. Haldeman will be locked up at Lompoc, Calif. Prison for Mitchell has not been selected. Mitchell is first U.S. Attorney General to be sentenced to prison. (AP Wirephotos)

## Incumbents Re-Elected

**ALLEGAN** — Incumbents Mrs. Phyllis Drozd and Arnold Green were re-elected to six-year terms on the Allegan county intermediate school district board last night.  
Mrs. Drozd of Allegan is currently board treasurer and Green of Glenn is board vice president. Each received five votes and were unopposed. Five representatives from the intermediate's eight local districts were present.

**BILL IS BACKED**  
LANSING, Mich. (AP) — Mickey Winnograd, chairman of the state Democratic Party, today endorsed a measure to restrict bail for persons accused of serious crimes.

## SMC Registration Underway

**DOWAGLAC** — Regular registration for summer courses at Southwestern Michigan College here continues through Thursday in the O'Leary building, according to college officials.  
The admissions office is open from 9 a.m. until 4 p.m., and from 7 p.m. through 8:30 p.m. Tuition for summer session courses must be paid at the time of registration.  
Summer session courses begin next Monday and continue through July 28, for six-week courses, and through Aug. 9, for eight-week classes, the college spokesman said.

# Dad might not feel too bad if you forget Father's Day

## But wouldn't he feel great if you remembered?

(It's June 19th)

A Public Service Reminder from the National Father's Day Committee.

**TUESDAY, JUNE 7, 1977**

**BEETLE BAILEY**

Panel 1: Beetle Bailey, wearing a chef's hat and apron, is cooking at a stove. A heart symbol is on his chest. A small number "6-7" is in the bottom right corner.

Panel 2: Two chefs are in the kitchen. One is stirring a pot while the other looks on. A small number "6-8" is in the bottom right corner.

Panel 3: Beetle Bailey is looking stressed, with a thought bubble above him saying "UK! THE STUFF I HAVE TO SWALLOW WHEN SOMEBODY'S WATCHING!". A small number "10-5" is in the bottom right corner.

**BUGS BUNNY**

Panel 4: Bugs Bunny is dressed as a jester, performing on a stage. He says, "BARK PER ACT WITH BUGSY." and "NOT BAD!". A speech bubble from him says, "I ASPIRE TO BECOME THE WORLD'S PREMIER JUGGLER... PUFF... GASP".

Panel 5: Bugs Bunny is juggling. A speech bubble says "OOPS!". A small number "10-6" is in the bottom right corner.

Panel 6: Bugs Bunny is being hit by a pie. A speech bubble says "THAT'LL BE FIVE BUCKS FER THE WINDOW... AN' DON'T CALL ME, I'LL CALL YOU!". A speech bubble from him says "SIGH!". A small number "10-7" is in the bottom right corner.

REX MORGAN, M.D.

THINK ABOUT IT, PAUL! THE BOARD WANTS YOUR ANSWER IN TWENTY-FOUR HOURS!

GOOD NIGHT, VARGO!

WHAT'RE YOU GOING TO DO, MR. BELMONT?

I'M NOT GOING BACK TO THE ORGANIZATION, JAKE!

I'M TELLING YOU BECAUSE THEY WON'T REACT KINDLY TO MY DECISION! YOU'RE FREE TO GO TO THEM!

WICHITA, Kan. (AP) —

**MARY WORTH**

APPARENTLY YOU FEEL THAT RUTH SHOULDN'T BE ENTERTAINING THIS MR. FOLEY, ANNE?

AS I TOLD HER, HIS REPUTATION ISN'T ENTIRELY UNBLEMISHED!

EVEN IF THAT WEREN'T THE CASE, HER FRIENDS MAY CRITICISE HER FOR HAVING A MAN IN HER HOME SO SOON AFTER ADDISON'S DEATH!

YES, THERE IS A SORT OF TRIBAL TABOO UNDER WHICH A WIDOW IS EXPECTED TO BECOME A RECLUSE FOR A STATED PERIOD OR FACE SOCIAL OSTRACISM!

I DO FEEL SHE SHOULD HAVE WAITED AND ENTERTAINED HIM HERE WITH YOU PRESENT!

**JUDGE PARKER**

I WASN'T CERTAIN THAT YOU'D BE HOME FROM WORK YET!

THE JUDGE LET ME GO EARLY! I TOLD HIM I HAD AN AWFUL

THIS SHOULD CURE IT! YOU UNDERESTIMATED THE VALUE, MY DEAR! THIS WILL BE APPRAISED AT BETTER THAN HALF A MILLION!

LOVELY!

# NEWS OF MARKETS

## Stocks Continue To Slide

NEW YORK (AP) — The stock market headed lower again today in the aftermath of Monday's downturn.

The Dow Jones average of 30 industrials fell more than 2 points in early trading.

Losers took a 5-3 lead over gainers among New York Stock Exchange-listed issues.

Analysts said the collapse of last week's rally on Monday had discouraged traders.

They also noted uneasiness over a report that Saudi Arabia might raise its oil price by 5 percent on July 1.

Today's early prices included Black & Decker, unchanged at 13 1/2; Westinghouse Electric, off 1/2 at 19 1/2; and K-mart, down 1/2 at 29 1/2.

On Monday the Dow Jones industrial average fell 9.16 to 987.07, wiping out last Friday's 9.16-point gain.

Losers outnumbered gainers by a 4-3 margin on the NYSE.

Big Board volume totalled 18.93 million shares, down from 20.33 million on Friday.

The Big Board's composite index dropped .24 to 53.12.

On the American Stock Exchange, the market value index eased .04 to 113.24.

**CONSERVATIONIST DIES**  
INTERNATIONAL FALLS, Minn. (AP) — Ernest C. Oberholzer, 93, noted conservationist and naturalist, died at a nursing home here Monday at the age of 93.

## Bridgman Council Hikes City Tax Rate By 1 Mill

BRIDGMAN — The Bridgman city commission last night voted 4 to 2 to increase the city 1977 property tax rate by one mill.

The action will make the general operating levy 12 mills instead of 11. A one mill levy for library operations was also continued, making the total 1977 rate 13 mills.

The increase will reduce the amount of funds to be drawn from the city's reserves to meet the projected 1977-78 budget, according to Mayor Ronald Gelesko.

The projected budget is estimated at \$700,000.

Voting for the increase were commissioners Marilyn Stanard, James Catania, James Benbenek and Gelesko. Voting

NUTRITION PROJECT  
FOR THE ELDERLY

**ADVERTISEMENTS FOR PRICE QUOTATIONS**  
Food service contractor price quotations are being accepted for preparing (with or without delivery) approximately 700 hot meals per day, 5 days a week for senior citizens to selected congregational meal sites within Berrien, Cass and Van Buren Counties. Cost of food, hot and cold containers, disposable utensils, and labor to be itemized.

Specifications and forms are available at the Berrien Senior Citizens Nutrition Project, 662 Highland, Benton Harbor, Michigan 49022. Final date for acceptance is June 20, 1977 at 9:00 a.m. Bids will be opened publicly at the Berrien County Senior Citizens Nutrition office on June 20, 1977 at 10:00 a.m.

The project reserves the right to reject any or all proposals or any part thereof, and to make awards in any manner deemed to be in the best interest of the Nutrition Project.

### NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the conditions of a certain mortgage made the 22nd day of May, 1968, by Eleanor H. Rhodes, assumed by Gale A. Molnar and Barbara J. Molnar, as mortgagors, to United States of America, as mortgagee, and recorded on May 22, 1968, in Liber 830 of mortgages on pages 519-522, and certain mortgage made the 13th day of March, 1973, and recorded on March 13, 1973, in Liber 947 of mortgages on pages 1060-1063, in the Office of the Register of Deeds for Berrien County, Michigan; on which mortgages there is claimed to be due and unpaid at the date of this Notice Nineteen Thousand Eight Hundred Thirty-Five and 54/100 dollars (\$19,835.54) principal and Six Hundred Seven and 81/100 dollars (\$607.81) interest; no suit or proceeding at law or in equity having been instituted to recover the debt, or any part of the debt, secured by said mortgages, and the power of sale contained in said mortgages having become operative by reason of said default.

NOW THEREFORE, Notice is hereby given that on June 28, 1977, at 10 o'clock in the forenoon, at the front steps of the courthouse in St. Joseph, Michigan, that being the place for holding the Circuit Court for the County of Berrien, there will be offered for sale and sold to the highest bidder, at public sale, for the purpose of satisfying the amounts due and unpaid upon said mortgages, together with the legal costs and charges of sale, provided by law and in said mortgages, the lands and premises in said mortgages mentioned and described, as follows, to-wit: That property located in Berrien County, in the State of Michigan, LOT 64, "COLOMA HEIGHTS NO. 1", PART OF EAST HALF OF NORTHWEST QUARTER OF SECTION 20, TOWNSHIP 3 SOUTH, RANGE 17 WEST, CITY OF COLOMA, BERRIEN COUNTY, MICHIGAN, ACCORDING TO THE PLAT THEREOF, RECORDED OCTOBER 15, 1968, IN VOLUME 16 OF PLATS, PAGE 28, BEING IN THE CITY OF COLOMA, BERRIEN COUNTY, MICHIGAN. SUBJECT, HOWEVER, TO ALL VALID OUTSTANDING EASEMENTS, RIGHTS-OF-WAY, MINERAL LEASES, MINERAL RESERVATIONS AND MINERAL CONVEYANCES OF RECORD. SUBJECT TO THE RIGHTS OF THE PUBLIC AND OF ANY GOVERNMENTAL UNIT IN ANY PART THEREOF TAKEN, USED OR DEEDED FOR STREET, ROAD OR HIGHWAY PURPOSES. The redemption period will be six months from the time of such sale. Property may be redeemed by paying amount bid at sale plus 3% interest and any unpaid encumbrances on the property from date of sale. Dated May 10, 1977 Mrs. Winifred D. Molony, Regional Attorney, United States Department of Agriculture, Room 2920, 210 South Dearborn Street, Chicago.

Illinois 60604, Attorney for Mortgage. For Additional Information please contact: UNITED STATES OF AMERICA, Acting through Farmers Home Administration, Room 209, 1405 South Harrison Road, East Lansing, Michigan 48823, Mortgagee.

**ANNUAL SCHOOL ELECTION**  
NOTICE OF ANNUAL ELECTION OF THE ELECTORS OF COVERT PUBLIC SCHOOLS DISTRICT NO. 18  
Van Buren and Berrien Counties, Michigan  
to be held  
June 13, 1977  
TO THE ELECTORS OF THE SCHOOL DISTRICT:  
Please Take Notice that the Annual Election of the School District will be held on Monday, June 13, 1977, in the School District.

THE POLLS OF ELECTION WILL OPEN AT 7:00 O'CLOCK, A.M., AND CLOSE AT 8:00 O'CLOCK, P.M.

At the Annual School Election there will be elected one (1) member to the Board of Education of the district for full term of four (4) years ending in 1981.

THE FOLLOWING PERSONS HAVE BEEN NOMINATED TO FILL SUCH VACANCIES:  
Bernard Beland  
Helen Fox  
Ethel R. Frazer  
Freddie L. Moore  
Jacqueline N. Pearson

**TAKE FURTHER NOTICE**  
THAT the following propositions will be submitted to the vote of the electors at the Annual School Election:

I. TAX RATE LIMITATION INCREASE PROPOSITION FOR OPERATING PURPOSES: Shall the limitation on the amount of taxes which may be assessed against all property in Benton Harbor Area Schools, Berrien County, Michigan, be increased by 4 mills (\$4.00 on each \$1,000.00 of state equalized valuation) for a period of 5 years, 1977 to 1981, inclusive, for the purpose of providing additional funds for operating purposes?

II. TAX RATE LIMITATION INCREASE PROPOSITION FOR MAINTENANCE OF SCHOOL FACILITIES: Shall the limitation on the amount of taxes which may be assessed against all property in Benton Harbor Area Schools, Berrien County, Michigan, be increased by 1 mill (\$1.00 on each \$1,000.00 of state equalized valuation) for a period of 5 years, 1977 to 1981, inclusive, for maintenance of school facilities?

Each person voting to elect a member to the Board of Education and on the above proposition must be an elector to the school district.

I, A.A. Smith, Treasurer of Van Buren County, Michigan, hereby certify that, as of April 11, 1977, the records of this Office indicate that the total of all voted increases over and above the tax limitation established by the Constitution of Michigan, in any local units of government affecting the taxable property located in Covert Public Schools District, Van Buren and Berrien Counties, Michigan, is as follows:

## ORDINANCE NO. 32

AN ORDINANCE TO AMEND ORDINANCE NO. 13 OF CHIKAMING TOWNSHIP WHICH WAS ADOPTED ON MAY 6th, 1965.

## THE TOWNSHIP OF CHIKAMING ORDAINS:

Section 1. Section 11 of Ordinance No. 13 of Chikaming Township which was adopted on May 6th, 1965 is hereby amended to read as follows:

Section 11: Except as hereinafter provided, water to be furnished by the system to each premise shall be measured by a meter installed and controlled by the Township. Charges for water service to each premise within Chikaming Township connected with the Water Supply System, shall be as follows:

## Notes for Premises Served on Monthly Basis

(a) A minimum monthly charge depending on the size of meter used as set forth below, which charge shall entitle one customer to use 2500 gallons of water during the month, to-wit:

Meter Size	Minimum Monthly Charge	Water Removal Charge
5/8"	\$ 6.00	\$ 30.00
3/4"	7.00	35.00
1"	8.00	40.00
1-1/2"	10.00	50.00
2"	12.00	60.00
3"	16.00	80.00
4"	20.00	100.00
6"	See Section 11 (b)	200.00

(b) For all water used during the monthly period in excess of 2500 gallons, charges shall be made at the following rates, to-wit:

\$1.10 per 1000 gallons for 2500 to 5000 gallons per month.
\$1.60 per 1000 gallons for 5000 to 10,000 gallons per month.
\$ .90 per 1000 gallons for 10,000 to 20,000 gallons per month.
\$ .86 per 1000 gallons for 20,000 to 35,000 gallons per month.
\$ .82 per 1000 gallons for 35,000 to 50,000 gallons per month.
\$ .78 per 1000 gallons for 50,000 to 65,000 gallons per month.
\$ .74 per 1000 gallons for 65,000 to 200,000 gallons per month.
\$ .66 per 1000 gallons for 200,000 to 500,000 gallons per month.
\$ .60 per 1000 gallons for all over 500,000 gallons per month.

## ANNUAL PRE-PAYMENT OPTION

(c) In lieu of the foregoing "Monthly Basis" in Section (a) and (b), any single residential premise may, at the option of the owner, pre-pay a minimum charge once each year. The Water Department will send a bill each billing period showing the amount of prepaid credit remaining on the account.

## The Rates for the Annual Pre-Payment Option are as Follows:

5/8" meter	minimum charge	\$72 per year
3/4" meter	minimum charge	\$84 per year

In the case of meters larger than 3/4", the annual pre-payment rate is based on the monthly minimum rate X 12.

The Annual Pre-Payment Option entitles the customer to use 2500 gallons per month. For water usage in excess of 2500 gallons per month, charges will be made at rates specified in section (b) above.

(d) Charges for water service furnished by said system to premises outside of Chikaming Township shall be fixed by the Township Board

but shall not be less than those charged to premises within the district.

(e) The Township shall pay for all water used by it at the foregoing rates, except that for fire hydrant service, the charge shall be \$25.00 per year for each hydrant in Chikaming Township. Charges against the Township shall be payable in monthly or quarterly installments, in the discretion of the Township, from the current funds of the Township or from the proceeds of taxes, which the Township, within constitutional limitations, is hereby authorized and required to levy in an amount sufficient for that purpose.

(f) A meter deposit of \$25.00 as partial cost of supplying and installing meter shall be made by each owner of premises connected to the system. Such deposits hereafter made, together with those previously made, shall be held in trust for the depositors by the Township, which shall not be required to pay interest thereon. In the event that the depositor ceases to be the owner of the premises, his deposit shall be returned to him after deducting any unpaid charges.

(g) A renter's service deposit of \$35.00 to guarantee payment of water bills shall also be made for each connection where water is furnished to a renter of the property served. Such deposits hereafter made together with those previously made, shall be held in trust for the depositors by the Township which shall not be required to pay interest thereon. In the event that the depositor ceases to rent the premises, his deposit shall be returned to him after deducting any unpaid charges.

(h) The Township Water Board, by its Township Water Board, may authorize under certain conditions a water rate which shall be available only to approved private water systems which own their own water distribution lines; install, maintain and repair their own water lines and appurtenances thereto; and bill and collect all fees in connection with its consumption of water. In such a case, the Township Water Board will provide water to such private system at current retail rates plus a special minimum charge to be established by the Township Water Board.

Section 2: Section 12 of Ordinance No. 13, adopted May 6th, 1965 is hereby amended to read as follows:

Section 12. No free service shall be furnished by the system to the Township or to any person, firm or corporation, public or private, or to any public agency or instrumentality. Charges for services rendered by the system shall be calculated on a monthly basis but billed and collected on either a monthly, bi-monthly, quarterly or annual pre-payment basis and payable as of the "Due Date" which is the 17th to the 19th of the month in which the bill is sent. If payment is not received by Water Department by the "Due Date" shown on the water bill, such charges shall be deemed delinquent and a penalty of 10% shall be added thereto. If such a delinquency shall continue for thirty (30) days, then all services furnished by the system to such premise shall be discontinued. When service shall have been discontinued, whether for nonpayment of charges, or otherwise, a charge of \$10.00 shall be made for the final meter reading and disconnection. Premises shall not be reconnected unless all unpaid charges, including penalties are paid in full plus a reconnection charge of \$10.00.

If the owner requests Water Department to remove the meter, there will be a charge as shown in Section 11 (a) depending on meter size. This charge must be prepaid before removal of meter. Meter will be reinstalled by Water Department when so instructed by owner. There is no additional charge for reinstalling meter.

Section 3: From and after the effective date of this ordinance it shall be unlawful for any unauthorized person to tamper with, disturb, adjust, turn off, remove, disassemble, destroy or damage any water shut off valve, water meter or any other appurtenance to said water system. Any person convicted of a violation of the section of this ordinance shall be deemed guilty of a misdemeanor punishable by a fine of \$100.00 and/or imprisonment in the County Jail for 90 days.

Section 4: Validity. If any provision of this ordinance is found invalid by a court of competent jurisdiction, it shall not affect the validity of any other section or provision herein.

Section 5: Enactment. This ordinance was enacted on the 7th day of June, 1977, by the Chikaming Township Board and ordered to be published in the St. Joseph Herald-Palladium on the 7th day of June, 1977, being within ten (10) days of its enactment and ordered to be made effective on the 7th day of July, 1977, being thirty (30) days after publication thereof.

Lena Abrahamson, Clerk  
Chikaming Township

Attest:  
Donald C. Peterson, Supervisor  
Chikaming Township

## CERTIFICATION

The undersigned certifies that the names of the Township Board members and the vote on the adoption of the foregoing ordinance were, as follows:

	Yes	No
Peterson	✓	
Abrahamson	✓	
Sperry	✓	
Griffin	✓	
Samuelson	✓	

I further certify that the foregoing ordinance was published in the Herald-Palladium of St. Joseph, Michigan on the 7th day of June, 1977.

## Five Ask For Hearings In District Court Cases

Eddie Marshall of Benton Harbor was jailed yesterday in lieu of bonds totaling \$25,000 following his arraignment in Berrien Fifth District court on three charges stemming from two separate incidents.

Marshall, 25, of 287 North Winans street, Benton Harbor, demanded a preliminary examination on a charge of assault with a dangerous weapon — a car jack — on Percy Hawkins in Benton Harbor June 4. Judge Hugh Black set a bond of \$20,000 on the felony charge.

In a separate incident, Marshall pleaded innocent and demanded a jury trial on misdemeanor charges of assault and battery against Benton Harbor Patrolman Delmar Lange and disorderly person, creating a disturbance. Bonds of \$2,500 were set on each of these charges.

In the assault and battery charge, Marshall is accused of spitting on Lange while being taken into custody about 6:45 a.m. Monday at Ninth and Main streets.

Police were called to the location by a driver for Advance Cab lines who reported a customer refused to pay \$1.55 fare, according to an arrest report.

When officers arrived, they found a man walking down Main street throwing his clothes off and shouting obscenities, the report said. Marshall was then arrested on the disorderly person charge.

In other District court actions yesterday and Saturday, four people demanded preliminary examinations and 10 people were sentenced.

Demanding preliminary hearings were:

Kenneth R. Warr, 23, of 1315 Ferry street, Niles, on charges of extortion and bribery; and Thomas J. Warr, 26, of the same address, on a charge of bribery.

Kenneth Warr is accused of threatening the family of Officer Carl Manning of the Berrien Springs-Oronoko township police department and of offering Manning \$5,000 as a bribe not to arrest him. Thomas Warr is accused of offering Manning \$100 as an inducement not to arrest him.

The two men were arrested about 4 p.m. Friday after a car was stopped on US-31 about a half mile south of Lincro road in Oronoko township, police said.

Kenneth Warr failed to post \$10,000 bond and Thomas Warr failed to post \$7,500 bond. Both were jailed.

Jerry L. Daisy, 17, of Box 408K, Blastock road, Bainbridge township, on a charge of unlawfully driving away a 1971 Chevrolet belonging to Mary Phillips in Coloma township May 23. Daisy failed to post \$2,500 bond.

Jeffery E. Pullins, 17, of Box 367, Territorial road, Benton Harbor, on a charge of attempted breaking and entering a concession stand at Fairplain East

elementary school, Benton township, on June 4. He was released on a \$2,000 personal recognizance bond.

Sentenced were:

John A. Henry, 27, of 436 Felton avenue, Benton township, three days jail and \$82 fine and costs or 30 days jail for driving with a suspended license June 5 in Sodus township. He was also sentenced to five days and \$105 or 30 days for driving with a suspended license and to \$135 or 30 days for failing to stop and identify himself at a property damage accident, both Oct. 9 in Benton township.

David A. Moore, 27, of 220 East Ash, Three Oaks, 30 days for contempt of court — failure to appear at a Feb. 10 trial on a petty larceny charge.

Les England, 46, of Valparaiso, Ind., \$152 or 30 days for impaired driving June 6 in New Buffalo.

Delei R. Calvin, 23, of Detroit, three days and \$82 or 15 days for driving with a suspended license May 31 in Benton township.

Rosie L. Thomas, 48, of River Rouge, Mich., \$75 for disorderly person, carrying a pistol without a permit; and \$155 for driving under the influence of intoxicants June 4 in New Buffalo township.

Edward Grim, 41, of Mobile, Ala., \$200 or 40 days for driving under the influence of intoxicants; and four days and \$100 or 24 days for contempt — failure to appear at a Dec. 11, 1974, trial on the driving while intoxicated charge.

Sentenced for driving while intoxicated were Rodney W. Robinson, 21, of Westville, Ind.; Bobby G. Tunstall, 20, of 5406 Coloma road, Coloma; and Roger H. Hansen, 26, of LaPorte, Ind., each \$152 or 30 days. Also, Bobby N. Smith, 38, route 1, Napier avenue, Benton Harbor, \$152.

A charge of harboring and concealing a fugitive May 11 in Benton township was dismissed against Ricky E. Britton, 21, of 1633 East Empire avenue, Benton township.

**FUNNY FACE:** She's eight weeks old and looking for a home. She's a mixture called cockapoo and can be interviewed at the Humane Society of Southwestern Michigan, 641 South Crystal avenue, Benton township. (Staff photo)

## Three Offenders Handed Prison Terms By Hughes

Three men were sentenced to prison yesterday in Berrien Circuit court, and a fourth was ordered to begin probation with 90 days in jail.

Judge Julian E. Hughes imposed a 2½ to 5-year prison sentence on Ronald James, 24, of Kalamazoo, for attempted breaking and entering. Hughes said James was on parole from prison at the time of the attempted break-in.

James was charged with attempting to break and enter the residence of Paul Kuzma, at 6779 Hagar Shore road, Colma township, on April 12. James was sentenced to 18 months to 7 years in prison in January, 1975, for delivery of amphetamines, and was paroled in March, 1976, according to court records.

In other sentences by Hughes: Steve Kovacs, Jr., 33, of South Bend, received a 1 to 2-year prison term for careless discharge of a firearm Aug. 16 at Kubiac's tavern in Niles township. He was accused of shooting Gail Kennedy in the leg with a .22 caliber revolver.

Larry A. Johnson, 18, formerly of Benton Harbor, got 16 to 24 months in prison, with credit for nearly one year already served, for a probation violation. Johnson had been placed on two years probation by Hughes in December, 1975, for attempted assault with a deadly weapon.

He violated his probation by

pleading guilty in circuit court to attempted larceny from a person, and was sentenced to 6 to 10 years in prison for that offense by Judge William S. White. Hughes said the most recent prison term is to run concurrent with the other.

Charles Patterson, 22, of Edwards road, Sodus township, was ordered to spend the first 60 days of a two-year probation in jail for resisting and obstructing Benton Harbor Patrolman Kenneth Webster Aug. 27 in the 400 block of Territorial road, Benton Harbor.

Nine people arrested in raids led by the Berrien Metro Narcotics squad last month were arraigned yesterday in Circuit court. Six pleaded innocent before Hughes to narcotics charges and three pleaded guilty before Hughes to narcotics charges.

Pleading innocent to charges cited were:

Robert S. Sorget, 20, 1902 North Fifth street, Niles, delivery of PCP Jan. 22 in Niles.

Brian Schultz, 17, 2067 West Lemon Creek road, Baroda, delivery and possession of PCP March 4 in Lincoln township.

Floyd W. Davis, 23, Baldwin road, Lake township, delivery of marijuana, Feb. 22 in Lake township.

Allan W. Newton, 27, 3128 Pipestone road, Benton township, delivery of amphetamines March 30 in Benton

township.

Deborah Collins, 23, Ravines trailer park, Benton township, delivery of amphetamines March 30 in Benton township.

Kevin Myers, 20, 803 Regent street, Niles, delivery of PCP Feb. 3 in Niles and delivery of marijuana Feb. 7 in Niles.

Pleading guilty before Hughes were:

Daniel A. Barton, 18, 1114 Hickory street, Niles, delivery of PCP Jan. 21 in Niles township.

Walter F. Bradley, 29, 1946 East Britain, Benton township, delivery of amphetamines March 22 in Benton township.

Neil G. Dillenbeck, 21, 404 Main street, Niles, attempted delivery of PCP March 31 in Niles.

Pleading no contest to a charge of attempted carrying a concealed weapon before Judge Zoe S. Burkholz was Charles G. Austin, 33, of Lansing, accused of attempting to carry a .43 caliber pistol July 4, 1976, in Hagar township.

### Predicts Passage

WASHINGTON (AP) — The sponsor of a House bill to remove restrictions on political activity by federal workers is predicting passage of the measure as the House resumes work on it.

## Kennedy Backs Gun Penalty Bill

LANSEING — State Rep. Bela Kennedy (R-Bangor) said he voted for a bill outlining mandatory penalties for carrying concealed guns "because we've got to get these people off the streets."

The 45th district representative said the bill provides a "stiff" fine of \$1,000 and costs of \$200 for conviction on the first offense. A second offense would result in a minimum prison term of one year and third and subsequent offenses would carry three-year minimum prison terms, Kennedy said.

Kennedy said that while the present concealed gun law is a felony carrying a maximum penalty of up to five years in prison and can include a \$2,500 fine, a person convicted "is seldom subjected to the maximum penalty." He added that "many people do not believe it is a serious crime and some feel it is their right for self protection."

The bill was sent to Senate by a 97-4 House vote.

### NIXON SENTIMENT?

WASHINGTON (AP) — "There is some Nixon sentiment out there" says Sen. Robert Dole of Kansas. But the 1976 GOP vice presidential nominee stops short of predicting a quick political comeback for the fallen former president.
